The Margin of Safety

is represented by the amount of insurance you carry.

Don't lull yourself into a fancied security.

Because fire has never touched you it doesn't follow that you're immune tomorrow—no today, if you have time—and you better find time—come to the office and we'll write a policy on your house, furniture, store or merchandise.

—LATER MAY BE TOO LATE—
O. C. TEEL
Reliable Insurance

The Misses Christine and Evelyn Caldwell spent Friday with their sister, Mrs. Chas. Phares and family as Guide Rock.

Mrs. Frank Haffer and daughter, May, returned home Tuesday morning from Cheyenne where they had been visiting relatives.

Mr. and Mrs. W. R. Bailey returned to Omaha Friday after spending a few days with his parents, Mr. and Mrs. J. H. Bailey.

Mr. and Mrs. Joe Crow and son, Clark and wife of Republican City, spent Sunday with relatives and friends in the city.

For Sale or Trade—2, 1918 model Fords, 2 Dodge cars, 2 Reos, 1 Ford truck and a number of other used cars—Sutton & Shipman.

Miss Marguerite Richardson arrived Sunday morning from San Mateo, California, to visit her mother, Mrs. W. N. Richardson.

Mr. and Mrs. Vernon Zeiss and children returned to Trumbull Thursday after spending a few days with their parents in this city.

Engineer H. C. Jeffries relieved Engineer Houser on the local switch engine Thursday, Mr. Houser taking the Hastings passenger run.

Mrs. Gladys Garber and daughter, Margaret, returned to her home at Daykin, Friday morning after visiting with Mrs. Maggie Garber.

Miss Maggie Adams, the genial waitress at the Hatfield restaurant, left Monday for Beloit, Kansas, where she will spend a few days with relatives.

Garry Zeiss went to MeCook Monday morning where he has secured a position as fireman on the railroad. Or late he has been night hostler at the local round house.

Mrs. J. E. Jarboe arrived Saturday evening from Lincoln to visit with her parents, Mr. and Mrs. Wm. Thomas, until Mr. Jarboe arrives from Oklahoma City where he is now holding revival services.

Mr. and Mrs. Chas. Sherer are home from Lincoln to spend the summer with their folks. He expects to return to his work at the University this fall as Professor of Mathematics, at a handsomely increased salary.

Nellie Fry of Red Cloud, who is a student at Nebraska Wesleyan University, went with the class in mental measurements by automobile, to Beatrice, July 12, to attend a clinic for feeble-mindedness, given by Dr. Stewart of the Institute for the feeble-minded at that place.

Mrs. Copper King, of Wichita, Kansas, will speak at a meeting, at the court house, Saturday afternoon, July 17th, at 3:30, in the interest of the Nebraska League of Women Voters. This is a non-political organization and all women interested in good government and topics of interest to women are urged to be present.

CHARMING READER TO HAVE PLACE ON OUR SUMMER CHAUTAUQUA PROGRAM

The reader who comes to our Chautauqua this summer is declared by competent critics to be one of the four or five really great readers of the country. We refer to Miss Hazel Dophelde, whose picture we are pleased to present. She is one of those artists born to her work, but also a graduate of the best schools of the country. It is prob-

able that she will be asked to read "The Money Makers" here, although some people declare her Sunday program is the best thing she does. There is a certain charm about her manner which, added to a glorious voice and an inborn interpretative ability, makes the presentation of every character seem well-nigh perfect.

Look to Future Food Supply. Owing to the shortage of imported food-stuffs, the production of food-stuffs locally is being encouraged by the Straits Settlements and the Federated Malay states. Even some of the rubber plantations have been compelled to utilize portions of their acreage for food products. This stimulation of agriculture has created interest in mechanical means to increase production, and a shipment of tractors was recently sold readily.

A Hot Weather Necessity

No wicks to clean, trim or adjust. Always ready. No valves to worry about. It does not require generating. Burns ordinary kerosene.

Standing the strain

WHEN you give the playclothes problem the careful consideration it deserves—you invariably buy only such garments you believe will stand the strain of strenuous play.

At each step in the making of "Bread Winner" playclothes this strain is considered. Each garment is reinforced where there is any considerable strain upon it, each garment is finished to the last detail of buttons, buttonholes and seams with the necessary care to withstand this strain.

You can buy our playclothes bearing the label "Bread Winner" with the positive assurance that you have purchased a garment that will absolutely satisfy. Made under the most sanitary conditions, for tiny tots in creepers up to boys of eight and girls of six.

Come into our children's washwear department and let us show you our full line of sturdy garments.

Let Us Figure on Your Job Printing

A Letter to Farmers Union Co-Operative Ass'n Members

From the Farmers Co-Operative Elevator

We wish to take this way to thank you for your past patronage and assure you that we will do our best to handle the new crop of grain to your satisfaction.

As you all know we were able to pay 6 cents a bushel dividend on wheat sold to us during 1919 and with your help we will endeavor to do better than that this year.

From all we can learn from the railroad company the car shortage will be much worse this year than last and we believe where it is possible it will pay you to stack your grain or make arrangements to bin it for a while. We believe new wheat will start off at a good price but with a good foreign demand in sight we look for a better market a little later.

Our storage capacity here is small, but with your co-operation we are sure that we can handle your grain and do it to your advantage.

We want you to feel that this is your business and to take a personal interest in it for without your individual interest and co-operation we cannot make a complete success. If at any time we can give you any information in regard to the markets, or can be of any service to you in any other way, please call on us.

We will soon be in our new office and will have the proper office equipment to handle your business as quickly and with as small an expense as possible. Remember that you get all that your grain brings on the market less the small expense it takes to handle it when you do business with us. Is this not better than doing business with an individual firm and having your grain pay both expenses and a profit to the owner? For this reason we feel that it will pay you to make some arrangements and hold your grain for a short time, if on account of the car shortage we are unable to handle it as soon as it is threshed.

We again thank you for your past patronage and co-operation.

The Farmers Co-Operative Elevator

There's always room at the top

for Highest Possible Quality at Lowest Possible Price

RAISING THE LIMIT

MANY a smoker thought the limit had been reached. Could cigarettes be improved? We thought so. We knew there was room at the top for a better cigarette. But it would have to be something entirely new.

And it is—it's Spur.

An original blend that makes the rich Oriental tobaccos richer by pleasing combination with Burley and other home-grown tobaccos. A new method of rolling the satiny imported paper by crimping, instead of *padding*. A smart "brown-and-silver" package, with triple wrapping to keep Spurs fresh.

Spur offers you tip-top quality at rock-bottom price. What do you say?
