Omaha Grain Exchange Invites Investigation

The Omaha Grain Exchange regards the farmers of Nebraska as co workers in the job of feeding the world. The system now in operation is the climax of economy and efficiency, and in order that you may be satisfied that this is true, you are cordially invited to come or send your representatives to investigate in every detail the progress of your grain through this market on its way from your farms to the city consumers. Omaha Grain Merchants will receive you into their offices and open to you their books in order that you may thoroughly understand the baselessness of the charge that existing methods are "unsatisfactory"—you can see that there is no "duplication of effort"—no "lost motion" in the marketing machinery—no appreciable "manipulation"—that no "wasteful" methods exist so that further savings would be impossible. You are welcome to a full investigation into the supposed mysteries of the trade in order that you may understand that no real mysteries exist but that the grain trade as now conducted is the most thoroughly competitive of all lines of trade and hence is the most economically handled, bringing to the producer the largest possible result for his toil. Therefore, it no doubt is the DUTY of everyone to acquaint himself with the workings of the Grain Exchange before trying to replace it with an untried experiment.

FARMERS' ELEVATOR

Just For Comparison
1913 - - 1920 - - 1921

It has been figured out, that in building a certain house, the LUMBER cost

\$1,600.00 in 1913
\$3,300.00 in 1920
\$2,000.00 in 1921

Freight has advanced \$280.00 on this material, since 1913, which makes the lumber cost at the present time a trifle over \$100.00 more than it did in 1913 exclusive of freight raise.
