**A SHORTAGE OF CARS**

will no doubt compel a good many farmers to hold their grain longer than they otherwise would.

Most of the grain is now cut and either in the shock, stack or bin and about the only thing that would cause the farmer to lose his crop is fire.

Don't you think it would be good business judgment to get one of our short time grain policies, protecting you from fire in shock, stack, bin or in the process of threshing?

1 Month \$2.00 per \$1000	4 Month \$5.00 per \$1000
2 Month 3.00 per 1000	5 Month 6.00 per 1000
3 Month 4.00 per 1000	6 Month 7.00 per 1000

Write me a line or call me on the phone, giving me the value of your grain, time you wish to carry the insurance and numbers of your land and I will mail you a policy, you paying me for it when you sell your grain.

Can you afford to be without this protection?

**REFLECTIONS OF THE ROADSIDE**

An idea of the thrift and success of a farmer is often formed largely by the appearance of the roadside along his farm. A stretch of weedy, desolate, neglected roadside abruptly terminating at a line fence and the adjoining stretch clean, neat and well kept, often causes a considerable difference in our conception, agriculturally, of the two farms as well as the persons operating them.

Some farmers evidently consider the roadside along their farm as distinctly separate from and wholly outside of their jurisdiction, and any time or labor expended in keeping it up as so much gratuitously donated to the public. Every farm should consider the roadside along his farm as deserving as much of his attention as the farm itself. He should consider the road the "front way" to his farm, and instead of it receiving secondary attention, it should be one of the first places by which the appearance of the farm is improved.

At first thought to cut the weeds along the road while back in the cornfield they are growing rank, seems rather incongruous, but it also seems absurd to cut the weeds in the corn field while those by the roadside are left to thrive and help to reseed the field again. If weeds are not in harmony with our ideals of good farming, why is it not a good policy to direct the first efforts in the way of their removal to the roadside, thus not only benefitting ourselves but all who travel the highway as well?

A neat, clean roadside improves the appearance of the farm. Appearance is the controlling factor effecting the value of a farm. Hence, to improve its appearance, increases its value, and the land in every locality or community has a general reputation to sustain, or to be ashamed of, as the case may be.

**T**HERE was plenty of room at the top for a cigarette of tip-top quality at a rock-bottom price. That's where Spur comes in. And that's where Spur stays. For men who judge a cigarette by its looks, by its blend, by its taste--well, Spur was made for them. Spur's new blend of choicest Oriental and American tobaccos brings out to the full that good tobacco taste. Spur's satiny imported paper, crimped (not pasted) makes an easier-drawing, slower-burning cigarette. Spur's smart brown and silver packet, three-fold, preserves the Spur flavor and fragrance. Money can't buy anything better!

**You can make this surprising experiment in our store -**  
**The Test of the Two Violins**

Violins differ subtly in tone! Test the New Edison Realism by that fact.

We have an "Ave Maria" RE-CREATION played by Albert Spalding with his Guarnerius. This famous violin has a brilliant, singing tone. We have a second "Ave Maria" RE-CREATION played by Carl Flesch with his genuine

Stradivarius. This violin has a rich, mellow tone.

Come in and compare these two RE-CREATIONS--tone for tone. If the New Edison makes clear the distinction between the singing Guarnerius and the mellow Stradivarius, you know it has perfect realism for you.

**The NEW EDISON**  
 "The Phonograph with a Soul"

Albert Spalding himself recently took part in a test of the New Edison's Realism, at New York City. He played in direct comparison with the RE-CREATION of his performance by the New Edison. Mr. Henry Hadley, one of the jury of the three distinguished musicians who listened from

behind a screen, said: "The RE-CREATION matched Mr. Spalding's performance tone for tone." The New Edison is the only phonograph which has given this conclusive proof of its perfect realism. It has triumphed in 4,000 such comparison-tests.

**PRICES! HALT!**

Since 1914, the total price-increase in the New Edison has been less than 15%. Mr. Edison has, personally, absorbed more than one-half of the increased costs of manufacture. He may not be able to do this much longer. Buy now--if you want today's prices. Our Budget Plan will help you. It distributes the payment over the months to come.
