**WEBSTER COUNTY HEREFORD BREEDER WINS**

To again prove that Webster county is leading all counties in the state in her pure bred livestock, at the Nebraska Hereford Breeders' Consignment sale held at Grand Island, Frank Bean consigned a yearling bull that won first in the show he'd before the sale and in the sale topped the sale at \$600.00. This calf was a son of Beau Monington Mr. Bean's herd bull. Mr. Bean had offered this calf to several Webster County Breeders' at \$200.00. This again proves that the farmers and breeders of their own county often do not appreciate the good live stock being raised by their fellow breeders, but will pass them up and buy away from home.

**THE SIGNIFICANCE OF IT ALL**

It is significant that pig clubs should have been organized. It is significant that thousands of our best farm boys and girls should be experimenting with the mortgage lifter of the American farm. It means a new era in agriculture before many years have passed. The gloom and depression that hangs over a mortgaged farm will be lifted from many homes, and the sunshine of happiness will be let in.

Farming requires the most technical knowledge of any occupation. It is next to impossible for a city man to become a successful farmer. I believe the reason why so many farmers are not really successful, to be because they were not interested in farm life as boys. Here we have an army of boys and girls each year finding interest in the farms' best proposition. They are learning to produce the very best money making factor on the American farm. It means that not only will the pig clubbers become successful farmers, but the whole color of agriculture will brighten, and that forty-four million farmers will see dawning a new era of prosperity.

Even more than for the sake of financial prosperity, are we fitting them to be efficient in the very highest type of agriculture. The breeding of pure bred animals represents the highest form of farm pursuits, and the constructive breeders who work distinct advancement in the breed of animals in their hand go down in history as benefactor to the highest interests of the greatest industry in the world.

**Chi-Namel**

Neither pounding heels nor piping hot water will affect Chi-Namel on floors, furniture or other woodwork. Remarkably brilliant because of the water-proof self-leveling Chinese Oil incorporated by our secret process. Chi-Namel finishes for hard or soft, old or new wood are also the most economical because they cover one-third more surface than most other finishes.

**VISIT THE NEAREST CHI-NAMEL STORE**

(Always the representative store in its locality) and learn of the many Chi-Namel finishes for everything in the home and the ease with which you can apply these self-leveling Chinese Oil finishes without tape or brush marks. It will be 5 minutes well spent.
