

Frantic With Pain

Doan's However Brought Complete Recovery and Trouble Has Never Returned

"My kidneys were weakened by exposure in Alaska," says Hermann Schrader, 325 Park Ave., Hoboken, N. J., "and my misery at times became so great I thought I would lose my mind. I had terrible pains in my back, and a constant desire to urinate. My back felt as if it were in sections with each crushing against the other. Finally I was taken desperately ill. It seemed as if something were crushing out my life. Before long I passed a gravel stone the size of a pea. If the pain had been any more intense I think I would have died. I was having practically no flushing of the kidneys and my weight had reduced from 178 pounds to 125. The doctor told me I had gravel and small stones filling up the passages of the bladder. After all of this I began to use Doan's Kidney Pills and soon improved. In a short time I was well and my cure has lasted fifteen years. Today I am in perfect health."

HE COULD DO FOR HIM

According to This, Prospects of Thirsty Gent Getting a Drink Didn't Seem to Be Promising.

"How can I go about it to get a drink in this town?" asked a recently arrived gent, who looked as if he needed irrigation.

"Well," replied the landlord of the Petunia tavern, "I'll tell you what you might do: Go to the second corner up the street, pass around it and go to the alley about half-way, and you'll come to a gate standing open, a crack in a fence made out of old bill-board lumber. Go in through the gate and along to a cellar back of the shanty standing in the lot. Lift the cellar door and go down the steps, whistle three times, and a dirty feller will come with a lantern, and look you over and tell you that there ain't nothin' doing in this dod-blasted town since the blanky-blank prohibitionists got so sizzle-fired active. This is the best I can do for you, Mr. Dryer."—Houston Post.

Analyzing Waste Food.

America leads all other nations in analyzing the value of the foods we eat and the best way to make them nourish us. Scientists have found that we often get little of the real value of our foods so that a great deal goes to waste. It is exactly as if we took just one squeeze out of a juicy orange and then threw it away. The new science has been developed largely since the outbreak of the war. Many interesting experiments have been carried on in Teachers' college in New York which are being watched by scientists all over the world. Some tests are made with white rats, others with human beings. The war department has utilized this information in fixing the rations for our soldiers. In a few years people will look back upon our wasteful, unscientific habits of today with amazement.—Boys' Life.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

The Real Reason.

When it was proposed to create more public offices, the masses, long suffering though they were, began to growl ominously.

"But," they expostulated, "there is no work for more office holders to do!"

Which proved beyond the peradventure of a doubt that the masses were just as stupid and unreasoning as the politicians believed them to be; for any one with even a modicum of intelligence should have learned by this time that office holders do not care for work—all they want is the salary.—Kansas City Star.

What They Thought.

Two sentimental spinsters live next door to a satisfied-with-his-condition bachelor. And he does have a time avoiding their conspicuous attentions. But the worst of all was the other night after he had rolled into bed and was called to the telephone. A spinster's voice came over the phone. "Oh, Mr. Blank, there is a man at our window."

The bachelor snorted: "Doesn't he know where your door is?" he retorted.

And now their attentions have ceased.

Sad Experience.

"Do you believe in love at first sight?" "Well, there isn't much second sight about it, is there?"

FURBELOWS THAT BLOOM IN JUNE

THOSE ever-blooming furbelows, the pretty and dainty belongings made of ribbons and laces, that women love seem to have blossomed out this year in greater profusion than ever. June usually sees them at their best for they are important in trousseau and are favorite gifts to brides and graduates. Besides laces and ribbons, georgette, net and silks play their charming parts in making them, but laces and ribbons are pre-eminent, as usual, with much attention given to flowers made of ribbon for trimmings.

Three boudoir caps and three camisoles, shown in the group above, will serve to point the direction of fashion's whimsical breezes in these accessories. Camisoles remain important and will as long as the sheerest materials are used for smocks and blouses and for dresses. And where is the woman with soul so dead as not to appreciate and own a few boudoir caps? They make life tolerable in the morning hours. In the first cap and camisole the designer has been led by the fad

for making things to match and has used the same lace and net and ribbon decorations for both. A close-fitting cap, with a cape at the back, is made of lace in an Alencon pattern and two rows of narrow satin ribbon are tacked about the cap, after a full puffed crown of net has been gathered over it. Ends of the ribbon are brought up over the crown and fastened to it. Small wild roses made of ribbon are set about the cap and from one of them at each side two short hanging ends are finished with tiny chiffon roses.

