ALWAYS THE BIGGEST AND BEST SHOW!

Bargains in Kansas Lands

We have a man who is very much interested in his neighbors and friends that wants a home where they can double their money, this he knows by experience himself. He has traveled eastern Colorado and western Nebraska, which are good places, but he has found a place much better, with better soil, and grass and good water. This land yields more wheat, corn and barley, than any place he has traveled.

We have a very large list of land, for sale, in Sheridan county, Kansas, the share of the crop goes with the place, if sold by May 1st.

We have some good grazing land in this and adjoining counties, which can be bought cheap. He has traveled over several counties, before he bought. He bought one section nine years ago at \$20.00 per acre, and refused \$60.00 per acre last July.

He has owned this section nine years now and during that time only two crops were very light. This section has paid for itself and paid for another section besides.

Now if any one wants a good home or a place to make money, come and talk with us and make arrangements to go out with us. These great bargains are only one hundred and twenty-one miles from Red Cloud, Nebraska, by railroad. We have a few farms you can have possession of in March, 1920. Price on this land runs from \$20 to \$60 per acre, except the grass land, which can be bought cheaper. Home office Red Cloud, Nebraska, over State Bank.

Branch office Selden, Kansas, C. R. Carpenter, Manager.

A. H. CARPENTER
Red Cloud, Nebraska.

Mr. and Mrs. Dave Bell went to Kansas City Wednesday morning to spend a few days. They will also visit at Tulsa, Oklahoma, before returning home.

FOR SALE

Four Duroc Jersey Boars, recorded. Two at \$25.00 each, one at \$35.00 and one at \$50.00.

MIKE BLISS,
Inavale, Nebraska.

Prof. Miller left Saturday morning for Hot Springs, South Dakota, where he will take up his position.

Chas. Steward and son, Curtis, went to Denver Wednesday morning to attend the live stock show. They shipped several head of cattle out there to exhibit at the show.

Rearing the Philco Retaining Wall that makes possible a Two Year Guarantee

IT has taken five years to do it—five years of the most painstaking scientific research—to rear the PHILCO RETAINER. But it was worth it.

For the result is the longest, strongest guarantee ever put behind a storage battery for automobile starting, lighting, and ignition.

The Philadelphia Diamond Grid Battery without the Philco Retainer was and is a good battery. Not one in a thousand has failed to outlive its long guarantee of eighteen months. But the Philadelphia Diamond Grid Battery with the Philco Retainer is even better. In gruelling tests, it has outlasted and out-performed any other battery we could buy or build. In actual war service in the U. S. Navy, it has demonstrated its supreme practical worth.

THE new patented feature, the Philco Retainer, is a thin sheet of slotted hard rubber, which is placed flat against the active material of each positive plate. In any battery this active material tends to disintegrate and fall off. The faster this occurs, the quicker the battery wears out. Altho the slots in the Philco Retainer are so numerous that they allow the free passage of acid and current, each slot is so narrow that the Retainer is, in effect, a solid wall which holds the active material firmly in place.

This means for you at least six months extra battery service secured by a definite guarantee.
