

## A Master Stroke of Typewriter Invention

New Oliver Automatic Tabulator, a Twin Improvement to the Oliver Ruling Device.

Just a simple, clean-cut mechanism for tabulating—operated by a single key.

Yet that single key unlocks scores of doors to added typewriter convenience. It does away with the brain tension of tabulating. The movements of carriage are controlled by unseen fingers. The tabulator works automatically with unvarying accuracy.

Equipped with its new Automatic Tabulator, which can be operated in connection with the Oliver Line Ruling Device, the Oliver's sphere of usefulness is unlimited.

In the work of writing and ruling Statistical reports, Invoices, Statements, Inventories, etc.—Listing Checks, Deposit Slips, Cash Items, Vouchers, cash and credit sales, Trial

Balances, Pay Rolls, Cost Records and scores of similar tabulated records, Oliver No. 5 has no equal. It is the only machine that covers the whole broad field of modern commercial work in a satisfactory way.

The Oliver Automatic Tabulator is an integral part of every new machine—furnished without a cent of additional charge.

It caps the climax of a long series of improvements given to the world in the magnificent new Oliver No. 5.

Each of these remarkable innovations—the Oliver Tabulator and the Oliver Ruling Device—supplements the other.

Together they form a combination of untold value in all branches of commercial accounting.

The Oliver Typewriter is first of all a correspondence machine—supreme in splendid service. It makes work a pleasure by providing automatic means of spacing, tabulating, ruling, indicating exact printing point, securing proper register, etc.

The saving of time, of mental calculation, of manipulation, of extra attention and of eye strain is an incalculable benefit to the operator.

And the gain in volume of work well done—without extra operative effort—means much to every employer.

Write for the new Oliver Catalog—or better still—ask the nearest Oliver Agent for a demonstration of Model No. 5.

The Oliver Typewriter Co.  
116 S. 15th Street Omaha, Nebraska  
GEO. CORNER, Local Agent.

We can place several young men of the right caliber in well paying positions as Local Agents for the Oliver Typewriter in territory not already taken. If interested write for free copy of book "The Rise of the Local Agent."

## Winter in California

### GO IN OCTOBER

while the low colonist rates are in effect. Daily through tourist sleepers via Denver, scenic Colorado and Salt Lake. Go ahead of the rush at the end of the month.

### WINTER SEASONS RATES

First and third Tuesday each month to the far west, northwest and southwest. These make very low rate winter tours.

### SECURE AN IRRIGATED FARM

The best chances of the day in the Big Horn Basin and Yellowstone Valley. Government irrigated lands one-tenth down, remainder pro-rata in ten years without interest. Corporation irrigated lands equally cheap and favorable. A paramount and ruling fact in this region is the never failing water supply. Do not make your new home in any irrigated region without a full study of the water supply.

About a 1000 lbs of type and numerous other articles all for \$500 cash. To see this plant write or call at the Ch of office.

The International Tuberculosis congress which is likely to have a wide influence in this country on the war against the dread disease. So recent is the discovery of tubercular bacilli that there is not a man present at the congress but who well remembers its entire history. Dr. Koch, who was the original discoverer, was present. Notwithstanding the fact that the progress in eliminating the disease is considerable, as shown by the exhibits of all nations on view at the convention as compared with the work yet to be done is trifling. Some startling figures given by Prof. Irving Fisher, of Yale, at one of the sessions demonstrate the immensity of the task still before the profession and should prove an awakening to the public of the necessity of wide and concerted effort of all classes if the white plague is ever eradicated.

Prof. Fisher has gathered statistics which show that consumption kills 138,000 persons in the United States every year. This is equal to the deaths from scarlet fever, typhoid, diphtheria, appendicitis, meningitis, diabetes, smallpox and cancer put together. As it takes about three years for the disease to run its fatal course he estimates the minimum cost of the items of doctor's bills, medicines, nursing and loss of earnings for each victim at 24, while the earning power, if life were not cut short, is put at \$8000. If this is multiplied by 138,000, the number of those afflicted, it reaches the almost incalculable sum of \$1,000,000,000. He calculates that of this amount, \$4,000,000 fall on the family, friends or physicians of the victim, and he concludes by asserting that if one quarter of the lives are to be saved it would be necessary to invest \$5,000,000,000. Less than one per cent of this money is now being used for this purpose. In preparing this coldly statistical review of the loss in dollars and cents the professor does not forget to mention the more important cost in broken hearts and disappointed lives, which cannot be measured. Five million persons now in the United States are doomed to fill consumptive graves unless the crusade is more effective.

In another paper on the diet for consumptives he upset one of the theories upon which many sanatoria are now working, namely, that the victim of pulmonary tuberculosis must be fed and overfed and stuffed like Strasburg geese. From the experiments of Prof. Chittenden, of Yale, who has demonstrated that athletes have greater strength and endurance when taken off of a meat and egg diet, he has proved to his own satisfaction that consumptives do best on a moderate diet of non-proteid foods.

