Manzan is good for any kind of Piles. It stops inflammation, creates a normal circulation, thus reducing the Piles, and heals the parts affected. Manzan may be conveniently and easily applied, as the tube in which it is put up has a small, patent nozzle attached. Sold by Henry Cook.

The Rivers "Still There"
Henry J. Maurer of Red Cloud, Nebr., is in the city visiting his brother, George Maurer, and uncle, Henry Dinderman. It has been forty-one years since he left this part of the country and he had not been back since. He does not find much to remind him of the village of Elkhart except the rivers. They seem to be where they were when he went away, he says. He is now a prosperous stock man, owning several hundred acres of land.—Elkhart, Ind., Daily Review.

WASHINGTON LETTER.

At what has been generally termed the most important conference of the Taft administration, all the Republican leaders in Congress gathered in the library of the White House, formally approved the draft of the corporation tax amendment prepared by Attorney General Weeksman to carry out the provisions of the Taft proposition. Once more Republican discipline has triumphed. Individual opinions have been subordinated to the party leaders and in both houses of Congress a united front will be presented to the common foe, the Democratic minority. To the Democrats in both houses this situation is the occasion of serious disappointment. With a sufficient number of progressive Republicans endorsing the Democratic proposition of an income tax to make, with the Democratic Senators, a majority of the upper house, they saw victory almost within their grasp only to have it snatched away by one more remarkable demonstration of Republican discipline. Some of the Democratic statesmen declare that the moral of the situation will not be lost on them, that this obvious demonstration of the success in which victory may be gained even in the eleventh hour by a business to subordinate individual views and preferences to the party goal will be converted into a salutary lesson for all the members of the minority.

Bitter as is the disappointment of those Democrats who, with heart and soul, have striven to secure the enactment of an income tax, it is a safe prediction that when time shall have melted their disappointment they will realize that even in defeat they have gained no small part of the victory. The income tax which they proposed contained all that is embodied in the corporation tax amendment fathered by President Taft and in addition thereto provision for a similar tax on the incomes of individuals when they exceed \$5000 a year. It has been estimated by the federal actuaries that the proposed income tax would raise a revenue of \$70,000,000 a year. The tax on corporations will probably bring in to the federal treasury \$30,000,000 a year. It is, therefore, no exaggeration to say that the Democrats have won three-sevenths of a victory, especially as it is by their method that the \$30,000,000 of revenue is to be collected. Another point which is clearer to the man in the Press Gallery than to the Democratic Senators on the floor is that the Republican organization in the Senate has been forced into an attitude wholly repugnant to its innate ideas, has, through Democratic skill and the conduct of a few progressive Republicans, suffered actual defeat and has been compelled to espouse the cause of a President whose views in many respects are far more Democratic than they are Republican. The spectacle of Nelson W. Aldrich, senior Senator from Rhode Island, and Joseph G. Cannon, Speaker of the House, warmly applauding President Taft as he explained at the White House conference the beauties of the corporation tax scheme because it would enable the federal authorities to investigate the conduct and internal affairs of all corporations, was one which would have afforded intense delight to the Democrats in the Senate, and in fact all over the country, could they have witnessed it.

So many and such inaccurate reports concerning the provisions of the corporation tax amendment have found their way into the public print that a brief statement of what it actually contains may be out of place here. It imposes a tax of two per cent on the net earnings of all corporations including state and national banks, but with certain exemptions. The first \$5,000 of the net earnings of all corporations shall be exempt. Corporations having a bonded indebtedness may deduct from their net earnings the amount required to pay the interest on bonds to the amount of their capital stock, that is to say, a corporation with a capital stock of \$100,000, and outstanding bonds to the amount of \$150,000 may deduct the amount needed to pay the interest on \$100,000 worth of bonds, but not the amount necessary to pay the interest on the \$50,000 worth of bonds in excess of their capital stock. In the case of national banks the amount of the taxes they pay on their circulation will be deducted from the amount of income tax they are required to pay. All corporations large and small, must submit each year to the collector of internal revenue, a sworn statement of their gross receipts, operating expenses, any interest they may be required to pay on bonds, or other indebtedness, and net earnings, and in any instance where the Secretary of the Treasury suspects an attempt to evade the law, he shall designate federal inspectors to make a complete investigation of the books of such corporation. The knowledge of the internal affairs of corporations which this law will afford to the federal government, and then it to the public, is obvious.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heartburn, flatulence, or diarrhoea, take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.
