DE LAVAL CREAM SEPARATOR

They can't fool the creameryman. He knows which machine skims cleanest, costs the least to keep in good working order, and lasts the longest. He has to know. The wrong separator might easily mean a loss to him of several thousand dollars a year. That's why 98% of all the separators used in the world's creameries and milk plants are De Laval's.

It's just as important to you as it is to the creameryman that you make no mistake in your choice of a cream separator.

Why not be guided by the creameryman's experience?

The terms on which we sell a NEW De Laval are liberal. The machine will pay for itself out of its own savings. Come in and examine it before you buy. We'll be glad to talk it over with you.

HARNESS and SADDLERY Back to Pre-War Prices

Come in and see for yourself our exceptional values. Harness and leather goods of all kinds oiled and repaired

BE PRACTICAL

The young man in love often goes into raptures about "the blue of the sea in her eyes and the golden haze of autumn in her hair," but remember this, young man—SHE'LL EAT just the same as any other healthy girl.

Therefore, get down to practical affairs. Save your money, deposit it in a good reliable bank like ours and get ready to own a home for you and the girl and to provide the three square meals a day that you will both need as long as you live. You know when poverty comes in at the door, love sometimes flies out at the window.

STATE FARM BUREAU NOTES

H. D. Lute, was re-elected secretary of the Nebraska Farm Bureau Federation at a special meeting of the board held last week. Mr. Lute comes from Paxton, where he is a large ranch owner, and was selected secretary of the Federation at the time organization work was started in this state in July, 1920. Lute was also named as treasurer giving him the title of secretary-treasurer. Since becoming identified with the Federation he has devoted all his time and efforts to its cause. He was a delegate from this state to the two big Chicago conferences at which the plan of the U. S. Grain Growers was ratified, and later when the report of the Farmers' Live Stock marketing committee of Fifteen report was adopted. He has also appeared before the interstate commerce commission in the matter of freight rate reductions, and this week is attending the agricultural conference at Washington called by Secretary Wallace, taking the place of President Norton who was prevented from attending by reason of a death in his family.

On account of the sudden death of C. F. Floodman of Stromsburg, father-in-law of president J. N. Norton of the Nebraska Farm Bureau Federation, Mr. Norton did not attend the agricultural conference called at Washington by Secretary Wallace and President Harding. Norton was on his way when advised of the death of Mr. Floodman. Mr. Lute met him at the train in Lincoln and proceeded to Washington, permitting Mr. Norton to return to his home.

President Norton of the Nebraska Farm Bureau Federation has appointed a committee to study the matter of taxation during the coming summer as well as the matter of public expenditures. This committee will make a thorough study of these questions untainted by political influences or partisan prejudices. The committee is composed of Hon. H. L. Keefe of Walthill, C. Y. Thompson of West Point; John P. Davis of Geneva; H. C. Filley of the State Agricultural college and F. M. Deweese, of the Farm Bureau Federation legal department, Keefe and Deweese are both farmers and lawyers and are competent to view tax matters from every angle. H. C. Filley is an authority on tax matters and has been a contributor of articles on tax questions to leading publications. Thompson and Davis are among Nebraska's most successful farmers and are men big and broad enough to study these questions from unbiased standpoints. "Any recommendations made by this committee," said Nebraska Farm Bureau Federation headquarters, "will be made from the standpoint of doing the most people the most good and not with the idea that the political fortunes of any particular class of men or parties will be advanced or defended."

The executive committee of the Nebraska Farm Bureau Federation at a special meeting held in the Lincoln office January 19, adopted the working program of the federation for the year of 1922. In addition to the appointment of the committee named to study tax questions and the question of expenditures, the Bureau will assist in the organization and promotion of cooperative marketing and cooperative industries; will continue its practice of entering appearances before rate making bodies in hearings affecting freight and telephone rates and kindred affairs, take referendum votes among the members on pending legislation as well as proposed legislation; study plans for a state income tax; urge a constitutional amendment for the classification of tangible property, and get behind legislation looking to a more adequate rural credit system. The board also went on record as favoring a restriction of the present road building program.

January Weather Report

Temperature: Mean 24 deg., maximum 58 deg. on 9th, minimum 6 below zero on 19th.

Precipitation 0.23 inches, total snow-fall 1.2 inches.

