A GREAT DISCOVERY

Certain Ingredients That Really Grow Hair When Properly Combined.

Resorein is one of the most efficient germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination with alcohol added as a stimulant and for its well defined nourishing properties, perfect the most effective remedy that is known for scalp and hair trouble.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely invaluable medical agents. We guarantee it to positively cure dandruff and to grow hair; even though the scalp in some spots is bare of hair. If there is any vitality left in the roots, it will cure baldness. If the scalp has a glazed shiny appearance, its an indication that baldness is permanent, but in every other instance, baldness is curable.

We want everyone troubled with sea p disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid for it. We print this guarantee on every bottle. It has effected a positive cure in 93 per cent of cases where put to a practical test.

Rexall "93" Hair Tonic is entirely unalike, and in every particular better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. The H. E. Grace Drug Co., Red Cloud, Neb.
