

## Mr. Ford Owner

We have installed in our shop Bearing and Burning In Motor Test and Running In Stand for the Ford Motor and Ford Tractor

The old system of scraping the bearings obtains only 40 to 50 per cent bearing surface, because no mechanic can scrape an even or uniformly smooth surface. With this machine you always obtain 100 per cent bearing surface. When burned in the bearings must fit the shaft absolutely tight and all uneven portions are burned off.

We would be glad to have you come in and see this machine. One look will convince you that we are right.

Foreman Lee who arrived here several days ago with his gang to construct a new water tank for the Burlington moved his gang to Holdrege Thursday to make some needed repairs there. He intends to come back in a couple of weeks and resume his work here. It is rumored that the Burlington will also put up a new coal shed which will be of the latest type, being of concrete and steel. This change if made will be welcomed by all employees of the Burlington as the coal shed they have been using for the past twenty five years has long been regarded as a dangerous place for trainmen and other employees whose work requires their being on it.

The Ford Runabout is a Runabout in reality—a regular business messenger, solving the question of economical and quick transportation. The Contractor, Builder, Traveling Salesman, Collector, Solicitor, all find the Ford Runabout the most convenient as well as the most economical among motor cars. Low in purchase price, cost of operation, and low in cost of maintenance. Durable in service, and useful every day in the year. We solicit your order for one or more. We ask your patronage in the repair of your car, assuring you of genuine Ford Parts, skilled workmen, reasonable prices. We know we can satisfy your wants of motor accessories.

## Selden, Kansas, Lands

Below we give a brief description of a few of our choice bargains in farms and ranches. All these farms are underlaid with an abundance of sheet water, which is of the best quality, pure, clear and free from alkali. The soil is a rich black loam, as productive as the Nile Valley. We have no hardpan, no rocks nor stumps to harass the farmer in tilling the soil.

Our climate is healthful. The air is pure, the nights are cool in summer, most of the winters are open and mild, we have more days of sunshine in this section than in any other spot in the United States.

The wheat sown on many of these farms will, if the yield is good, and the prospects never looked better, pay for the land.

If in the market for land you can't afford to neglect to investigate the propositions we have to offer. We have resided in this territory for over twenty years and when you deal with us you deal with an old reliable firm. Agents will find us on the square and willing to cooperate in helping them sell to their clients and will find our commissions and our business methods satisfactory. We solicit their business.