Farm Bureau Notes

"Opportunity is Yours"

"The young man of today has just as good an opportunity for success in the live stock industry as his father before him. Now is the time for the young man with courage, nerve, and confidence to go into business. It takes nerve to buy on a declining market. People are like sheep. With great herds depleted and general discouragement among the older stockman, it may be hard for the young man to look ahead. But to the young man who has the courage to buy on this low market and who knows something of the tendencies of the industry, the opportunities for the next few years are going to be as they ever were."

Every successful business man know that the time to buy is when prices are low, or in periods of depression. It is safer now to purchase live stock than it has been in the past five or ten years. Buying when prices are high like they were in 1919 invariably means a loss to the purchaser for it is well known that for every period of high prices there is a corresponding period of low prices. The man who recognizes this sells when prices are high and buys when prices are low. We are experiencing low prices now and it is the time for those desiring to enter the dairy business to purchase cattle. It seems to us they will have greater opportunities than their fathers because our population is increasing and the opportunity for opening up new lands for productive purposes is small compared to what it was fifty or more years ago. Our increased acreage will now come by reclaiming lands and applying better methods of farming to the acres already under cultivation. It must be remembered that fifty years ago the great prairies of the northwest were undeveloped; there is no such section to be opened up to the present generation.

HENRY R. FAUSCH
County Agricultural Agent.

U. S. GRAIN GROWERS TO MEET NEXT MONTH

Eight thousand members of the U. S. Grain Growers, Inc., in Nebraska will meet at 227 shipping points on February 7th to elect delegates to six congressional district conventions to be held February 20, 21, 23, and 24, according to C. H. Gustafson of Lincoln, national president of the farmers' company. All farmers who become members of the organization prior to January 15th will have a vote in the local units and will be qualified to serve as congressional or national delegates.

The 44 delegates from congressional districts two and three, representing each of the shipping points in these sections, will meet at Omaha, February 20; the 117 delegates from districts one and four at Lincoln, February 21; the 42 delegates from district five at Oxford, February 23; and 24 the delegates from the sixth district at Sidney, February 24. The number of members to be represented at the Omaha meeting has been announced as 2,000; at Lincoln, 4,000; at Oxford, 1,300; and at Sidney, 700.

National delegates meeting in Chicago for the first annual convention beginning March 21, will elect a new board of directors and transact such other business as shall be brought before them. The convention constitutes the annual members meeting and is designated in the by-laws as "the supreme tribunal of the association."

Each local voting unit, consisting of the members at any one shipping point, will elect a delegate to the congressional district convention who will be empowered to cast one vote for each of the members he represents. The delegates elected to the national convention by each congressional district likewise will cast one vote in the national meeting for each member in his congressional districts.

An elevator contract has been signed with the board of directors at Silver Creek, home of the veteran Charles Wooster, avowed opponent of the U. S. Grain Growers. The contract was executed by J. H. Ruff, president, and George F. Buchta, secretary, of the cooperative elevator. All members of the Silver Creek board present at the meeting signed grower contracts with the farmers company.

Appointed County Chairman

It is proposed to raise by voluntary contribution, a million dollars or more.

This fund will be known as the Woodrow Wilson Foundation, as a tribute to Woodrow Wilson, twice President of the United States, and the World's outstanding leader for Peace through Justice and Liberal Policies.

The income from this fund, invested by Trustees, will be awarded through the years to come for meritorious service rendered to Democracy, Public Welfare, Liberal Thought or Peace through Justice—thereby accomplishing the two-fold purpose of paying a tribute to a great American while he is living and carrying into the future the measures he stressed while in office.

All expenses of the campaign are cared for by private subscription. Every dollar subscribed goes to the fund.

Send your contributions in any amount you can afford to W. L. Webster, Chairman Red Cloud for Webster County.

A Letter To Make Good

Must impress the person who receives it with its importance, whether the correspondence be of a business or personal nature. The mails are flooded with cheap circular letters and the average busy man of to-day gives his mail the "once over" and passes most of it to the waste basket. A letter to demand attention in these busy times must be distinctive.

Hammermill Ripple Bond

Printed correctly makes the nicest letter head you can possibly obtain. The hard smooth surface of this paper renders it particularly adaptable to high class artistic printing and the ripple finish places it in a class by itself for attractive appearance. The "crisp cackle" you notice in opening a letter written on Hammermill Ripple immediately suggests taste and progressiveness on the part of the sender.
