This team also won first at the Inter-State Fair Sioux City, Iowa and they leave next week for the International held at Atlanta, Georgia. **A CHANGE IN THE AUDITORIUM MANAGEMENT**

J. A. McKnight, who has been associated with W. J. Linn, in the ownership of the Besse Auditorium has disposed of his interest and expects to seek new fields of endeavor.

The theatre business is to be incorporated and enlarged in scope to embrace theatres in two or three surrounding towns. A real swimming pool for Red Cloud, is one of the things contemplated, in the organization.

It is intended to incorporate for about \$25,000 and W. J. Linn says he is ready and willing to go ahead and invest up to fifty per cent of this amount. Stock will be offered in small blocks to residents of Red Cloud and vicinity.

The proposition is not to be pushed and people asked to invest through any civic pride, but it is contemplated putting it forward as a good sound business proposition that will show cash returns.

It is the desire of those pushing the proposition, to interest everybody, for a small investment and not to secure large investors, as the success of the venture depends upon the interest and good will of the community and the people are interested financially, it is certain that their desire for the suc-

cess of the project, will secure their cooperation and good will.

Aside from the direct profit to those interested, this means a lot to Red Cloud, in way of healthful recreation for young and old. It means more visitors from surrounding towns, more money spent with our merchants and improved business conditions generally.

The details of the proposition will be put before the public within a few days. Here's success to the new venture.

**An Unusual Offer!**

**WE** will deliver this superb instrument to your home. A selection of RE-CREATIONS, too! You pay only what you feel able to spare,—be it as little as \$10.00. Budget the balance according to your convenience. All the security we ask is a Gentleman's Agreement.

**THIS** offer is made in co-operation with Mr. Edison's great campaign to place the incalculable benefits of pure and good music in every home.

Mr. Edison has developed a reproducing instrument which gives perfect music of all kinds. The research work alone cost him three million dollars.

Hundreds of thousands of people gladly pay \$295 for duplicates of this three million dollar instrument. These instruments are known as Official Laboratory Models.

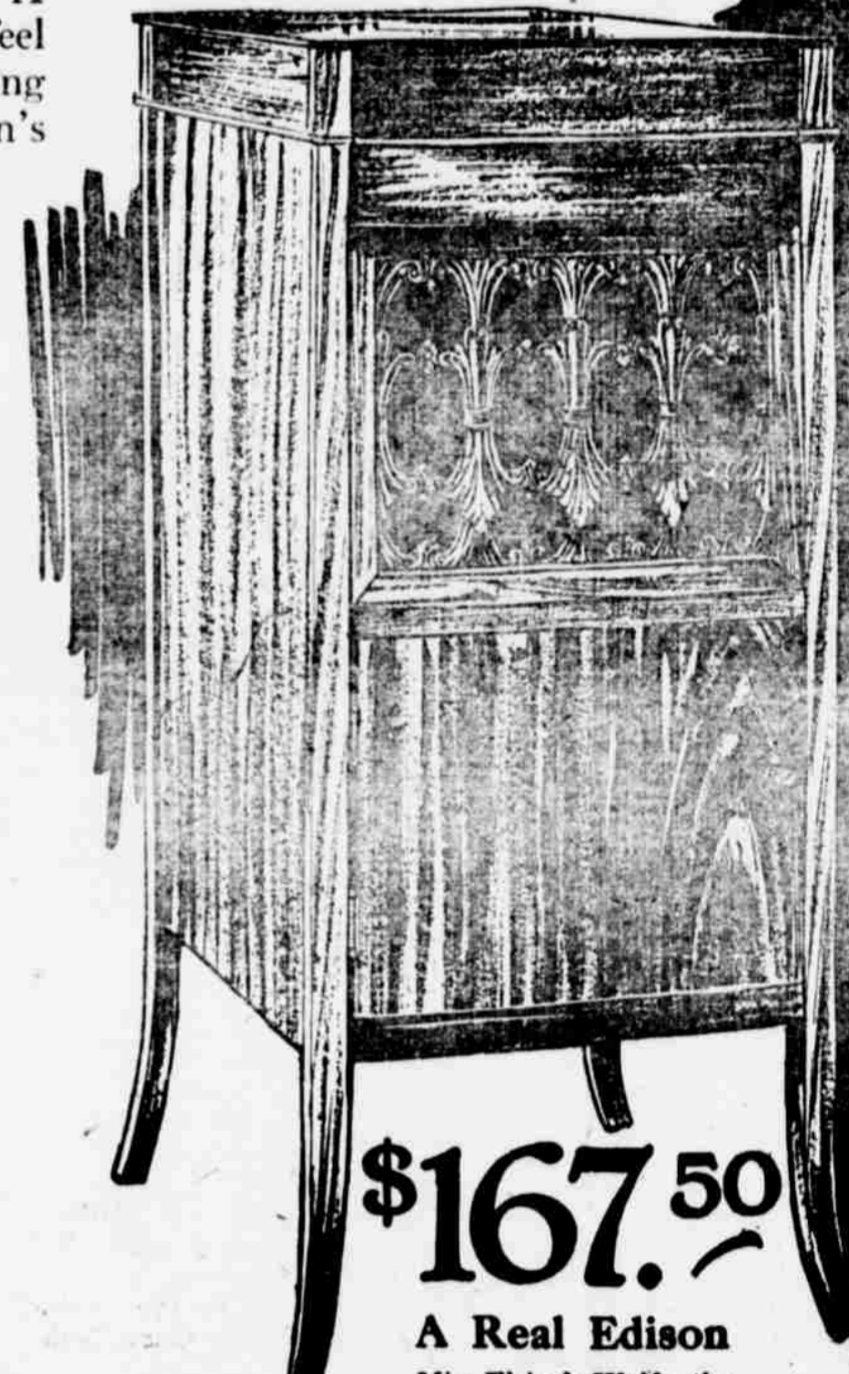

For those who are not ready to purchase Official Laboratory Models, Mr. Edison produces a skillful adaptation of this three million dollar instrument, encased in a charming Heppelwhite cabinet. It is priced at only \$167.50.

To Mr. Edison's great and generous work, we now add our Gentleman's Agreement Plan. It removes the last cost obstacle.

So don't delay. Don't deny yourself the pleasure and benefits resulting from Mr. Edison's marvelous invention. Take advantage of this special, short-time opportunity, and buy a Heppelwhite now. You will find it vastly superior to any and all talking-machines at any and all prices. We are prepared to prove this to you—by a scientific comparison—you and your friends to be the judges.

We are able to make our Gentleman's Agreement offer because there will be no reduction in the prices of Edison instruments. Edison has raised his prices less than 15 per cent since 1914. Don't wait. Come before this special allotment of Heppelwhites is gone. Come at once.

**Note:** At any time within one year from date of purchase, you can trade your Heppelwhite in on an Official Laboratory Model. We will allow you the full amount you've paid.
