"LIFE SAVING IS RED CROSSAIM"

Most Important Work of Peace Is Welfare of People, Says Dr. Farrand.

ORGANIZATION MUST GO ON

Co-ordination of All Movements to Conserve Humanity and Prevent Disease is After-War Task.

"The efficient organization which the American Red Cross built up to meet the demands of war must not be permitted to slip back into inactivity," said Dr. Livingston Farrand, chairman of the Central Committee of the American Red Cross who is touring the country to place the proposed peace work squarely before the people. His tour was outlined to carry the message into all states as a forerunner of the Third Red Cross Roll Call, to be conducted from Nov. 2 to 11 for 20,000,000 annual memberships and \$15,000,000.

Most Diseases Preventable.
"The war has accentuated and sharpened our realization that the greatest contributing factor in disturbing the happiness of mankind is the question of physical well-being, the problem of health and disease," Dr. Farrand said. A large portion of the disease of the world is preventable, and the people naturally are looking to organizations that are able to help and guide; that are built on lines that begot confidence.

"The organization best equipped for this purpose is the American Red Cross. States and municipalities must conduct this campaign and the local Red Cross organizations are operating units. For the last ten years leaders in health work have sought an organization capable of co-ordinating the various local activities into a massed movement which would produce results. That organization is the Red Cross.

Nursing Program Developed.
Are we not going to take advantage of this opportunity to better humanity? We have here an organization that represents every national interest; that knows no party and no creed; that has attached to it every type of man, woman and child in the United States and we propose to put this energy behind the great movement to co-ordinate and bring together these varied interests so far as possible.

"The biggest activity which the Red Cross has undertaken in this field is the great public nursing program. The entire movement for public health depends upon the adequate development of the public nurse."

FOR SALE—Good quarter section of and with good improvements, 4 miles south of Inavale, Neb., on easy terms. Write for full description.—C. F. Cathor Red Cloud, Nebr.

PRINCE ALBERT
the national joy smoke

Copyright 1919 by R. J. Reynolds Tobacco Co.

NEVER was such right-handed-two-fisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Tippy red bags, tidy red tins, handsome pound and half-pound tin humidors—and that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.
