### For Bald Heads

A Treatment That Costs Nothing if it Falls.

We want you to try three large bottles of Rexall's Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and it should indisputably demonstrate that we know what we are talking about when we say that Rexall's Hair Tonic will grow hair on bald heads, except where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall's Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. The H. E. Grice Drug Co.

### Saw the Light.

"The subject of tips—made in Europe and closely imitated in the United States—always furnishes something new to the American tourist," said a man just back from Europe. "I had some clothes made in London. The tailor came to my hotel with a boy who carried his parcel, to 'have a fit.' He wore a high hat and prince Albert coat, and but for his shoes would have passed for well dressed. After the fit was over and the garments were packed up he was leaving the apartment when our English servant reminded me of the tip. I was afraid and, if I had overcome the fear, did not know the limit, and asked the servant to perform the operation. When they had gone I was told: 'You want your clothes to fit, sir, don't you?' And I saw the light."

An Expert Accountant. MRS. NEWLY—Don't you like my new hat, dearest? NEWLY—Yes, it's all right. MRS. NEWLY—Well, I bought it on your account, dear! NEWLY—Yes, you usually do.—Brooklyn Life.

## SAVING OF MILLIONS

WHAT COMPREHENSIVE SYSTEM OF WATERWAYS IMPROVEMENT MEANS TO FARMERS.

### FIGURES TO SUPPORT FACTS

On Shipments of Grain Alone the Direct Return Would Mean \$100,000,000, and Proportionately All Other Products Would Be Affected.

In a former article we gave facts and figures to prove that, if the comprehensive plan of waterway improvement advocated by the National Rivers and Harbors Congress were carried out, the direct return to the farmers of the country, on the single item of grain, would certainly be \$100,000,000 a year—and probably would be more than twice that sum.

But grain is not the only item on which the farmers would receive a benefit. The fact is that for the farmers—and everybody else, for that matter—the cost of transportation influences practically everything he buys, sells, eats, wears or uses in any way whatever, except water, air and sunshine. The average man is inclined to laugh when told that he pays out more for transportation than he does for taxes or because of the tariff—but his laughter does not alter the fact in the least.

There are three principal methods of transportation, the wagonway, the railway and the waterway, and there is so great a difference in the cost of transportation by these different methods that it is worth while to study the matter a little. The experts of the good roads bureau estimate the cost of hauling a ton of freight one mile by horse and wagon on the average road in the United States at 25 cents. The cost on a thoroughly good, smooth road might be reduced to 10 cents. Poor's Manual gives 7.82 mills per ton-mile as the average price received by the railways in 1907, while the official records kept at the Soo show that the average rate on the freight carried into and out of Lake Superior in the same year was only .8 of one mill.

### Facts in a Nutshell.

You can better understand what these figures mean if they are stated in another way. They mean that if you have a dollar to spend in shipping a ton of freight you can send it 4 miles on an average road, 10 miles on a first-class road, 127 1/2 miles on a railroad, and 1,250 miles on a lake vessel. It is very easy to see that good roads are a lot better than poor roads but that transportation by horse and wagon is too costly at the best to be used except for small loads and short distances. So far as interstate traffic is concerned the wagon road must be left entirely out of consideration. It is just as easy to see what a great benefit would result from the building of a railway into a region where there was none before, and that a still greater benefit would result from so improving a river that it is made dependably navigable when it was not so before.

Waterways increase prosperity in three principal ways, viz: direct saving, indirect saving, and by what may be called a creative effect. The direct saving is that which occurs on goods actually carried by water, and some facts which indicate how great this direct saving is, will also make more plain the vast difference between the cost of transportation by rail and by water.

Through the Soo canal at the outlet of Lake Superior there were carried in 1907, 58,217,214 tons of freight. This was carried an average distance of 828.3 miles at an average cost of .8 of one mill per ton-mile. If this had been shipped by rail at the average railway rate for that year (7.82 mills), its transportation would have cost \$328,633,364 more than was paid for its carriage by water.

