The trouble in America is that we are too apt to look at fire prevention and fire protection from the standpoint of another and not from our own individual hazards. Too often many of us think that our home, business or property is fire safe—that fire will visit the other fellow but not us; when in fact we are maintaining and allowing to exist daily just as great, if not greater than the man who experiences the fire, which practice will sooner or later bring trouble. Let's all wake up and take an inventory of our conditions and remove those likely to cause fire.

Unexpected!
a New "USCO"—
Better, Heavier, Longer Wearing
30x3 1/2—\$10.90 No Tax added
on Sale Now

USCO set the high value mark for 30 x 3 1/2 tires when it originated the \$10.90 price last Fall.

USCO today betters that mark with a new and greater USCO—an USCO improved in many important ways.

For instance, a thicker tread—with a surer hold on the road—thicker side walls, adding strength and life to the tire.

And the price is \$10.90—with the tax absorbed by the manufacturer.

Men have always looked to USCO for the biggest tire money's worth on the market.

They always get a bigger tire money's worth than they expect.
