

"Bread Winner" Children Play Clothes

Standing the strain

WHEN you give the playclothes problem the careful consideration it deserves—you invariably buy only such garments you believe will stand the strain of strenuous play. At each step in the making of "Bread Winner" playclothes this strain is considered. Each garment is reinforced where there is any considerable strain upon it, each garment is finished to the last detail of buttons, buttonholes and seams with the necessary care to withstand this strain. You can buy our playclothes bearing the label "Bread Winner" with the positive assurance that you have purchased a garment that will absolutely satisfy. Made under the most sanitary conditions, for tiny tots in creepers up to boys of eight and girls of six.

Come into our children's washwear department and let us show you our full line of sturdy garments.

WITH a single tool—the combination wrench and screw driver shown below, which is included with every De Laval—you can take it apart and set it up again in a few minutes.

Could anything be easier or simpler?

There are no complicated parts—no chain drives, no cog wheel puzzles, no ball bearings to get flattened or broken. Every adjustment can be made quickly by the man on the farm without special tools of any kind.

Such simple construction makes the De Laval not only the longest lasting but also the easiest separator to clean and care for.

THE ONLY TOOL REQUIRED WITH A NEW DE LAVAL

We will sell you a De Laval on terms that can't help suiting you. Come in and examine the machine; let us show you what it will do.

SOONER OR LATER YOU WILL BUY A
