C. T. Smith shipped a car of hogs to Kansas City Tuesday. He accompanied the shipment to market. Wm. Lain also shipped one car of hogs from Lester to Kansas City.

Township Has Ten Residents.
The most peaceful place on earth at present is said to be the township of Le-Turtre-Gaudran in the Department Seine-et-Oise, not far from Paris. Never large, the war has reduced its population to an even ten souls, only four of whom are eligible to office. But each French commune under 500 inhabitants must have ten aldermen. Le-Turtre-Gaudran elects his first four without a dissenting vote and then invites six outsiders to help steer her canoe of state. The annual budget is 1,500 francs. The present clerk says, "It n'y a rien a faire." His predecessor claims that in one decade he recorded three births and two deaths, but no marriages. Yet to have this commune dissolved or annexed would cost immense sums and make ten persons unhappy for ever after.

Improvement on Banjo.
A new banjo is specially designed to meet the requirement of dance or orchestras, stage performances and playing in large halls. The banjo, described in Popular Mechanics Magazine, has a wooden sounding board set just back of the head. A horn opening from the space between the head and sounding board, passes through the frame of the instrument and throws the entire volume of sound forward into the hall. A second board covers the back of the instrument. This not only increases the volume of sound but, by variations in construction, the quality of tone can be controlled to suit special purposes.

Farm Bureau Notes
PIG CLUB
The Poland China and Duroc Jersey breeders are back of Pig Club work. In the meetings held last week by these bred organizations they believe that pig club work is the greatest movement ever started for keeping the boys and girls on the farm. It is the coming generation of which we must think. To many boys and girls farm life becomes a drudgery. Yet, if they can have a pig or calf or some stock of their own for which to care and plan, it is different than just doing "dad's chores."

Each association will give Trophy cups at the local shows and the breeders consigning to the Poland Sale on February 18th, and the Duroc Sale March 4th are offering the following:
Boys' and Girls' Prize

The Poland China and Duroc Jersey breeders are consigning bred sows to these sales are providing for a special show and offering a prize at the Farmers' Institute next October, which is the close of club work.

To Boys and Girls buying a bred sow or gilt out of these sales, who will show the best gilts from their sows litter and winning first in this special class, purchase price of the sow will be refunded by the breeder who consigned the sow and the gilt is to become the property of the breeder. There is to be but one gilt free.

Pig Club work needs the cooperation of the progressive and successful breeder. It needs the benefit of the counsel and the stimulation of their active leadership in the local clubs.

More Aims Than Money
The object of the boys' and girls' club work of the United States Department of Agriculture and State Colleges has always been and still is to develop boys and girls into useful men and women with an interest in the work of the farm and home and the industries upon which the future of the community and state depend. Growing of pigs, increasing yields of corn, designing of economical and attractive clothing, and conservation of fruit and vegetables are incidental to this undertaking, important as they may seem. In other words, a boy cannot develop a State Champion pig without at the same time developing himself.

HENRY R. FAUSCH
County Agricultural Agent.

In the District Court of Webster County, Nebraska.
In The Matter of the Application of Alphonse E. Hansen, Administrator, for License to Sell Real Estate.
Now on this 7th day of February 1922, Alphonse E. Hansen, administrator of the estate of Henry G. Hansen, deceased, having presented his petition under oath praying for license to sell the following described real estate of the said Henry G. Hansen, deceased, to-wit: An undivided one-third interest in the South West Quarter of the North East Quarter and the South half of the North West Quarter of Section 16, Town 1, Range 10, in Webster County, Nebraska, subject to the homestead right in said land of Louise Hansen, for the payment of debts allowed against said estate, and allowance and costs of administration, for the reason that there is no personal property in the possession of said Alphonse E. Hansen, administrator, belonging to said real estate to pay said debts, allowances and costs.

It is therefore ordered, that all persons interested in said estate appear before me as chambers in the city of Red Cloud, in said county on 20th day of March 1922, at the hour of ten o'clock, A. M. to show cause, if any there be, why a license should not be granted to said administrator to sell so much of the above described real estate of said deceased as shall be necessary to pay said debts and expenses.

It is further ordered that a copy of this order be served upon all persons interested in said estate by causing the same to be published for four consecutive weeks in the Red Cloud Chief, a newspaper printed and published in said county of Webster.

LEWIS H. BLACKLEDGE,
Judge of District Court.

Babylonian Civilization.
Ruins of a Babylonian city dating back 2,000 years before the Christian era have been discovered at Koisa Nyek, Asia Minor. The city was named Birus; it seems to have been one of the earliest homes of feminism, if not, indeed, of woman's emancipation. The ruins prove that the community which lived there was partly military and partly commercial. Cuneiform inscriptions give many odd details of the organization of the city, which was governed by a prince and a prefect, assisted by a princess and a woman prefect, whose powers are said to have been precisely equal to those of their male colleagues. Records of a regular postal delivery service have been found, the letters being written on baked tiles of a circular shape. References to an early form of the bank check system have been discovered, a bearer check being found which contains instructions to the addressee to pay to the person named in it a stated sum.

Duroc Sale

I will offer at Public Auction at the farm 6 miles south of Inavale, 5 miles northeast of Womer, 6 miles south and 7 west of Red Cloud, on.
