Farm Bureau Notes

FARMERS' INSTITUTE
 Plan now to show some of your best livestock, poultry or farm products at the Farmers' Institute on December 8 to 12 and help to make this the largest Farmers' Institute ever held.

\$1200 cash premium money is being offered. Good judges have been secured to make the awards.

Don't come to the Institute and look over the exhibits and make remarks that you have better livestock at home, for a person who does this is the worst kind of a knocker.

POULTRY CULLING

The weather was against us for holding Poultry Culling Demonstrations. I wrote for Mr. Cornman the fore part of September and he was booked until November 10. So many requests came in that I wrote for 3 days more and was turned down. His dates were taken up until in January so we will have to get along without an extension specialist. I will give as many culling demonstrations as time permits. I gave one Thursday and one Friday and have many more booked. It is very important that you should cull out the hens that will not lay any eggs and sell them, as feed is too high priced to waste on hens that will not lay.
STUDENTS' STOCK JUDGING
 On Thursday afternoon the Students' Stock Judging Team of the Red Cloud High School was taken out to Woodburn Stock Farm, operated by C. B. Steward. They were coached in the judging of cattle, horses and hogs. The other High Schools of the county will be given stock judging work and each High School will have a team to compete for high honors at the Farmers' Institute.

NEW DAIRY LAW

A new dairy law was passed at the last session of the Legislature and came effective July 18, 1919. One of the provisions in this law requires dealers in milk and cream to obtain an annual license from the Department of Agriculture in all cases where the product, in whole or in part, is sold to be consumed as milk or cream, when produced from a herd consisting of more than five cows. Those who sell milk or cream which is the product of a herd of five cows or less, and those who sell milk and cream produced from any number of cows when the entire product is sold for manufacturing purposes exclusively, are exempted from this provision. The fee for the license is one dollar (\$1.00) and all licenses expire on July 1st of every year.
 The law also provides that no milk shall be sold which has been taken (a) from any animal having any sickness or disease, (b) from any animal which has not been examined by a duly licensed veterinarian, and certified by him to be free from disease, within not to exceed one year previously. Milk which has been taken from any animal which has not been examined by a licensed veterinarian, must be pasteurized before it is offered for sale. This latter provision applies to the sale of all milk and cream, regardless of the size of the herd from which it is produced, whenever the product is sold to be consumed as milk or cream.

The policy of the Department of Agriculture has been to give ample time to the owners of dairy cows in which to have the same tested. An effort has been made to cooperate with local officials, especially the Boards of Health, who would naturally be interested in the enforcement of the provisions of the dairy law. Members of these Boards are requested to inform the Department of any violations of the above provisions or any others of the Dairy Law so that prompt action can be taken in enforcing this measure.
 The licensed veterinarians are requested to co-operate in every way possible and especially in the way of designating a certain day at which time cows can be bunched in one place; so that the rates for testing will be as small as possible for the owners of these small herds. Veterinarians are also requested to adhere to the scale of fees for such tests as recommended by the Bureau of Animal Industry of this Department.
 County Agents are asked to co-operate by giving every assistance possible to the owners of dairy cows in bunching them at convenient places and at designated times so that the fee for testing can be reduced to a minimum and not be a burden, especially to the one cow or small herd owners.

This is a subject in which everyone is vitally interested. The owners of dairy herds should be interested in knowing that their herd is free from disease; the public at large is interested in obtaining the best quality of milk possible, so that everyone should co-operate in every way possible and assist in carrying out the provisions of this Dairy Law.
 It has been deemed advisable to set a date prior to which, dealers of milk must be licensed and dairy cows must be tested. This date has been set for February 1, 1920. After this date it will become necessary for the Department of Agriculture to prosecute violations of the above provisions of the Dairy Law.

Department of Agriculture,
 LEO STUHE, Secretary.

Mesdames W. A. Sherwood and E. A. Creighton spent Monday with their sister, Mrs. C. F. Gund and family at Blue Hill.

Camel CIGARETTES

CAMELS supply cigarette contentment beyond anything you ever experienced! You never tasted such full-bodied mellow-mildness; such refreshing, appetizing flavor and coolness. The more Camels you smoke the greater becomes your delight—Camels are such a cigarette revelation!
 Everything about Camels you find so fascinating is due to their quality—to the expert blend of choice Turkish and choice Domestic tobaccos.
 You'll say Camels are in a class by themselves—they seem made to meet your own personal taste in so many ways! Freedom from any unpleasant cigarette after-taste or unpleasant cigarette odor makes Camels particularly desirable to the most fastidious smokers. And, you smoke Camels as liberally as meets your own wishes, for they never tire your taste! You are always keen for the cigarette satisfaction that makes Camels so attractive. Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!
 Compare Camels with any cigarette in the world at any price!
Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.
