

FOR CONSTIPATION

A Medicine that Does Not Cost Anything Unless It Cures.

If you suffer from constipation in any form whatever, acute or chronic, we will guarantee to supply you medicine that will surely effect a cure if taken with regularity and according to directions for a reasonable length of time. Should the medicine fail to benefit you to your entire satisfaction we promise that it shall cost you nothing.

No other remedy can be compared with **Rexall Orderlies** for the easy, pleasant and successful treatment of constipation. The active medicinal ingredient of this remedy which is odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a preparation which is incomparable as a perfect bowel regulator, intestinal invigorator and strengthener. **Rexall Orderlies** are notable for their agreeableness to the palate and gentleness of action.

They do not cause griping or any disagreeable effect or inconvenience, and may be taken at any time, day or night.

We particularly recommend **Rexall Orderlies** for children, delicate or aged persons because they do not contain anything that could possibly injure the most delicate organism.

They are just as easy to take as candy and unlike other preparation for a like purpose they do not create a habit but instead they overcome the cause of habits acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We want you to try **Rexall Orderlies** at our risk. We know that there is nothing that will do you so much good, and we will refund your money without argument if they do not do as we say they will. They are prepared in tablet form in two sizes of packages: 36 tablets 25c and 12 tablets 10c. The H. E. Grice Drug Co., Red Cloud, Nebraska.

Our New Agricultural Empire.

The Government wants to know why intelligent well-to-do farmers from the Mississippi Valley continue to flock to the Canadian wilderness to take up homes under a foreign flag while inviting and attractive opportunities for settlers are still open on many of the reclamation projects in the west.

While there has been a decided falling in the movement from this country into the North West Territories, the number of our desirable citizens who are leaving the United States to take up farms in Canada is large and efforts should be made to divert them to the several sections in our own country where just as good, if not better, opportunities exist for the homeseekers.

The National government is a big land owner but it does not advertise, while Canada expends large sums annually for this purpose. Steps should be taken at this time to acquaint the homeseekers of this country with the fact that within our own borders there yet remain many desirable locations for home builders.

Our great western region in soil, climate and crop possibilities is superior to the region farther north. It possesses better transportation facilities and markets, it is under our own flag and is occupied by our own people. Its development adds to our national greatness and strength.

Potentially is the richest and most fertile agricultural area in the world and it is destined to become the center of vast population which shall represent the highest ideals of American citizenship. No efforts should be spared to exploit its advantages and opportunities.

Just at the present time the construction of three national irrigation projects has progressed to the point where settlement is invited and a large number of farmers from the middle west have already taken up new homes thereon. The letters received from them by the Statistician of the Reclamation Service at Washington indicate their satisfaction in the change they have made and their abiding faith in the wisdom of their choice in location. Two of these projects are in Montana and one is in northern Wyoming.

Nearly 100,000 acres divided in 40 and 80-acre farms are now ready for homeseekers. These farms are open to settlement under the homestead act, subject to the provisions of the Reclamation Law. The soil and climate are such that with the assured water supply which the Government guarantees, maximum harvests are insured. Intelligent farmers on these projects is rewarded by larger returns than in humid regions and the crop products are as diversified as can be grown in the middle west.

On the Huntley project in Montana nearly 40 families came from two townships in Iowa and their success this year is certain to bring a large number this winter and next spring.

Twenty families a month are going on the Shoshone project in Wyoming, nearly all of whom come from the middle West. There still remains farms for several hundred homeseekers on these projects, and the opportunity is worthy of the careful consideration of every man who is seeking independence and a life in the open, where a maximum reward is assured for his labors.
