A House of Hearts.
A "heart" home is that of the wife of a doctor in California. The tables, chairs, etc., in fact, all the furniture of the peculiar house are heart-shaped! The owner's bed has a heart-shaped headboard supported on both sides by bedposts carved to represent Cupid's arrow. The heart-shaped headboard is decorated with a heart-shaped picture frame in which two angels embrace each other! The remarkable house is named the "Pericardium," which means the membrane enclosing the heart and the great blood vessels.

Will Conduct Farm Bureau Campaign in this County

On January 24th an intensive campaign will be launched in Webster county in the interests of the Nebraska Farm Bureau federation with both the view of acquainting the farmers of the county with the aims of the farm bureau and the securing of memberships in the Webster County Farm Bureau.

The campaign in Webster county will be conducted along lines similar to those adopted in counties which have already been organized. Two meetings will be held on Monday, Jan. 24th, at the most convenient point in the county.

Both meetings will be addressed by J. A. Crawford of Kansas who is in charge of the campaign in Nebraska. Mr. Crawford has been engaged in farm organization work for many years and is a practical farmer. He is a forceful speaker and understands the work well. The purpose of having him in Webster county is to explain the purposes of the farm bureau in such a way that its value to the agricultural interests of the state and nation cannot be misunderstood.

At the recent meeting of the Nebraska Farm Bureau it was announced that there were 13,854 members in the seventeen counties that have been canvassed to date. No work was done during the holidays but the forces were strengthened and the officers in charge are in the hopes of adding 3,000 names to the list each week. In most of the counties a percentage of close to 90 per cent of all farmers solicited has been maintained.

Some idea of how the farm bureau movement is sweeping over the United States may be gained from the fact that, though the American Farm Bureau Federation is only a little over one year old, it has 1,500,000 members in thirty one states.

"However, said H. D. Lute, secretary of the Nebraska Farm Bureau, "it might be a good idea to offer the suggestion at this time why the farmers of Webster county should get into the organization along with the farmers of Nebraska as well as throughout the United States.

"It is not the idea of the farm bureau to supplant or usurp any existing farm organization, but rather to co-operate with them and thus bring the millions of farmers throughout the country into an organization to carry out the plans of the United States Department of Agriculture, set in motion several years ago to stimulate organization and cooperation among farmers.

"The farm bureau has succeeded in securing financial aid from the federal reserve banks to help wool growers hold their clip for better prices; it succeeded in securing the repeal of the daylight saving law over the president's veto, and so far has prevented the passage of the Nolan bill which proposes to place a one per cent tax on all farm land held by an individual farmer in excess of \$10,000, improvements exempted.

"The federation secured better recognition for the farming industry in the recent national platforms than was ever secured before and it organized the Committee of Seventeen made up of the leaders of all the various farm organizations which is now devising plans for bettering the marketing conditions of the products of the farm.

"These things are just suggestions why the farmers of Webster county should prepare to take a part in the meeting to be held in this county and learn more about the farm bureau."

NOTICE

All members of the Christian church and all spiritually minded people are requested to meet at the South Side Mission Sunday morning at 10:30 A. M., January 16, for the purpose of re-organizing the spiritual forces of the community and for such other matters as God may direct.

If you believe—the Bible is a sufficient rule of faith and practice; in conversion of sinners; in the baptism of the Holy Spirit; in the right of private judgment in the form of religion! in the union of all saints, and in New Testament Christianity. Or if you are opposed to card playing; the modern dance, the Sunday moving picture show, and kindred vices, are opposed to a federation of and with inconverted church people—COME.

A Dream.
A Boston banker says we are an extravagant nation. In this he makes no reference to us personally. One of our fondest ambitions is some day to be able to have enough gathered together so that we can go out and try what it is like to be extravagantes. Detroit Free Press.

Gratitude.
A clerk employed behind the counter at a post office in the south of England recently rescued a young girl from drowning. In order to show their appreciation of the young man's bravery, local residents have now decided to purchase their stamps at his post office.—London Panch.

Not Vocal Sound.
The grasshopper does not use the throat in producing its shrill note. It is produced by the wings. One of the ribs of each wing resembles a file, while another part of the wing is drawn tight like a drum. When the grasshopper draws one file over the other it causes the drum to vibrate.
