# CENSUS PROGRESS THIRD

WORK OF ENUMERATORS SUB-STANTIALLY COMPLETED.

A REVIEW OF PRESENT STATUS

Population Schedules Soon Out of the Way and One-third of Those for Agriculture Have Been Received.

Washington.-An idea of the wide scope, as well as of the present status of the various statistical operations of the census bureau may be gained from a report which Census Director Durand has just made to Secretary Nagel, of the department of commerce and labor. This report covers the progress of the three great branches of the regular decennial census-population, agriculture, and manufacture-and also the current annual investigations which the bureau conducts from year to year and certain special investigations in which it has recently been engaged, aside from the decennial census.

Concerning the population division. the report states that the work of the 70,000 enumerators has been substantially completed. The schedules containing the population returns have been received from 38,000 districts. or more than half the total number. Some idea of the magnitude of the work of the enumerators, which includes the agricultural census as well as the population, may be gained from the fact that between October 2. 1909, and May 28, last, 32,747,132 schedules, blanks, etc., were sent to supervisors and enumerators, contained in 145,743 packages.

The agricultural division anticipates the receipt of about 6,500,000 farm schedules, besides a large number of irrigation, plantation, florist, and nursery schedules, as well as about 2,000,000 schedules covering live stock in cities and villages, not on farms.

The personnel and expense of the census bureau have naturally grown rapidly with the new work of the decennial census. The bureau had 761 clerks in the Washington office on December 1, 1909, and 1,908 clerks on June 1, 1910, the number increasing since then at the rate of about 50 per

The distributing office paid out over \$510,000 in May. The payment of enumerators' accounts was begun on May 12 and from 1.500 to 2.000 enumerators are being paid off daily, the payments on this account reaching nearly \$100,000 per day at the present time.

# A New National Party.

Oyster Bay.-Theodore Roosevelt had a long talk with James R. Garfield, former secretary of the interior, and Gifford Pinchot. It is not known what, if any, bearing their talk had on the national political situation. That the three men talked politics is conjectured. The Oyster Bay Pilot appeared, however, with an editorial to the effect that Roosevelt, Pinchot and Garfield were very busy forming a new national party.

Trying to End the Strike. Kansas City.-Thomas Lewis president of the united mine workers of America, and James Elliott, a mine owner of McAlester, Okla., resumed their conference here in an effort to reach an agreement that will end the strike of the coal miners of the southwest. Although the conference is executive, it is known that the meeting thus far has been harmonious and that an agreement is probable.

# ROUTT COUNTY, COLORADO, LAND BOOM PREDICTED.

Keen observers predict a big boom in property in Wantland, Colorado, the new town which is being built in the center of the Little Snake River Valley in Routt County, Colorado. A big irrigation system is being built to irrigate 60,000 acres of very fine land surrounding Wantland. The land is being sold by the State of Colorado for 50 cents per acre, under the Carey Act, and water rights cost \$35.00 an acre, in ten year payments. Sugar factories, flour mills, canneries, etc., are among the possible industries to be located at Wantland. Full information can be obtained from the Routt County, Colonization Company, 1734 Welton St., Denver, Colo.