## PATENTS

promptly obtained in all countries, or NO FEE. TRADE-MARKS, Caveats and Copyrights registered. Send Sketch, Model or Photo, for free report on patentability. ALL BUSINESS STRICTLY CONFIDENTIAL. Patent Practice exclusively. Surprising references. Who else who inventors should have our handbook on how to obtain and sell patents, what inventions will pay, how to get a partner, another valuable information. Sent free to any address.

501 Seventh St., Washington, D. C.

## DECLARED WORSE THAN CANCER.

Of the Two, Pangs of Toothache Are Less Easy to Bear.

"You of the younger generation," said the dentist, severely, "don't appreciate the importance of the conquest of toothache that dentistry has made. 'Toothache is the worst torture that ever afflicted mankind. Its pains—'lancinating' they are technically called—are worse than the pains of cancer. Worse than cancer; that is the truth; I have heard it from physicians, I have heard it from three old people whom cancer finally killed. They all said that the pain of cancer at its worst was mild beside the pain of the worst toothache."

"Toothache drove DeQuincey to opium-eating, DeQuincey, too, says in his 'Opium Eater'—like all dentists, I have the passage by heart:

"No stronger expression of toothache's intensity and scorching fierceness can be imagined than this fact—that, within my private knowledge, two persons, who had suffered alike under toothache and cancer, have pronounced the former to be, on the scale of torture, by many degrees the worse. In both, there are at times lancinating pangs—keen, glancing, arrowy radiations of anguish; and upon these the basis of comparison is rested—paroxysm against paroxysm—with the result that I have stated."

## ANTS AS WEATHER PROPHETS.

Their Method of Giving Warning of an Approaching Storm.

Ants as weather prophets afford new testimony to the cleverness of these small insects.

When you go out on a spring morning and find the ants busily engaged in clearing out their nests and dragging the sand and bits of earth to the surface you may be sure that no matter how cloudy it is there will be no rain that day and the probabilities are for several days of good weather.

If, however, you see the ants about the middle of a spring or summer afternoon hurrying back to the nest and a sentinel trotting out in every direction looking up stragglers and urging them to go home as soon as they can get there, you may figure on a rain that afternoon or night.

When the last of the wanderers is found the picket hurries in and the nest is securely sealed from the inside to keep out the water. It is seldom that ants are taken by surprise by the approach of a shower.

## Show Men Like Apes.

Prehistoric paintings recently unearthed show man to have been like an ape. The only known examples of paintings of men by prehistoric cave decorators have been discovered lately by Prof. Rene Leaulnet in the Portel grotto, a cave of Louhens, in Arlege, France, where Noulet already had found quaternary remains and human bones. About 40 sketches in black or red, only one in both colors, adorn the cave as frescoes, and two represent men of a primitive type, while the others show bisons, boars and horses. Of the human figures one has a long head, with retreating forehead, while the other shows a remarkable apelike pose, with rounded back and arms pendent in front. There is a crouching bear, but the horses are mostly galloping and poorly drawn, although the forequarters of a horse are quite skillfully figured in black on one of the darkest walls of the cavern.

## One by Barnacled Ben.

"Yes, mate," related Barnacled Ben, retired seaman, "I certainly did see some wonderful things when I was cruising around the seven seas. Why, once we had a sawfish to follow the Nancy Jones for 1,000 miles. We used to throw off the leavings from the galley and when we'd hit a big calm, why, the sawfish would saw up our firewood in stove lengths. All we had to do was to toss the long sticks over and he'd saw them up in a jiffy. Then we'd take a long rake and rake them aboard. Nature faking? Never heard of it, mate, never heard of it."

And Barnacled Ben lit his pipe and shambled away.

## His Deep Concern.

The kind old lady noticed a small lad entering a cobbler's with a small package.

"What have you there, sonny?" she asked, kindly.

"Ma's slipper," replied the lad; "you see, there is a tack out of place in it and I want to have it fixed before ma notices it."

"Ah, what a considerate little boy! I suppose you are afraid the tack might hurt your mother's foot?"

"Well, it isn't exactly that, you see, the tack is sticking out on the sole and this is the slipper ma spansks me with."

## Arabs Outlive Eskimo.

While it may be true that the white man loses in intellectual and bodily power in the tropics, Dr. Lugt Sambon maintains, as a result of recent researches, that the average Arab lives 25 years longer than the average Eskimo; that the coast people of South America are longer lived than the mountain people; that old age is much commoner in the southern countries of Europe than in the northern countries, and that Spain (with a population smaller by 9,000,000) has 401 centenarians to England's 146.

## Sufficient Reason.

"Are you going to the commencement?"

"No."

"Why not?"

"I went to a commencement once."

## Swift's Premium Hams and Bacon

Fresh Meats

PINEULE MEDICINE CO., CHICAGO, ILL.

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
