CHEAPER ADMISSION

THE STATE FAIR MANAGERS OFFER LOWER RATES.

TWENTY-FIVE CENTS TWO DAYS

This Rate Will Also Govern Other Days After 5 p. m.—Miscellaneous Capital Matters.

The board of managers of the state fair met and approved the contract made by Chairman C. H. Rudge and President O. P. Hendershot for the appearance of the Wright Brothers aeroplane at the state fair which is to be held at Lincoln the first week in September. The board members present were President Hendershot of Hebron; Chairman Rudge of Lincoln; G. W. Hervey of Omaha; Peter Youngers of Geneva; L. W. Leonard of Pawnee City and E. Z. Russell of Blair.

The air ship flights promise to be one of the best attractions the board has ever engaged. Flights will be made both in the forenoon and afternoon of each day of the fair. Vaudeville acts will be given at the grand stand on the race course each forenoon, afternoon and evening.

Night races will be a feature of the fair this year for the first time in addition to fireworks. To light the track at night for racing electric or gasoline lamps will be used.

The trouble over securing Lombard's band and grand opera company has been settled and the band and singers will appear at a Sunday afternoon concert in the auditorium at the fair grounds. The manager of the organization desired to give a Sunday concert at another city, but the board proved that the original arrangements called for a Sunday concert in Lincoln and he agreed to come and sign the contract. The organization comprises 44 instrumentalists, 8 grand opera singers and sixteen chorus singers. Four concerts daily will be given.

Monday, September 1, will be labor day, and the fair board has decided to give special inducements for laboring men and old soldiers to attend on that day. The admission will be only 25 cents, half the usual price. For 25 cents one can stay all day and remain on the grounds during the evening on Monday. On Tuesday, Wednesday and Thursday an admission fee of 25 cents will be charged after 5 p. m. This fee is made low for the benefit of those who desire to attend the evening entertainments only. The board has decided to change the form of its tickets this year. In addition to a season ticket will be sold for \$2. The board also contemplates putting in cash turnstiles at all of the outer gates so that the ticket sellers and gate keepers may be abolished. The kind of apparatus in view will turn only when a patron drops half a dollar in a slot.

State to Refund Money. It is probable the next legislature will be called upon to pay in the neighborhood of \$12,000 or \$15,000 to corporations which have paid to the secretary of state an occupation tax based on the authorized capital stock instead of the subscribed and paid up stock.

Cannot Cancel Stock. Attorney General Thompson, in reply to a question, has informed the Nebraska state railway commission that it has no power to order the cancellation of stock, or any portion thereof, of any consolidated company organized under and complying with the provisions of section 10671, Cobby's Annotated Statutes for 1909, where such company has issued its stock to an amount in excess of the actual value of its properties. The commission has this question before it in the complaint of County Attorney F. M. Tyrrell against the Lincoln Traction company.

Reduction of Falls Allowed. The Nebraska Telephone company has been permitted to reduce its toll rates at Elk Creek, Johnson county, owing to the recent installation of an independent exchange at that point. The Nebraska company was also authorized to cut its toll rate between Wayne and Wakefield from 15 cents to 5 cents.

Invitation to Roosevelt. An invitation will be extended to Theodore Roosevelt to make an address before the Epworth assembly this summer, according to an announcement yesterday through the Lincoln Commercial club. A committee of club members who are also boosters of the assembly will send a letter asking him to come. As Mr. Roosevelt is to speak before the national conservation congress at Kansas City and fill some other western dates, it is hoped that he can be booked for a Lincoln engagement.

Nebraska Wheat Production. Grain dealers estimate the probable wheat production in Nebraska this year at upwards of twenty million bushels, which is about half the state's crop in 1909. The normal amount produced in this state in past years has been 40,000,000, and about half a crop is what the grain men expect, taking the state altogether. The southeastern counties are worse hit than the region farther west, but some of the North Platte territory has also suffered, notably a part of Platte county north of Columbus.

TUBERCULOSIS LAW.

Copy of the Enactment Effective July 1, 1909.

There having been some criticism of the Nebraska laws regulating tuberculosis, the Poole enactment passed by the last legislature and effective July 1 of last year, is herewith printed: 4407. Sec. 4. (Consumptives, Hospital Care). Any person who is afflicted with tuberculosis disease of the respiratory organs of a curable nature, and who has been a resident of this state for at least one year continuously preceding the application for his or her admission to a hospital under the provisions of this act, and who is without means to pay for hospital care and treatment, may be admitted to such treatment under the provisions of this act.

