RED TAPE FINALLY UNWOUND

For a Time It Had Sergt. Hayes Tied Up, But He Came Out a Lieutenant.

Once upon a time there was a man who "fired" his employees that he might have the pleasure of hiring them over again. That would seem to be somewhat the way with the marine corps. It "fired" its men that the government may do them special honor.

Sergt. Edgar Hayes, a red-blooded patriot of the marine corps, overheard an aspersion upon the uniform of his service. Sergeant Hayes promptly hit the speaker in the nose. The marine corps sat upon his case in solemn court-martial, and after much deliberation dismissed Sergeant Hayes from the service, thus creating civil disabilities. The case later was reviewed by the president, who pardoned Hayes and restored him to citizenship. Hayes has now been restored to the service and created a first lieutenant, an act of congress having empowered the president to make the appointment.

It is a roundabout way of doing a man honor. And it shows something wrong with the system. We wonder what the dignified gentlemen of the court-martial would have done if it had been proved that Sergeant Hayes, now Lieutenant Hayes, having overheard an aspersion upon his honorable service, had condoned it by inaction.—Chicago Times-Star.

Lumber Cut of 1918.

The lumber cut of the United States in 1918 was 29,362,020,000 feet, as reported to the forest service up to June 15 by 14,753 mills. The complete total cut is 31,800,454,000 feet, based on the assumed operations of 22,546 mills. The computed cut in 1918 is 11 per cent smaller than the computed production in 1917.

A comparison of the computed cut of several of the larger general producing regions in 1918 with the figures for the preceding year shows a smaller output by approximately 20 per cent in the yellow-pine group of states, a decrease of 19 per cent in the North Carolina pine group and of 9 per cent in the Lake states. An increased cut of 2 per cent is noted for Oregon and Washington.

POLITICAL ADVERTISING

Washington, D. C.
December 13, 1919
Johnson Club Committee, Lincoln, Nebraska:
I was very glad to learn of the organization of a Preliminary Committee in Nebraska, having for its object the nomination of Senator Johnson of California as a Republican candidate for president of the United States.

The public record of Senator Johnson is an open book. From the beginning, when he engaged almost single handed in California, to rid that state of railroad control, he has stood as one of the leaders for progressive thought and progressive government. My personal acquaintance with him has only increased the admiration that I had formed in reading about his work in California. His nomination will be opposed by those interests which have always stood in the way of progress in government, but in my judgment the great patriotic, common people of our country are enthusiastic in his behalf.

I am in entire sympathy with the purpose of your organization and will do everything I can to assist.
