ALIENS LEAVE BY WHOLESALE

6,000 Are Sailing Weekly for Europe Where Dollar Is Potent.

CAUSE OF LABOR SHORTAGE

Difficulties of Traveling in Europe and Danger of Losing Their Money Has No Influence on Aliens Eager to Return.

New York.—Wholesale re-emigration of aliens in America began last April and is continuing in ever growing numbers. Steamship ticket agents agree that 6,000 are leaving for Europe weekly, although the immigration is confined to Italians and Belgians.

would do, and earning in most cases up to \$120 a week.

The causes of the wholesale re-emigration may be found in the following facts:

- 1. Alien laborers have saved up money during the war, when they were barred from sending it home, and according to bankers dealing exclusively with them, they have an average of \$3,000. If we take what a dollar is worth in eastern Europe, it is easy to comprehend that the worker exchanging his dollars into kronen becomes the richest man in his village, a lure very few could withstand.

I SUFFERED THREE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lowell, Mass.—"I was all run down and had an awful pain in my right side, was persistently constipated and had very dizzy spells. I suffered for three years and was perfectly miserable until a friend was telling me to try Lydia E. Pinkham's Vegetable Compound and I found it a wonderful medicine. I can now do twice as much work and I recommend the Vegetable Compound to other women. You can use these facts as a testimonial."

Why women will continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound! For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

KEEP DELAWARE RICH

People of Other States Contribute the Cash.

Purse Overflowing With Fees From Corporations From Every Direction.

Dover, Del.—Most states are poverty-stricken by the high cost of government. But not Delaware! As a financier Delaware has Wall Street beaten 40 ways.

This state taps the purses of people in the other states! Wherefore \$1,500,000 excess funds now lie in the state treasury—the most money Delaware ever had.

The easy income is derived from issuing charters to corporations. Delaware has "board laws." You can take out a charter for a corporation dealing in anything from yellow gold to blue sky.

Hundreds of corporations all over the country are chartered under Delaware laws.

Pay Delaware a charter fee, send your attorney around once a year to hold an "annual meeting," pay your yearly charter tax regularly—that's all there is to do. Stock doesn't even have to be paid for, only subscribed.

The state has good as well as spurious corporations. The General Motors company last year paid Delaware a fee of more than \$200,000 when it increased its capitalization, because it was chartered here.

There's so much money in the state treasury the legislature at its coming session will transfer \$400,000 to the school fund, enabling counties to keep

the school tax rate under 50 cents per \$100. Fifty thousand dollars a mile is being spent for 250 miles of concrete highways. The state will soon have 600 fireproof schools. Delaware does not tax property—the rest of the United States keeps her rich.

STAKE NEW DIAMOND CLAIMS

Adventurers Start Rush in the Pretoria District of South Africa Mines.

Johannesburg.—A rush of diamond seekers to stake claims is reported from Beysenspoort, in the Pretoria district, where rich deposits are said to have been located.

Two thousand men, including lawyers, civil servants, business men, land owners, artisans and clerks, took part and the whole ground was pegged out in a few minutes.

Some of the more corpulent employed professional runners to secure the claims previously selected, says a news agency dispatch received here.

"Yet it is impossible to persuade them to stay," the clerks assert. "There are letters from former travelers who say that they have been cheated and robbed of their possessions, arrived home stripped of everything, yet you can't induce them to stay."

"Do you discourage exchange of dollars as well?" I asked.

"We do, but the constant fall in the exchange makes it difficult. By the time the man arrives home he gets more for his dollars, so he prefers taking it in cash, as most of them are ignorant people who mistrust drafts. Now, in traveling through Europe the victim—for you can't call him by any other name—encounters laws in every country prohibiting the export of dollars. If he lands in France his money is exchanged into francs, in Germany into marks, in Austria or Jugoslavia into kronen, being 10 or more per cent everywhere."

Some of the re-emigrants travel through five countries and thus lose 50 per cent of their money on forced exchange. In France there are even graver difficulties, for even the export of French money to exceed 1,000 francs is prohibited. The traveler must get a state permit, a procedure taking sometimes weeks. The whole of Europe is hungry for dollars.

Last Influenza Epidemic Cost \$5,000,000 Insurance

The influenza-pneumonia epidemic, now virtually ended, has cost the life insurance companies of the United States about \$5,000,000, according to an estimate made by an official of one of the big eastern companies.

This figure is about one-quarter of the insurance paid out to influenza and pneumonia victims during the epidemic of 1918-19, he said.

FISH INDUSTRY IS RUINED

Salmon in Washington Depleted by Foreigners.

State Fisheries Commission Urges That They Be Barred From State Waters.

Olympia, Wash.—Washington's salmon industry, once among the leaders in the state's activities, has been almost depleted by the intensive fishing of the last six years, L. H. Darwin, state fish commissioner, declared in his annual report filed with Gov. Louis F. Hart.

Creation by the legislature of a fisheries commission to take full charge of fishing operations in Washington waters was recommended by Mr. Darwin.

He urged that foreigners be barred from fishing in the state waters, because, he said, the destruction, in a large part, has been accomplished by

persons not citizens of the United States. During the war, he said, foreign fishermen banded themselves together, took the lead in the industry and increased the prices.

Sockeye salmon runs of the Puget sound have almost been wiped out by the heavy fishing, the report stated. The silverside and chum or dog salmon have also been reduced in number.

The humpback salmon runs probably will be attacked by the fishermen next and, in a few years, the commissioner predicted, they, too, probably will be depleted.

Columbia river, Grays harbor and Willapa harbor waters of Washington have not suffered to the extent of Puget sound, Mr. Darwin said, largely because of the greatly increased hatchery work. But as the fishermen are beginning to take immature salmon and are preventing the fish from reaching their spawning grounds, it is probable these waters will suffer more in the near future.

JOBLESS, TRIPLETS WELCOME

Former Soldier Overjoyed When Stork Raps Thrice at His Little Flat.

New York.—The prize optimists of Greater New York were found in a little three-room flat.

They are Frank Cangemi, former soldier, and his wife, parents of six children.

Three of the children are newly born triplets—all girls—and the reason Mr. and Mrs. Cangemi take all honors for optimism is that despite the fact that he is out of employment they accept their rare gift with deep gratitude and believe themselves lucky.

The new babies are Mabel, Catherine and Genevieve, and they have been card-tagged to avoid a mistake. The landlord of the tenement house in which the Cangemis live has agreed to keep the family until fortune smiles on them. Frank can always get enough to buy food and the mother and babies are doing well. He was in Mexico with the Twelfth regiment.
