Don't forget the next excursion dates of the Red Cloud Investment Co. are the first and third Tuesdays in September. While business is not very pressing on the farm take a few days outing and visit the "Newest Land of Promise," where good cheap land abounds with diversified crops, where the very sight of it will make you "open the latch of your pocket-book and say, 'I'm going to have some of that.'"
THE RED CLOUD INVESTMENT CO.
Not satisfied with the dilapidated appearance around the court house, the county commissioners have given some gentlemen permission to cut the blue grass sod off a plot large enough to make a tennis court, which also necessitates the removal of two trees. This has been done, notwithstanding the fact that there are three other courts in town where these men could have played, and it is to be regretted that the board of commissioners can be so influenced by one or two men and allow what little beauty there is about the court house grounds to be destroyed. Is it not about time that we had men in power who will take care of our public property instead of allowing it to be defaced and ruined.

Land! Land! Land!
\$15.00 an acre buys land that will produce the very largest yield of all kinds of farm products, and will increase in value in the next ten years as fast as the land did in Oklahoma, that is now selling for from \$50.00 to \$75.00 per acre.
The crops are elegant in the Panhandle where this land is located, and land sold on ten years time is in the reach of the man of moderate means, and some of our good citizens are taking advantage of it.
