

WOULD GET WEALTH QUICKLY

Farmer Had Nothing But Contempt for the Moderation of the Street Magician.

A patent medicine salesman upon the streets of a small Maine village was giving a free sleight-of-hand performance in order to collect a crowd.

"Gosh!" an old farmer in the little audience muttered: "that fellow must not keener much for money. If I could do a thing like that, you bet I wouldn't stick at quarters—I'd take a half dollar every time!"—Exchange.

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods.

Adjustable. Aunt Anne, an old family dorky, was sitting with knees crossed in the kitchen, when the young daughter of the house entered and, impressed with the hugeness of the old woman's feet, asked what size shoe she wore.

"Well, honey," replied Aunt Anne, "I kin wear eights; I generally wear nines; but dese yer I've got on am twelves, an' de good Lawd knows dey huts me!"—Everybody's Magazine.

It Was His Way. A Kansas farmer was telling recently about the eavesdropping that goes on along the farmers' telephone line he is on.

He started, however, a year later, but was forced to halt. Again last month he started, but the accident to his balloon forced him again to relinquish the project. He announced then that he would try again.

In 1897 Andree and two companions left Danes island from a point only a few hundred yards from Walter Wellman's camp in an attempt to reach the pole by balloon. It was not a dirigible balloon and the hope of the explorers was that the winds would blow it up to the pole.

DISCOVERY OF POLE ENDS QUEST OF AGES

Record of Arctic Explorations Runs Back for Centuries and Is Recital of Dire Adventure and Tragedies

An American, Dr. Frederick A. Cook, has captured the honor for which daring spirits for centuries have sacrificed life and limb. That magic point, known as the north pole has finally been located by man, and the quest of ages is at an end.

made his effort to reach the pole with sledge and boat, using a ship from Spitzbergen, scene of his later attempts by balloon flight. His vessel, the Ragnvald Jarl, was crushed by fumes. May 28, 1894, at Walden Island. He continued north by sledge after the wreck occurred.

In 1899 the ship of the duke of Abruzzi touched at Franz Josef Land and Wellman, as the first settler, welcomed the duke. Then, in 1906, Wellman was prepared to start in his first attempt to reach the pole in a dirigible balloon.

tioned cannot now be located. It is probable that other rounded North Cape and visited the coast of Lapland.

In 1815 polar exploration found a promoter in Sir John Barrow, who offered a reward of £20,000 sterling to anyone making the northwest passage, and £5,000 for reaching 89 degrees north latitude, which would be 69 miles south of the pole.

He started, however, a year later, but was forced to halt. Again last month he started, but the accident to his balloon forced him again to relinquish the project.

The adventures of Frithjof Nansen, the Norwegian explorer, who in 1896 got as far north as latitude 86 degrees 14 minutes, are recent enough to be comparatively fresh in the public memory.

tragic voyage. His ships, the Erebus and the Terror, were seen by a whaler in July, 1845, and that was the last trace. For three years the British admiralty, spurred on by Lady Franklin, sent out relief expeditions, but the only reward of the searchers was the discovery of the grewsome relics of a frightful tragedy.

New Siberian islands and then drifting to the pole. A party was sent out to establish supply stations to which the explorer might retreat if necessary, and the cross country work was to be done on skis.

In 1900 the Duke of Abruzzi, nephew of the King of Italy, sailed from Christiania in the Stella Polari. He was considered an amateur, but he planted his standard in latitude 86 degrees 24 minutes, a new record that stood until Peary penetrated to latitude 87 degrees 6 minutes six years later.

BABY HORRIBLY BURNED.

By Boiling Grease—Skin All Came Off One Side of Face and Head—Thought Her Disfigured for Life.

Used Cuticura: No Scar Left.

"My baby was sitting beside the fender and we were preparing the breakfast when the frying-pan full of boiling grease was upset and it went all over one side of her face and head. Some one wiped the scald with a towel, pulling the entire skin off. We took her to a doctor. He tended her a week and gave me some stuff to put on. But it all festered and I thought the baby was disfigured for life. I used about three boxes of Cuticura Ointment and it was wonderful how it healed. In about five weeks it was better and there wasn't a mark to tell where the scald had been."

Care in Preparing Food.

In recent years scientists have proved that the value of food is measured largely by its purity; the result is the most stringent pure food laws that have ever been known.

One food that has stood out prominently as a perfectly clean and pure food and which was as pure before the enactment of these laws as it could possibly be is Quaker Oats; conceded by the experts to be the ideal food for making strength of muscle and brain.

LOW COLONIST FARES TO THE WEST AND NORTHWEST.

Union Pacific Passenger Department announces that Colonist Fares will be in effect from Sept. 15 to Oct. 15, 1909, to all points in the West and Northwest.

This year the West looks more promising than ever. Now is the time to secure land at low prices, and, at the same time, to visit the many interesting points in the West and Northwest, at which liberal stopover arrangements may be made.

A better estimate of raw lands can be made now than formerly, because these lands are in proximity to new farms that are producing wonderful crops.

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her.

Willimantic, Conn.—"For five years I suffered untold agony from female troubles, causing backache, irregularities, dizziness and nervous prostration. It was impossible for me to walk upstairs without stopping on the way. I tried three different doctors and each told me something different. I received no benefit from any of them, but seemed to suffer more. The last doctor said nothing would restore my health. I began taking Lydia E. Pinkham's Vegetable Compound to see what it would do, and I am restored to my natural health."—Mrs. ETTA DONOVAN, Box 290, Willimantic, Conn.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

No Man is Stronger Than His Stomach

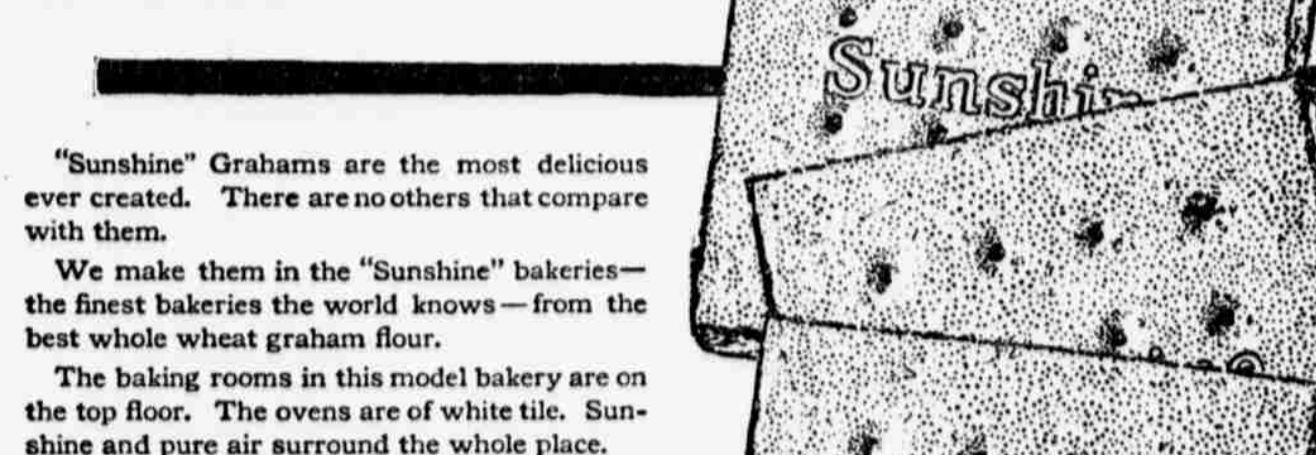

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and SO GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.
