"AFTER EVERY MEAL"

Delectable sugar coating around a nippy zippy bit of peppermint chewing gum.

Sweeten the breath, aid digestion, quiet nervousness, allay thirst and help keep teeth white.

The Flavor Lasts

B-2

Eugenics seems a plausible theory—to anybody who is not in love.

FARMERS ARE WORKING HARDER

Using their feet more than ever before. For all these workers the frequent use of Allen's Foot-Ease, the antiseptic, healing powder to be shaken into the shoes and sprinkled in the foot-bath, increases their efficiency and insures needed physical comfort. Allen's Foot-Ease takes the friction from the shoe, keeps the shoe from rubbing and the stockings from wearing, freshens the feet, and prevents tired, aching and blistered feet. Women everywhere are constant users of Allen's Foot-Ease. Don't get foot sore, get Allen's Foot-Ease.

More than one Million five hundred thousand pounds of Powder for the Feet were used by our Army and Navy during the war. Sold everywhere.

HAD SOMETHING IN COMMON

Lawyer's Sharp Questioning Finally Drew Material Answer From Old Lady on Witness Stand.

Philander C. Knox used to tell the story of a Pennsylvania lawyer, known throughout the state for his sharpness, who once met his match in a very unexpected quarter.

An old woman was being cross-examined by him as to how the testator had looked when he made a remark to her about some relative.

"I don't remember. He's been dead three years," she answered, testily. "Do you mean to tell me that your memory is so bad that you cannot go back three years?" demanded the attorney.

The witness was silent. "Did he look anything like me?" the lawyer finally ventured.

"Seems to me he did have the same sort of vacant look," responded the old lady.

She Recommended It.

Revue Star—What heavenly soap this is! Where on earth did you get it? New Maid—Why, madame, I bought some because I saw an advertisement in which you said you were never happy without it!

Value of Education.

The most important thing one can acquire in school is not the information gained but the habit of study established. With a mind trained to study one has the ability to work at the solution of the problems which come up in life. Education gives one comprehension while lack of training causes bewilderment.

Fresh, sweet, white, dainty clothes for baby. If you use Red Cross Ball Blue. Never streaks or injures them. All good grocers sell it, 5c a package.

FEW EYES REALLY NORMAL

Just as One Is Right or Left-Handed, So It Is With the Organs of Vision.

Very few people realize that they are as much right-eyed or left-eyed as they are right or left-handed.

Sit down in a chair and fix your attention on some object on the other side of the room. Quickly hold your finger up right in front of the object, and instantly shut your eyes. Then without moving your head or your finger, open your eyes one at a time. If, when you open your right eye you find your finger directly in front of the object, you are right-eyed. In that case you will find your finger very much to the right of the object when you open your left eye.

If you are right-handed you will most probably find that you are right-eyed.

This is due to the fact that of the two halves of your brain one is slightly more developed than the other. And the organs and limbs on that side of your body which is controlled by the more developed half are able to carry out your wishes more easily and quickly than those of the other side.

Why Librarians Laugh.

"Father wants me to get 'Twenty Thousand Legs Under the Sea,'" said a youngster at the librarian's desk. Possibly he thought it was a Revere beach story.—Boston Transcript.

GOOD ROADS

FEDERAL AID FOR HIGHWAYS

President Harding Insists That States and Communities Keep Roads in Repair.

President Harding has touched upon a subject which it is to be hoped he will develop in his communications to congress, and that is the subject of federal participation in the building of good roads. The government is committed to the policy of co-operating with the states in road construction, and there is no disposition to depart from it, but the President is emphatic in his insistence that the states and communities shall assume the responsibility of keeping their roads in repair, which is only a just and fair proposition, says Washington Post. If the government is to pay out millions of the taxpayers' money to help pay for the construction of roads, only to see within a few years these highways deteriorate into disuse and decay, that money is wasted.

The value of good roads is now generally recognized and the larger and more progressive states have proved that they are good investments. Improved highways mean not only good automobile roads, they mean cheaper and better food, greater values in the land, better opportunities for the rural population. And they also pay good dividends in the huge sums collected in license fees for motor vehicles, enough in most instances to pay the cost of repairs and improvements.

The policy of the government co-operating with the states in the cost of road building has been a great incentive in the construction of better highways and there is no doubt that many thousands of miles of roads have been built under this plan, which otherwise would not have been undertaken. It should and doubtless will be continued, but there should be an expressed guarantee that roads built under this co-operative plan are to be maintained and kept in good repair. This preeminently is the duty of the

Experimental Concrete Road, Chevy Chase, Md., After Nearly Two Years' Service.

state and not of the general government, and it should be understood that no state will receive an appropriation from the federal government for road building except under the stipulation that it will make provision for upkeep.

This is good policy and good business and President Harding is conserving the public interest in bringing it to the attention of the country. States like Pennsylvania, New York, Ohio and Maryland, which have expended millions of their own money on a system of improved highways, willingly would give guarantees along this line, and if any state is not ready to make such an agreement it should not participate in the federal appropriation.

FACTORS IN PLANNING ROAD

Location, Construction and Maintenance Must Be Taken Into Serious Consideration.