The total freight carried on all lakes that year was, in round numbers, 100,000,000 tons. This vast tonnage was carried for \$550,000,000 less than it would have cost to send it by rail, and the improvements, which produce a saving large enough to pay off the national debt in less than two years, cost only \$85,000,000.

### Proof of Good Results.

Wouldn't you call that a pretty fair dividend on the investment? And don't you think it would pay to improve all our waterways as fast and as far as we can?

"But," says some one, "what reason is there to suppose that improved rivers would give anything like as good results as have been obtained on the lakes?" That is a proper question and is entitled to an answer.

The only waterway in this country which has been improved as a whole is composed of the four lakes above Niagara Falls, but there are many improved rivers in Europe. From a careful study of the results obtained on these rivers the army engineers estimate that when the improvement of the Ohio river is finished, freight can be carried thereon for one-half mill per ton-mile. That means that the dollar which will carry a ton 127 1/2 miles by rail and 1,250 miles by lake, will carry it 2,500 miles by river.

Cost of transportation will vary on different rivers with depth, width, swiftness of current, etc., but the estimated cost on a completely improved Ohio river can be increased by 60 per cent. before it will equal the average cost on the lakes in 1907, and there is still a margin of nearly 400 per cent. before you reach a rate one-half as high as that by rail. It will pay to improve our rivers.

### PROPOSED CONSTITUTIONAL AMENDMENT.

The following proposed amendment to the constitution of the State of Nebraska, as hereinafter set forth in full, is submitted to the electors of the State of Nebraska, to be voted upon at the general election to be held Tuesday, November 8th, A. D. 1910:

### A JOINT RESOLUTION to amend Section one (1) of Article seven (7) of the Constitution of the State of Nebraska.

Be it enacted by the Legislature of the State of Nebraska:

Section 1. (Amendment constitution proposed.) That section one (1) of article seven (7) of the constitution of the state of Nebraska, the senate concurring, be so amended as to read as follows:

Section 1. (Who are electors.) Every male citizen of the United States, of the age of twenty-one years, who shall have been a resident of this state six months next preceding the election and of the county, precinct, or ward, for the term provided by law shall be an elector; provided, that persons of foreign birth who shall have declared their intention to become citizens conformably to the laws of the United States and are voting at the taking effect of this amendment, may continue to exercise the right of suffrage until such time as they may have resided in the United States five years, after which they shall take out full citizenship papers to be entitled to vote at any succeeding election.

Section 2. (Ballots.) That at the general election nineteen hundred and ten (1910) there shall be submitted to the electors of the state for their approval or rejection the foregoing proposed amendment to the constitution relating to the right of suffrage. At such election, on the ballot of each elector voting for or against said proposed amendment, shall be written or printed the words: "For proposed amendment to the constitution relating to the right of suffrage," and "Against said proposed amendment to the constitution relating to the right of suffrage."

Section 3. (Adoption.) If such amendment shall be approved by a majority of all electors voting at such election, said amendment shall constitute section one (1) of article seven (7) of the constitution of the State of Nebraska.

Approved April 1, 1909.

I, Geo. C. Junkin, Secretary of State, of the state of Nebraska do hereby certify that the foregoing proposed amendment to the Constitution of the State of Nebraska is a true and correct copy of the original enrolled and engrossed bill, as passed by the thirty-first session of the legislature of the State of Nebraska, as appears from said original bill on file in this office, and that said proposed amendment is submitted to the qualified voters of the state of Nebraska for their adoption or rejection at the general election to be held on Tuesday, the 8th day of November, A. D. 1910.

In Testimony Whereof, I have hereunto set my hand and affixed the great seal of the State of Nebraska. Done at Lincoln, this 29th day of July, in the year of our Lord, One Thousand Nine Hundred and Ten, and of the Independence of the United States the One Hundred and Thirty-fifth, and of this State the Forty-fourth.

GEORGE C. JUNKIN, Secretary of State.
