Come in and let us give you a copy of "Edison and Music". Tells about the chief period designs—what they look like, what they stand for. Pithy descriptions. Beautiful illustrations. Just the information you want.

Let us show you what an exquisite thing a phonograph cabinet can be.

Every New Edison on our floor—no matter what its price—is encased in a genuine period cabinet.

Period Furniture is the world's most exquisite development of furniture. It originated in the 16th, 17th, and 18th Centuries. Europe was ruled by a Gorgeous Aristocracy. Fine living was the ideal of the day. An unparalleled race of artists, architects, and designers built palatial living-places for kings and nobles, and furnished them. The palaces of the nobility became treasure-houses of fine

furniture. It was called the "Golden Age of Furniture."

So Mr. Edison had his designers go back into the manor houses of England, the chateaux of France and the castles of Italy. They adapted 17 designs from historic masterpieces. They preserved entire "the character and feeling of the best periods" in these superb phonograph cases for the modern American home.

No matter which Edison cabinet you choose, you get both the arts that make your house a cultured home—music perfectly RE-CREATED and furniture of purest period source. What finer gift for all the family?
