The Anti Saloon League, of which F. A. High is State Superintendent, and is composed of grannies and ben pecked victims, has sent out untruthful circulars to the voters stating that Senator G. M. Hitchcock, candidate for reelection, and Chas. W. Bryan, candidate for Governor, on the Democrat ticket, are unsatisfactory candidates for office. We all know that Senator Hitchcock has issued a statement declaring that he was against the repeal of the Volstead act and also has voted for all enforcement law. As for Mr. Bryan he has always been dry. The voters will not be misled by voting for these men.

Senator Hitchcock's proposal for a Bank of Nations to do something to re-establish the credit of Europe and make it again possible for those countries to become customers of the American farmer is meeting with the high favor that it deserves among the farmers of the state—who are the chief exporters to Europe.

The chief thing that is the matter with farm prices is that millions of customers who formerly bought our farmers' goods have gone bankrupt and

have nothing with which to buy these goods longer. That dumps the great export surplus on the home market and rans the prices down in a panic-way.

The farmers' troubles will not be ended by little one-dollar sales that may be peddled here and there over the economic system. The real cure must go down into the seat of the real disease. Senator Hitchcock is admitted to have the only plan along such broad lines. And it deserves to meet with the favor that those who have heard him explain it accord to it.