4707. Sec. 5. (Board of Health—Duty). It shall be the duty of the Nebraska state board of health to institute inquiry for and receive applications from hospitals in this state for the care and treatment of the persons described in section 1 of this act. It shall pass upon and make a list thereof to each county clerk in the state. It shall prescribe regulations for the care, housing and nursing of each patient, and see that the same are complied with. Provided, that the charges at any such hospital for any patient under this act shall not exceed \$7 per week, and shall include board, lodging, care and medical services. Provided further, that it is made obligatory for any such hospital or sanatorium to use modern treatment by immunization (vaccine therapy) in addition to open air and other sanitary methods.

4707. Sec. 6. (Expenses by County). It is hereby made the duty of each county in this state to bear the pecuniary burdens of caring for the persons described in section 1 of this act. Upon written application to the county judge signed by the person seeking treatment or by some relative or friend, setting forth the name, residence and circumstances of such person, the county judge shall order a hearing and examine under oath such persons as may be required by him to establish the facts. If the county judge shall be satisfied that all the conditions named in section 1 of this act are fulfilled he shall approve the application in writing and certify the same to the county board of health. It shall thereupon be the duty of the county board to provide for the transportation of such person to some hospital in the state approved by the state board of health and willing to receive such a patient and to pay for his or her care and treatment there. Provided, no person shall be cared for under the provisions of this act without a certificate from a practicing physician that such person is afflicted with tuberculosis disease of the respiratory organs of a curable nature.

Mr. C. W. Poole, author of this measure, presenting the same for publication, says: "While I do not contend that this measure is perfect, I believe it to be a step in the right direction out of which Nebraska will eventually have a law second to none in the union."

New Equipment for Rock Island. The Rock Island railroad has filed with the secretary of state its contract with the Bankers' Trust company for new equipment for its system, to cost \$6,750,000, for the payment of which bonds have been issued.

Laws Out of Date. In an address to the State Medical association Dr. J. B. Greene, formerly superintendent of the Lincoln asylum, but now of Illinois, said the Nebraska laws for the administration of charitable institutions were the most antiquated in the country.

Vacancies Filled. The executive committee of the Nebraska association for promoting the interests of the blind met last week. Two new members were elected to fill the vacancies on the executive committee. They were Miss Etta Caton of Lincoln and Frank Brigham of College View.

Charge of White Slavery. Orin Teeters, under arrest at Nelson, has been extradited by Governor Shallenberger, and will be taken back to Oklahoma on the charge of "white slavery," an offense that is punishable by the Oklahoma law by imprisonment in the penitentiary from five to twenty years. Sheriff R. E. Reeder of Kay county, arrived in Lincoln to take the prisoner back with him. He says Teeters is accused of taking Violet Pontious, aged seventeen, for immoral purposes. Teeters and the girl have been traveling about in Oklahoma and Kansas since last January. The girl says Teeters promised to marry her but has not done so.

The Fourth of July celebration to be held in Beatrice this year under the auspices of the fire department will be made the occasion for a military display.

Segregation of Earnings. The State Railway commission listened to the attorneys for Lincoln and the traction company over the question of a segregation of the earnings of the several companies owned by the proprietors of the traction company. The stock of the traction company also includes a heating plant, power plant and an electric light plant, all of which are run by the same plant that operates the street cars. The commission is trying to get at what portion of the earnings should go to the several industries.

NOT INTERESTED IN TOADS

But Exasperated Suburbanite Was Forced to Listen to Statistics Until Patience Gave Way.

"Toads—" began the man who is always looking up queer statistics. "Blast the toads!" snapped the suburbanite with the ham, the bag of flour and the lawn mower. "I am not interested in toads."

"But you should be, sir. The toad lays 81,000 eggs annually." "Very extraordinary, but—" "The female toad also lives to be a thousand years old. Now if a hen could live to be a thousand years old and lay 81,000 eggs annually it would take a cold-storage warehouse as big as Maine, California and Texas, to hold them."

"Wonderful, but my train—" "Stood on end the eggs would reach from here to the moon and back and leave enough to fill the Pacific ocean."

"Let go of my buttonhole, sir. I want to make the train—" "Useless job. The train is already made. Listen to sense. After those eggs filled the Pacific ocean it would cause a tidal wave that would sweep—"

But just then the exasperated suburbanite brought his bag of flour down on the garrulous stranger. Then he escaped to his train.

What He Knew. "You can tell me the names of the twelve apostles, Sam?" said the pretty Sunday school teacher one morning. Sam's face fell, and he shifted his weight from one foot to the other. "Can't do it, ma'am," he said, sorrowfully; and then his eyes brightened; "but I can call off all the pitchers in the league teams," he volunteered.—Harper's Magazine.

In 1950. "Did he object to his wife's getting into prison?" "No; he only said it wasn't the jail where his mother used to go."—Harper's Bazar.
