WHAT SHALL I GIVE?
Why give something perishable for a Christmas present, that can last at most but an hour or a day or a week, when the imperishable is under your hand? And if, among these imperishables, you choose The Youth's Companion, your gift has this special quality: the newness of the gift, its freshness, is not at once exhausted. A jewel, a picture, or a piece of attire affords no surprises after the first inspection, but The Youth's Companion brings unsuspected delights and untasted sources of pleasure and happiness with every succeeding weekly number.
And every one in the family, of

every age will see to it that the good things are shared.
The 52 issues of 1921 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now.

GOOD ROADS AID APPEARANCE
Farmstead Buildings on Improved Highways Found in Better Shape and Fences Kept Up.
Have you ever compared the farmstead on an improved highway with one on a dirt road? Why in the former are the buildings in so much better shape, the fences up and in a state of repair, the fields spick and span, the house grounds well kept and hedges trimmed, while in the latter the buildings are unpainted? Strange as it may seem, the difference is caused by the road.
VARIOUS KINDS OF HIGHWAYS
Each Community Should Select Type That Can Be Built and Maintained at Lowest Cost.
There are various types of roads that last, and each community should choose the type that can be built and maintained at the least expense. For some communities it may be gravel, for others concrete, for others sand-clay roads. But in every community there should be good roads every day in the year.
