### Special

640 acres. 400 acres of free wheat. New combined harvester and thresher, Titan tractor, all other farm machinery, all goes. Six miles from McAllister in Logan county, Kansas. Running water, 3 room house. Price \$35 per acre, a snap, will sell at once.

1th. All of section 4 in township 10 and the SE 1/4 of Section 32, Township 9, all in range 31, Thomas county. This is a fine farm of 800 acres, well improved, located in the heart of the famous Thomas county wheat belt, 8 miles west of Angelus and 3 miles northeast of Oakley, one of the finest level wheat counties in Western Kansas. This farm is all fenced, has a 6 room house, cistern, fine well and windmill, good barn and cattle shed.

39G. All of section 5-12-31, a fine square level wheat section in Gove county, located six miles from Campus and eight miles from Oakley, in a fine well settled neighborhood; has a well and windmill, is fenced, no other improvements; none of it is cultivation, but all could be plowed. Price \$30 per acre, half cash, balance on time. Possession at once.

7G. Square section of land 3 miles south of Buffalo Park on a graded road, in the extreme eastern part of Gove county, two miles from school; two sets of improvements; two houses, two barns one granary, two wells; five miles fenced; five miles from Gove City. There are only 100 acres in cultivation, but it is nearly all tillable, rental share of 100 acres wheat goes; possession March 1, 1920. This is a fine piece of land, one of the cheapest and best that we have. Priced at \$30 per acre, \$8000 can be carried back for 5 years at 6 per cent.

4th. 100 acres, located 3 miles northeast of Oakley in Thomas county, in the NW 1/4 of 20-10-31; 80 acres in wheat; one-fourth goes to purchaser, priced at \$35 per acre, half cash, balance for 5 years; possession August 1, 1920.

1gt. 1120 acres located in a well settled wheat, stock and alfalfa country in the southeastern corner of Thomas county in the Saline Valley. There are 320 acres in pasture, somewhat rolling, but fine grass has 80 acres fine alfalfa land, one-half of which goes, 300 acres in wheat, one-fourth goes; 6-room house, big barn with loft, cattle shed for 50 head.

0G. E1, 11-11-29 in Gove county, a very fine wheat farm. It is cut by the Union Pacific railroad on the north side and is located 1 1/2 miles from Grainfield on the Golden Belt Highway. The land now in cultivation is 200 and some acres is absolutely level and is all in wheat, one-fourth of which goes to the purchaser, and there are 150 acres in pasture. The wheat on this land is 100 percent and the half-section is \$11000 with half cash payment. Possession can be given in the spring. This is a bargain.

1L. All of section 30-11-31, in Logan county, 320 acres in cultivation, level, second bottom Hackberry Creek wheat land, very shallow water, all fenced with two wires, fairly good house, sheds, on main traveled road, 2 miles south of Monument, in a dandy location, priced at \$35 per acre, \$3000 cash, balance 5 years.

2th. 100 acres unimproved wheat land located 6 miles northwest of Oakley in Thomas county, 60 acres barley, one half goes to the purchaser. Priced at \$30 per acre, no improvements. Immediate possession.

### PROBLEM OF ROAD BUILDING

Highway Official Tells How Great System Can Be Built—First Essential Equipment.

Thanks to the pushful, pervasive motorcar, American road building has "got a move on" at last. There is everywhere the cry for roads, for more roads and for better roads. The drawback has been that, as yet, there has been no co-ordination of these multitudinous enterprises. The president of the National Highway association, Charles Henry Davis, in a recent paper stated that we spent last year \$249,955,967, or more than two-thirds of the total of money expended so far on the construction of the Panama canal—for road improvements throughout the country. Mr. Davis' contention is that good roads, roads that run for thousands of miles through state after state, are, properly, not the responsibility of the state, but of the nation, says Boston Transcript. He would have the federal government build a

Bituminous Macadam Road.

system of national roads joining the West with the East, the North and the South, connecting every part of the country, as is the case with the national highways of Europe, and, as history shows, such as was the essential equipment of every first-class power of the past.

How would such an enormous construction be paid for and kept up?

"Suppose," asks this eminent engineer, "the government built 100,000 miles of properly planned roads, and at the same time purchased, say, 200 feet of land on either side. This land would so continually increase in value and in demand for leasing on long rental, that the cost of the road and the land purchase would soon be paid. A rental rate of \$3.00 per acre would pay the interest on the cost of construction. But such would rent at vastly higher rates in cities and towns, high enough to give the nation an income equal to its total annual expenditure," from these national highways alone!

#### Most Delightful Place.

Make good roads, and the country will be the most delightful place in the world to live.

#### Money Wasted.

Thousands of dollars are wasted every year through the purchase of cheap woven wire fence. Only the best should be purchased.

#### Serious Farm Problem.

The fertilizer problem is one of the most serious confronting the farmer today.

#### Pure Water Supply.

Step and dilute about the water supply. It should be secured from a source uncontaminated by impurities.

#### To Have Good Friends.

The way to have good friends is to be one. The formula for gaining love and respect is to forget all about yourself, and love and serve others. The girl who is the central figure of her thought and planning is likely to be poor in friends because she understands so little of the meaning of friendship.—Pennsylvania Girl.

#### Watering House Plants.

Plants should be watered with a spray, not with a cup or a glass. Those that can be moved should be placed where the water will not damage carpets or floors; those that cannot—such as large ferns or palms—should have something spread on the floor beneath them to catch the water as it drips. The water must be sprayed from above so that all the leaves receive it; this carries off the dust and is the only natural way for a plant to receive water.

### HUNGRY ARMENIA

"It isn't pleasant, but we can't escape it. Unless we can reach and impress you in this way we cannot get food, AND THEY DIE. Are we going to turn our backs on them because their skeleton frames, the skin stretched over their bones, their starving expressions are unsightly? No, a thousand times no. It is unthinkable. They are the same God-given babies to be found in most homes. It is some mother's child. Perhaps the mother never came back after fleeing from the damnable Turk. There are thousands of them who cannot say 'father, mother, home'; other thousands with anguished mothers helpless to save them. The war over, they came back to their own country to desolation and despair—homeless, hungry, diseased. The horror and suffering of it all is beyond description.

"There are sufficient sympathetic hearts to provide our apportionment of a careful general survey that has fixed the amount necessary to bring these deserving people back to self-support, and they are deserving, for, remember, they cast their lot with the allies regardless of promises of power and territory if they would desert; that their army of 250,000 soldiers held back the Turks at a critical time after the Russian collapse, that they provided a smaller but similar defense to that Belgium early in the war."

"We leave it to you. These actively engaged can only give so much of their time. We are going to put roses in some cheeks, cushions on some of those bones, blood in the veins of some of those babies over there, thousands of miles away. We can do it to all with just a little more help."

"In conclusion, every dollar you give, every dollar you induce someone else to give to our NEAR EAST RELIEF COMMITTEE, provides food to go into those empty stomachs. Some one will live because we reach them, some will die because we could not provide for them."

#### WE LEAVE IT WITH YOU

This is our appeal to you and we hope when your local chairman calls on you sometime during the week of March 29 to April 4 that you will do your part.
