#### Democratic Party Defender of Honest Wealth.

We may expect those who have committed larceny by law and purchased immunity with their political influence, to attempt to raise false issues, and to employ "the livery of fleaven" to conceal their evil purposes, but they can no longer deceive. The Democratic party is not the enemy of any legitimate industry or of honest accumulations. It is, on the contrary, a friend of industry and the steadfast protector of that wealth which represents a service to society. The Democratic party does not seek to annihilate all corporations; it simply asserts that as the goverument creates corporations, it must retain the power to regulate and to

#### Chatauqua a Big Success.

The second annual assembly of the Red Cloud Chautauqua has been one of the large crowds that have been in attendance each day gives ample evidence of the popularity of these assemblys. the chautauqua has come to Red Cloud to stay. In no other way can the city and community hear the views of

We want the public to know that we still have bargrins in real estate. We bave traveled over seventeen different counties in the western prat of this state and are now prepared to show the best !and you can get any where for the same money. We beg of you, who are thinking of buying a home or investing in real estate, to go with some reliable agent, who is a good judge of land, and that will work for your interest.

Just to show you that we have a good country and are doing business on the spuare, we wish to tell you that we have sold over 30,000 acres in Chase county in the last two years, and you never hear of any of our customers trying to sell out and go to Tequas or any other place. But they will stand up for Nebraska and also for the man that sold them Nebraska land.

-----

The corn now, in Chase county, is better than it is here. It is now in tassel and we look for a No. 1 corn crop out there this year. Now we do not ask you to take only our word for this, but if you want land ask somebody about the west that has been there and knows the country well and also is a good judge of land. Remember we are not trying to sell land a thousand miles from home, but are seiling in old Nebraska where we know the land is good. Ask anyone about the west that has ever been out

with us or Mr. Walker, who is (a leading real estate man here and a friend to the west) well posted on the western ; ars of the state, and is a good judge of land.

Now remember, we pay all the hotel and livery bills of our prospective buyepy, and anyone that finds that we have misrepresnted the land in any way their transportation will cost them nothing. Call in and see us and let us tell you of some of the bargains we have.

Yours for a square business,

WHY you should BUY ANOS =NOW \_\_\_\_\_

If you have girls it is your intention to sometime provide them with a piano. It has come to be recognized as the KING of all musical instruments, and a girl's musical education is worth more to her through life than any other one accomplishment. It is in fact, a NECESSITY. But you already know this, and you are only waiting till the conditions are just right for you to buy her an instrument. In the Spring you wait to see what the prospects for a crop will be, and you promise the girls and yourself (and the piano man) that if the crops are good you will buy this season. This season has been an IDEAL one. The rains have fallen at the right time. The sun has shone just long enough to allow you to cut and stack your Alfalfa and small grains; then when you thought it might get too DRY the rains began again.

control them, and that it should not permit any corporation to convert itself into a monopoly. Surely we should have the co-operation of all legitimate corporations in our effort to protect business and industry from the odium which lawless combinations of capital will, if unchecked, cast upon them." Only by the separation of the good from the bad can the good be made secore.

Not Revolution, but Reformation. The Democratic party seeks not revolution but reformation, and I need hardly remind the student of history that cures are mildest when applied at once: that remedies increase in severity as their application is postponed. Blood poisoning may be stopped by the loss of a finger today; it may cost an arm tomorrow or a life the next day. So poison in the body politic can not be removed too soon, for the evils produced by it increase with the lapse of time. That there are abuses which need to be remedied, even the Repub lican candidate admits; that his party is unable to remedy them, has been fully demonstrated during the last ten years. I have such confidence in the intelligence as well as the patriotism of the people, that I can not doubt their readiness to accept the reasonable reforms which our party proposes, rather than permit the continued growth of existing abuses to hurry the country on to remedies more radical and more drastic,

#### Our Party's Ideal.

The platform of our party closes with a brief statement of the party's ideal. It favors "such an administration of the government as will insure, as far as human wisdom can, that each citizen shall draw from society a reward commensurate with his contribution to the weithre of society "

Governments are good in proportion. as they assure to each member of soriety, so far as governments can, a return commensurate with individual merit

#### The Divine Law of Rewards.

There is a bivine law of rewards. When the Creator gave us the earth, with its fruitful soil, the sunshine with its warmth, and the rains with their moistore. He proclaimed, as clearly as if it's voice had thundered from the from a trip to the west part of the clouds, "Go work, and according to state, your industry and your intelligence, so shall be your reward." Only where might has overthrown, cunning undermined or government suspended this law, has a different law prevailed. To conform the government to this law ought to be the ambition of the statesman; and no party can have a higher mission than to make it a reality wherever governments can legitimately, operale. Have you noticed that Providence has been very kind, even to cause the rains which we wanted, to fall in the night after the Chautauqua excersises were over for the day.

Have You Anything to Complain About?

My stock of HIGH-GRADE pianos is now complete. TOO complete for my pocketbook, unless I can turn them quick, and I have waited for "conditions to be just right" so long that I NEED MON-EY. If you expect to buy a piano any time, it will pay you to get in the market NOW. I will make you prices on the basis of SPOT CASH sales, but if you have not yet realized CASH out of your crops and stock, I will take your paper for a short time WITHOUT interest. I can use your paper and you can use the pianos; and "we'll all be happy then."

NOW DON'T WAIT. Call on me, then you can see the pianos and make the best BARGAINS. You will be surprised to find that you can buy STAND-ARD PIANOS as cheap as ordinary "Stencils' are priced elsewhere. You should take no chances in buying a piano. It should be looked upon as a life-time investment.

"BETTER BE SURE THAN SORRY" If you cannot come in, call up phone 116 and I will come to see you.
