

I Owe My Life to PE-RU-NA

Mr. McKinley's letter brings cheer to all who may be sufferers as he was. Read it:

"I can honestly say that I owe my life to Peru-na. After some of the best doctors in the country gave me up and told me I could not live another month, Peru-na saved me. Travelling from town to town, throughout the country and having to go into all kinds of badly heated stores and buildings, sometimes standing up for hours at a time while plying my trade as auctioneer, it is only natural that I had colds frequently; so when this would occur I paid little attention to it, until last December when I contracted a severe case, which, through neglect on my part, settled on my lungs. When almost too late, I began doctoring, but without avail, until I heard of Peru-na. It cured me, and I cannot praise it too highly."

It Cured Me

Out of Luck.

Upon my return from calling one afternoon I ran into my mother's. My sister opened the door for me, and without looking into the living room, I blurted out: "Gee, I had the best luck! Four of them were not at home!" When I went in there sat the four playing cards with my mother. My embarrassing moment has lasted ever since that day.—Chicago Tribune.

Safety First.

The ex-buck found the menu card at the fashionable restaurant almost as baffling as some he'd perused in France. Finally he summoned a waiter.

"Where are pork and beans on here?" he asked.

The waiter indicated. "Well," said the relieved patron, "bring me everything above and below that line."—American Legion Weekly.

Back Giving Out?

That "bad back" is probably due to weak kidneys. It shows in constant dull, throbbing backache, or sharp twinges when stooping or lifting. You have headaches, too, dizzy spells, a tired feeling and irregular kidney action. It is usually easy to correct these early troubles, and avoid the more serious ailments by giving prompt help. Use Doan's Kidney Pills. They have helped thousands the world over. Ask your neighbor!

A Nebraska Case

Mrs. Martha Smith, 806 E. 9th St., Beatrice, Neb., says: "I felt miserable and my kidneys were irregular in action. There was a dull, heavy feeling across the small of my back, too. A friend told me about Doan's Kidney Pills doing so much good for her. I got a box and they relieved me, making me feel like a different woman."

DIDN'T WAIT TO BE ASKED

Elsie's Little Scheme to Test Sweetheart's Fidelity Could Hardly Be Called a Success.

Elsie, about to be married, decided at the last moment to test her sweetheart; so, going to her friend, Maude, the prettiest girl she knew, she said to her, although she knew it was a great risk:

"I'll arrange for Fred to take you out tonight—a walk on the beach in the moonlight, supper, and all that sort of thing—and I want you, in order to put his fidelity to the proof, to ask him for a kiss."

Maude laughed, blushed, and assented. The plot was carried out. The next day Elsie visited her friend, and said, anxiously:

"Well, Maude, did you ask him?"
"No, Elsie, dear."
"No! Why not?"
"I didn't get a chance; he asked me first."

His Luck.

"Noah would never have made a very successful poker player."

"I suppose he wouldn't want to be held more than two of a kind."

John Smith Named New England.

The name of New England was coined by Capt. John Smith of Pocahontas fame, one of the founders of the Virginia colony. In 1614 he explored and mapped the northern coast, then called North Virginia, and renamed it New England. The charter granted the Mayflower Pilgrims adopted the name used in Smith's map several years before.

REFUSES TO EAT FOR SIX MONTHS

Strange Case of Self-Imposed Starvation Reported From Denver.

INSANE, SAY DOCTORS

Man Whose Normal Weight is 168 Dies Weighing 50—Ate Thanksgiving Dinner, Refused Food Thereafter.

Denver, Colo.—One of the strangest cases of self-imposed starvation on local record culminated in the death, recently, of George Severns, fifty-four, at the County hospital.

Severns had eaten only liquid foods, and very little of them, since last Thanksgiving. For nearly six months he steadily refused solid foods, and even the liquids had to be administered to him almost by main force. At the time of his death he weighed a scant 50 pounds, although normally his weight was about 165, according to his wife, Mrs. Ruth Severns.

Refuses to Eat.

Insanity was the cause of Severns' refusal to eat. He was taken to the County hospital April 20. At an inquisition Mrs. Severns testified that her husband had been acting queerly and that she had been afraid of him for months. The lunacy commission found him insane, and he was committed to the hospital by Judge Ira C. Rothgerber until he should be in condition to move to the state insane asylum at Pueblo.

But the patient would not eat. The most appetizing dishes failed to tempt him. Occasionally he was induced to drink a few swallows of milk, but not enough to sustain life. For weeks he lived literally upon his bodily tissues, steadily wasting away until he was a living skeleton, his eyes sunk deeply into his head and his bones protruding sharply. His skin had become the color and consistency of parchment.

Ate Thanksgiving Dinner.

His wife said that he had eaten practically nothing since Thanksgiving, when he partook of the Thank-

Appetizing Dishes Failed to Tempt Him.

giving dinner with his usual heartiness. From that day on, she said, he refused food.

Severns came to Denver from Illinois ten years ago. He was a victim of influenza in the 1918 epidemic and did not rally for about three months. The subsequent attack of insanity is believed to have resulted from the former malady, according to Thomas M. Hunter, superintendent of the hospital.

CATCH FIREMAN OFF BUILDING

Comrades Save Life of Man Dropping Four Stories at Louisville.

Louisville, Ky.—While giving an exhibition to "student" firemen Henry Walton, a fireman, slipped and fell four stories, to be caught by three firemen who were standing on the ground. He was not seriously injured, hospital physicians said.

