Farm Bureau Notes

COST OF PRODUCTION RECORDS

The meeting Tuesday afternoon was attended by the Township Project Leaders on Cost of Production. E. L. Taylor, Extension Specialist from the Farm Management Department was present and showed how to figure the cost of wheat, corn, etc. He used wheat as an illustration. Each township in the county will keep a few records on wheat, corn, oats and hogs. Dan Garber who just returned from Lincoln where he attended the meeting of representatives of the various farm organizations to hear the report of the Committee of Seventeen on the marketing grain, gave a brief report which was very interesting. The Committee of Seventeen is a committee appointed and financed by the American Farm Bureau Federation. The Committee of Seventeen was composed of the leaders of all Farm Organizations, C. H. Gustafson, President of the Farmer's Union in Nebraska was chairman of this committee.

Beaver Creek and Elm Creek Townships adopted the program of work. Beaver Creek Township Meeting—E. L. Taylor helped the members to figure cost of producing a bushel of wheat in their township. The following program of work was adopted: Main source of income, wheat. Difficulties; rust, smut and low yield. Remedies; smut demonstrations and trying out rust resistant and improved variety of wheat. Goal; ten farmers raising Kanred wheat, two farmers treating for smut, five farmers keeping "Cost of Production" records.

Project Leader, W. H. Garlach. Ten farmers signed up for Accredited Tuberculosis Freed Federal testing, eight farmers signed up for "Pure Bred Sires Only," two farmers will keep records on oats, three on corn and two on hogs.

Elm Creek Township Meeting—E. L. Taylor figured with the farmers present, cost of producing a bushel of corn. Program of work adopted as follows: Main source of income, wheat. Difficulties, marketing, rust, smut and low yield. Remedies, keeping Cost of Production records, growing improved strains of wheat. Goal, two farmers growing Kanred wheat, four farmers keeping "Cost of Production" records. Project Leader, Art Stearn. Two farmers of Elm Creek will keep records on corn, two on oats and two on hogs. Four farmers signed for "Pure Bred Sires Only."

PRAIRIE DOG AND POCKET GOPHER POISON

We have mixed up some prairie dog poison and farmers that have prairie dogs can call at the office and get some. This is the cheapest way to kill the dogs. It costs around 15 cents per acre and is easy to put out. We have on hand prepared poison for Pocket Gophers.

HOLSTEIN BREEDERS' MEETING

Owing to the storm Saturday the Holstein Breeders' meeting was postponed till Saturday, April 2nd at 2 p. m. All farmers interested in dairying should attend, prospects are good for a Dairy Calf Club and Dairy Stock Judging team.

HENRY R. FAUSCH,
County Agricultural Agent.

W. G. Hamilton was in Hastings today.

Dr Paekwood of Riverton was in the city Wednesday afternoon.

Vote for Alf McCall for mayor.

Petitions are being circulated today to run Alf McCall for Mayor by petition.

The Degree of Honor lodge will meet next Tuesday afternoon at 2 o'clock in the I. O. O. F. hall. A full attendance is desired and a program will be given for the good of the order.

According to a table compiled by the Omaha Chamber of Commerce Nebraska ranks third in automobiles per capita for the year 1920, and there are 220,000 automobiles for a population of 1,295,502 people in this state.

Congregational Church Notes

The services last Sunday were very interesting with the beautiful Easter Cantata, the baptism of two children and receiving of nine new members into the church.

Rev. Mrs. Mitchell's work with the church is showing good results.

Services next Sunday as usual with the quarterly Sacrament of the Lord's Supper. Always good singing and a good sermon. You are invited.

It is EASY to wash PYREX

Nothing can adhere to its hard, odor-proof, grease-proof surface. It is easy to keep clean for it will not chip, craze, bend, dent or discolor and always remains new.

PYREX is the original—the first transparent oven-ware and is guaranteed not to break in actual oven-use.

PYREX is made in shapes and sizes for every practical baking purpose. It is a saver of time, fuel and dishwashing drudgery.

TRINE'S Hardware

Hear a pure voice!

MORE beautiful than a sweet silver bell,—more exquisite than any other musical sound in the world,—is the human voice when it is pure. But rare! Extremely rare! Mr. Edison tested 3800 singers. Only 22 sang pure notes.

The NEW EDISON

"The Phonograph with a Soul"

FREE!

Mr. Edison's favorite portrait! The famous pen-sketching by Franklin Booth, 12 x 19 inches. Given to everyone who votes in our "most-interesting American" contest.

Come in and hear Case, Hempel, Chalmers, and other artists Mr. Edison has picked for their purity of tone. The New Edison RE-CREATES these magnificent voices so perfectly that there is no difference between RE-CREATED voice and original voice. It gives you their every enchanting beauty.

Platt & Frees

More Garbage.

Sunday morning Jean, age three, watched her mother prepare a fruit salad. To make it extra good all the choice fruits in season were added. At dinner after Jean had finished eating his salad he said, "I want some more." "Some more what?" he was asked. "Oh, some more of that garbage," was the reply.

Sugar Gives Off Sparks.

A queer phenomenon has recently come to the notice of Washington scientists. Disks of loaf sugar mounted on a rapidly rotating lathe while a hammer beat lightly against them were seen to give off a continuous light that has not been satisfactorily explained.

Every man in the class knew the answer

PROFESSOR HASKINS.

WAS A kindly soul.
BRIGHT ON some subjects.
BUT SO absent-minded.
THAT ONE day at the barber's.
HE TOOK off his collar.
TO GET shaved.
AND FORGOT where he was.
AND KEPT right on.
TILL THE cash-girl screamed.
AND A barber stopped him.
HE WAS a great smoker.
BUT HE'D often put.
THE BURNT match in his mouth.
AND THROW away.
THE CIGARETTE.
HIS STUDENTS loved him.
HE WAS so full.
OF FUNNY surprises.

ONE DAY he had a tube.
OF RADIUM and he told.
THE STUDENTS all about it.
AND FINALLY, by mistake.
INSTEAD OF the tube.
HE PULLED out one.
OF HIS cigarettes.
AND ASKED the class.
"WHAT IS the one thing.
WHICH DISTINGUISHES.
THIS MARVELOUS substance.
FROM ALL others on earth?"
AND THE class roared.
"THEY SATISFY."

WHAT is it you've always wanted a cigarette to do? You know the answer. Chesterfields do it—they not only please your taste, they satisfy! It's all in the blend—a secret blend of fine Turkish and Domestic tobaccos. It puts Chesterfields where none can touch them for quality and value.
