You are cordially invited to call and see my new Spring line of Ladies Furnishing Goods, at the Fair Store Building. To my former customers and others I give a special invitation to call and see me. Will have my Stock in shape for your inspection by Feb. 27th. And I respectfully solicit your patronage.—Geo. P. Johnson.

P. Wullbrandt has arrived and taken charge of the Fulton Grocer Co's stock of groceries. He has given his order for a large assortment of fresh groceries which he will add to the stock on hand. Mr. Wullbrandt has been located in Yuma, Colo., for many years and comes highly recommended. One of the main reasons why he selected Red Cloud for a business location is on account of the excellent school facilities the city offers for the education of his children. The Chief extends a warm welcome to our community and wishes him abundant success in his business here.

A city of this size has just reason to be proud of the showing her banks have made at the close of business Feb. 23, 1909. The combined deposits of both banks amount to \$415,865.77 and the loans amount to \$278,276.93. This is an excellent showing and reveals two very important things. First that the community has wealth in abundance and second that the people have confidence in the ability of our bankers. Depositors feel that their money is in safe hands. Both banks have made rapid growth since their organization and this has been accomplished by their painstaking efforts to please and protect their customers.

Clio Club.

The Ladies Clio Club gave a reception to the teachers of our schools on Saturday evening at the home of Mrs. Paul Storey. Carnations were plentiful and the club's colors, pink and green, were used in the various forms of entertainments. An elaborate banquet was served, afterwards the evening was devoted to various literary amusements. This was one of the most successful events of the season and all the participants report a royal good time.

The Ladies' Clio Club was organized in the year 1894 in response to a demand on the part of many who had completed their work in school who yet felt the necessity of pursuing a definite line of study in order that they might continue to advance in literary and intellectual attainments. The club has been a success from the start. Its membership is limited to twenty. At present the club is studying American history—this being the second year spent upon that subject. They will give one more year to American history before completing it. A careful study of their programs show that they are doing thoro work for example in the study of a certain history period they bring out the social, scientific, religious, literary and mechanical advancement of the period. Each member is permitted to use whatever text book she wants, thus giving a variety of authors and a rich fund of information. Their meetings are held Saturday afternoons and usually the seminar method of recitation is used. This club has gone about its work quietly and without ostentation, seeking to obtain merit in work well done rather than public applause.

The Chief feels that an organization of this character should receive the hearty commendation of the entire community. We bespeak for them continued success for years to come.

SOD MILLET MAKES PROFIT

First Crop on 80 Acres Brings \$1,650 in Castro County Near Spring Lake.

O. B. Axtell of Spring Lake neighborhood, and whose farm is near the line in Castro county, was in Dimmitt Monday to market his millet which brought \$1.50 a bushel. Off of 80 acres he thrashed 1100 bushels that netted at market \$1650.

This was on sod land and the land cost \$15 per acre; breaking of land \$2 per acre, cutting \$1 per acre, and a whole cost of about \$1.528 on the 80 acres.

After paying for the land and all costs of planting, harvesting, thrashing, etc, he cleared \$122 and the straw, which is not figured with the above will bring \$8 a ton on the ground.

This is one of the many hundred of proofs that the first crop will pay for land and all expenses besides making a good profit on first sod crop.—The Plainsman, Dimmitt, Castro county, Texas.

This land is ten miles north of where Geo. Hutchison and Dr. Thomas bought in the Panhandle of Sellars & Holmes, for \$15 per acre.

Woods Liver Medicine is a liver regulator which acts directly on this organ, invigorates and produces natural action. Brings quick relief to sick headache, constipation, biliousness and other symptoms of liver disorders. Particularly recommended for jaundice, chills, fever and malaria. The \$1 size contains 2 1/2 times as much as the 50c size. Sold by Henry Cook.

Eye Defects Are Not Diseases

A defect of the eye is an imperfection in the structure of the eyeball and is not a disease, though by neglect and abuse it may lead to disease and often does. Nearly all eye troubles are caused by optical defects. Glasses properly fitted are the only remedy that will overcome all defects and give permanent relief. Our Eyesight Specialist measures the eye for every known defect or imperfections of vision. His examinations are the most thorough and scientific possible. The most modern instruments and his own original and exclusive methods are used in every case, and you will quickly realize that a most searching and exact test of your visual powers has been made. If you don't need glasses we will tell you. If you do—and will have us grind a pair for your particular case, we guarantee you will have the easiest, most perfect vision, you have ever known or there will be no charge. Consultation free. Ask about toric lenses.