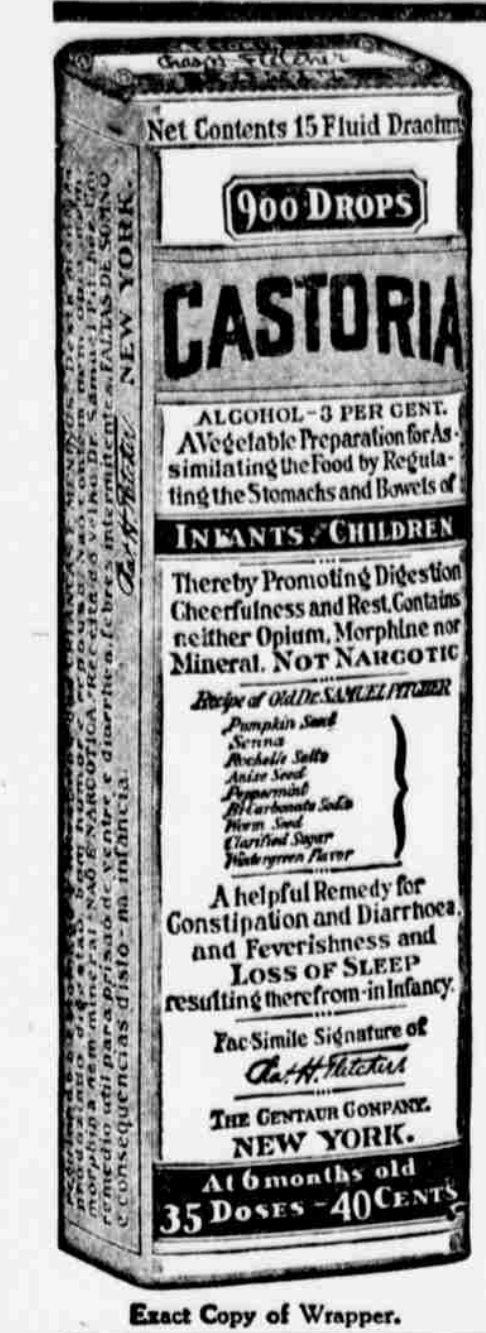

The three principal divisions of actual road making are location, construction and maintenance. In planning a road it is necessary that we take into consideration all three of these steps, since proper location affects the cost of construction and may materially reduce cost of maintenance.

Some of the things to be considered in locating a road are easy grades, good drainage, exposure to sunshine, elimination of culverts and bridges by avoiding unnecessary creek crossings, directness and the number of farms to be served for a given length of road. Whenever possible to avoid it, a good location should not be rejected merely because a certain roadway has been in use for some time.

BIG TRUCKS ARE EXPENSIVE

Damage to Highways and Bridges Is Costly Item—New York Plans Tax on Tonnage.

Because big trucks are tearing up the highways and making the repair of bridges a costly item, legislative leaders in New York state are planning to pass a bill that will tax motor trucks weighing five tons and over \$100 a ton every year. It is estimated that this will yield \$350,000 a year to the state.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic acid.

Rested With Her.

The other day when Jack came home from kindergarten he left his books on the floor and started out to play, when his mother called him back, saying: "Here, Jack, put those books where they belong. How many times must I tell you about that?" "Well, that's up to you, mumsie," came the unexpected reply.

'Twas the Room Went Upstairs.

Teddy had returned from the city and was describing a large department store he had visited. He seemed greatly impressed by the height of the building and the number of floors. One of his little playmates who had been listening attentively finally inquired: "Did you go away, 'way upstairs?" "No," said Teddy. "We just went into the tiniest, tiniest little room and stood still and the little room went upstairs."

BACK GIVEN OUT?

Is a dull, constant backache slowing you up? Are you tired and achy—tormented with sharp, stabbing pains? Do you find it impossible to be happy or enjoy your work? Then, look to your kidneys! When they weaken, the system becomes overloaded with uric acid and backache, sharp pains, headaches, dizzy spells and urinary disorders naturally follow. Help your kidneys with Doan's Kidney Pills. Doan's have brought new health to thousands.

A Nebraska Case

Mrs. L. A. Sherman, 221 N. Lexington St., Hastings, Neb., says: "My back was miserable and I couldn't bend or straighten. Sharp pains through the small of my back hurt me badly. My kidneys acted irregularly. After using two or three boxes of Doan's Kidney Pills, I was relieved and haven't been bothered since. My back and kidneys are now strong and healthy."

PROTECTS POLE FROM DECAY

New Preservative Said to Be the Most Effective That Has Been Put on the Market.

A new preservative which is expected to surpass other compounds used for similar purposes, and which it is claimed the life of wooden poles into which it is introduced will be prolonged by anywhere from seven to twelve years, is being used. The fluid is composed of three constituents, one of high penetrating quality, such as zinc, magnesium or calcium-chloride solution or a sugar solution, and a second of high antiseptic value, such as sublimate, phenol or cresol. The third and most important element is one of long-continued effect, consisting of a slowly soluble antiseptic or slowly decomposing metal powder. This constituent in combination with a granular substance, such as powdered glass, is used to protect the wood in the vicinity of the puncture through which the other preservatives are introduced.—Popular Mechanics Magazine.

Not Altogether Useless. "Young man, you couldn't even buy my daughter's clothes." "I could help."—Life.

Western Canada Land of Prosperity

Offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms Fertile Land at \$15 to \$30 an Acre—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living. Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches and schools, good markets, railroad facilities, rural telephone, etc. For certificate entitling you to reduced railway rates, illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, etc., write