Another cap of net is edged with point de esprit and has narrow ribbon bands over it. Where they intersect tiny ribbon flowers are set and short ends hang over the lace frill. It is finished with a rosette and many ends of ribbon. Wide lace and tucked georgette make the lovely cap with frill lengthened toward the back, and it is ornamented with ribbon flowers like those on the camisole of georgette and ribbon.

Negligees From the Far East

KIMONOS were appropriated from Japan so long ago that we take them as a matter of course in every wardrobe, and now women, who have a fancy for wearing unusual negligees, are indulging in other dress borrowed from the Orient. Sometimes they take it as they find it, and oftener they adapt it to their own taste in colors and fabrics. This masquerading in the clothes of women of far countries proves exhilarating and the great shops make it easy to indulge in it—they have brought the far East near, and they help to widen our vision and increase our respect for the art of other peoples.

The handsome costume of black satin, embellished with gold embroidered ribbon, pictured above, is a literal translation from the original Chinese, done in American fabrics. Those who have had experience with this kind of dress say it never grows tiresome and that it is comfortable and convenient—all these are lasting qualities and it is worth while to embody them in good black satin. It is a modest and fascinating dress, and may prove a rival of the kimono.

"The flower of the harem—Rose-in-Bloom," never looked more lovely than the pretty American who has emulated something of her dress, as shown in the picture. Here are full, draped trousers of satin with an original over-garment of brocaded silk and accordion-plated georgette. Fringe is made of narrow brocaded satin ribbon. The turban has a band of the brocaded silk and crown of plaited georgette, match-

ing the coat. One can imagine this in rose and gold or turquoise and silver or other lovely color combinations, the feet incased in mules of gold or silver tissue. The costume is not a copy of the original but an adaptation of it, and was presented among others designed by certain artists, as a gem in negligees.

Chenille Curtains.

In most attics may be found one or more pairs of chenille curtains so popular some years ago. These may be transformed into pretty and serviceable rugs. If the curtains are faded dye them to harmonize with the room in which they are to be used. As a foundation for the rugs use old worn Brussels carpet cut to the desired length. Arrange the curtain material smoothly on these carpet foundations, turning over several inches of the material on the wrong side. Sew down firmly on the wrong side and you will have transformed a worn piece of out-of-date carpet into a soft, rich-looking rug.

Fabric Hats Are Popular.

Fabric hats have never been so popular and for summer some very lovely garden hats are being made of sheer organdies in white and colors.

You Don't Have to Gamble When You Buy Roofing

Trying to fill a four-flush may be good poker, but you can't afford to apply the same principle to buying roofing. And you don't have to.

Certain-teed Roofing offers you a fair and square buy. Its merits are on the table—all above board—everybody knows them.

Certain-teed Roofing is guaranteed for 5, 10 or 15 years, according to weight. That guarantee is backed by the largest manufacturers of prepared roofing in the world. In no case has Certain-teed ever been known to wear out on the roof.

Certain-teed Roofing is weather-proof, fire-retarding and spark-proof. It gives real roofing protection.

Certain-teed Means Known Value

There's no gamble in that proposition. What do you get when you buy private brands? What will they do? You know nothing about them.

If you are willing to buy cheap roofing, get it at a fair price. We make a third-grade roofing, called Guard Roofing, which is satisfactory where long life is not required. It looks as good as any roofing. It is priced and sold strictly on the basis of third-grade roofing.

Any responsible dealer can get either Certain-teed or Guard for you quickly from a nearby Certain-teed warehouse or jobber. He gets it when he wants it and he gets what he wants. He can afford to sell you at a fair price.

Melancholy Duty.

A visitor observed that the little girl of the house was eating some new kind of cereal food. As she seemed to evince a melancholy interest in the preparation the visitor asked: "Do you like it, Mary?"

"Not specially," replied the youngster sadly.

"Then why do you eat it?"

"I have to," was the grave answer. "Our grocer has promised to give a pair of skates for every five packages we buy, and it's got to be eaten every morning."
