Chamber of Commerce Meet

Tuesday evening the Chamber of Commerce held a regular meeting at the club rooms. After the minutes of the previous meeting had been read and approved a communication from the National Security League in regard to American Day was read and same was referred to the Community Welfare Committee.

The treasurer's yearly report was read and was turned over to the Auditing Committee for their inspection and have the same ready for the next regular meeting.

As the flag for the municipal flag pole is about worn out it was brought up before the meeting and same was referred to the mayor and council.

The names of the various committees that are to serve during the year were read and approved.

Mr. Bird of the Bird Land Co., was present and made an interesting talk on community welfare, and also the operation of the Red Cloud Mill.

Red Cloud People Prevent Appendicitis

Many Red Cloud people are using simple glycerine, buckthorn bark, etc., as mixed in Adlerska. This flushes BOTH upper and lower bowel so completely it removes all foul, accumulated poisons from alimentary canal and prevents appendicitis. Adlerska relieves ANY CASE gas on stomach or sour stomach. Often CURES constipation. In one case of chronic stomach trouble ONE bottle produced wonderful results.—C. L. Cotting, druggist

The Besse Auditorium is rapidly nearing completion. This week the doors are being hung, the chairs installed and the finishing touches placed on the interior. Today will see the cement walk in front of the building completed. Ted—the superintendent in charge—says that in ten days more the work will be all completed, and the building ready for the grand opening. It will be the finest in this part of the country and our citizens may well feel proud of it.

Referring to an article published in a recent issue of the Commercial Advertiser, of which Hon. J. S. Gilham was the author, and sanctioned by Mayor Pope before publication of the same, referring to the new paving district I wish to state that the only paving objected to, when the matter was up for discussion before the council meeting was the two streets running through to Division street. Mayor Pope favoring only the paving of one street. The other paving that he so strenuously opposed was on the street passing his residence. Any tax payer who wishes to verify my statements made herein may ask any one who was present at this council meeting and see if these statements are not facts.