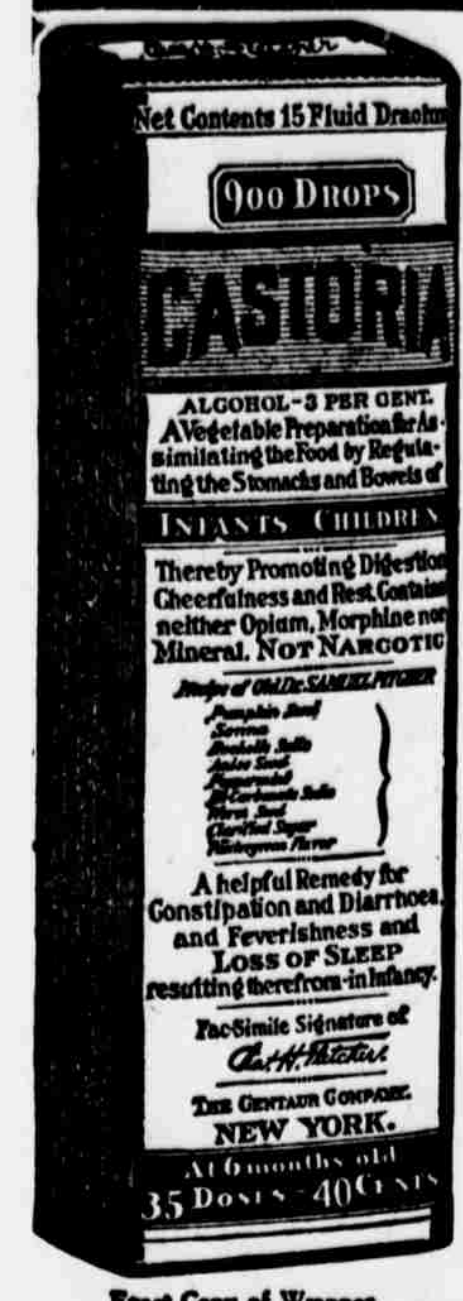

Walton was being passed from one window to another by two other firemen when he fell. A cry from spectators attracted firemen Richard Murray, Jacob Selger and James Underwood who, by speedy action, were able to lock their arms a few seconds before Walton crashed into them.

The rescuers went down under the impact, but received only slight injuries. Walton suffered a cut on the head and numerous bruises about the body.

Children Cry For

Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

BERANGER'S HEART TOO KIND

Great French Poet Continually Prayed On by a Host of Ingrates Who Plucked Him.

Interesting anecdotes are told of the great French poet, Beranger, who died in 1857.

The poet was as poor as he was generous. All he had he gave away, and when there was nothing left he sent the beggars who haunted his house to call on his numerous friends.

One of the characteristics of this unfortunate benefactor, who was always surrounded by a host of ingrates, was his tolerant spirit. Since there was no ante-chamber in his modest home, the beggars who knew the house stayed outside on the staircase; it was impossible to see him without finding a half-dozen of them on the stairs. There they used to wait like ravens for the small change, old clothes, and sometimes new clothes, that Lisette was the first to distribute to them. When friends remonstrated with Beranger for giving away things he needed to people whom he did not know, Lisette would answer:

"Oh, now, Berange will just write another song—the lazy fellow!"

When Doctors Disagree.

John Jimson was very ill. He called in a doctor, who hemmed and hawed and called in a second doctor. Then, while John Jimson lay and suffered, the two quarreled about his case.

"You are wrong," said Doctor No. 1. "I'm right," retorted Doctor No. 2. "You're wrong," repeated Doctor No. 1.

Here the patient gave a groan and brought the medical men to a realization of the needs of the moment. But Doctor No. 2 couldn't resist a last swipe.

"Go your own way," said he, "but I'll prove I'm right at the post-mortem!"—From the Argonaut.

Here's Something Worth Knowing.

Listen to this, fishermen. There's a man residing in New York state who has discovered a reliable way to learn when the fish are biting, without going to a stream and trying his luck. Here is the formula: Catch and keep alive a catfish. When you wish to go fishing, dig some worms and throw them to the catfish. If he eats them, the fish will bite; but if he don't, you might as well stay at home.—Exchange.

Acid Stomach

Makes the Body Sour

Nine Out of Ten People Suffer From It

It sends its harmful acids and gases all over the body, instead of health and strength. Day and night this ceaseless damage goes on. No matter how strong, its victim cannot long withstand the health-destroying effects of an acid stomach.

Good news for millions of sufferers. Chemists have found a sure remedy—one that takes the acid up and carries it out of the body; of course, when the cause is removed, the sufferer gets well.

Bloating, indigestion, sour, acid, gassy stomach miseries all removed. This is proven by over half a million ailing folks who have taken EATONIC with wonderful benefits. It can be obtained from any druggist, who will cheerfully refund its trifling cost if not entirely satisfactory. Everyone should enjoy its benefits. Frequently the first tablet gives relief.

FRECKLES

HOW SHIPS GET LATE MAIL

Airplanes Used to Overtake Liners and Drop Bags While the Vessel is Traveling.

Experiments have proved it entirely practicable to deliver belated transatlantic mail to steamers at sea by airplanes.

The ship may have taken its departure several hours previously, yet the flying machine, with a speed of 100 miles or more an hour, can easily catch up with it and put the mail aboard.

A plane of the "flying boat" type is used for the purpose, and the water-proof mail bag is held in a chute on the side of the hull. The aviator flies over the ship and the rigging entangles a long line dropped from the plane that has grapple tails on its end. This line is attached to the mail bag, which, when the grapple tails catch, is jerked out of its chute, falling into the sea.

It is then an easy matter to haul the mail bag aboard, while the steamer continues its uninterrupted voyage.
