Just as much care, in fact a little more, should be exercised in buying electric and irons, as in buying any thing else. Some irons use more electricity than others in doing the same work. Get your electric irons of MORRIS BROS., they carry the authorized iron. Be careful of "just as good" electric irons.

Here's a low-price picnic going on; you're invited YOU'RE probably not very different from the rest of us when it comes to getting some unusual value for your money; it's human nature, and everybody's got some of that in them.

We've made up our minds to clean up this stock of good things to wear; to clear out all fall and winter goods and start the spring season with an entirely new lot of stuff.

In order to do it we're quoting prices on these things that are good enough reason for any man who likes to get good things for less than they're really worth to come here on the run.

Hart Schaffner & Marx

clothes are among these goods; and when any man can get Hart Schaffner & Marx clothes at less than the usual prices he's certainly not very wise if he doesn't do it.

There are a lot of other good things, too; we'll give you an idea of what to expect here:

Fire broke out in the Peterson building, south of Cook's drug store, yesterday morning. The cause of the fire is unknown, but it seems that it must have caught from a defective flue. The fire department made a quick appearance, but the fire being so much in the roof it was extremely difficult to do anything with it. However, the fire was checked and the building saved, altho it was badly gutted.

A big surprise party was given in honor of George Corner and wife on last Monday night when their neighbors went in on them for an evening of enjoyment. A grand old-fashioned time was had with games, stories and an elegant lunch was served. George gave us a great variation of select music on his large graphophone. And all present pronounced it a grand affair. George and wife are enjoying life in great style. Having both lived in Red Cloud for several years, they were married about one year ago and moved on the farm and both agree there is no place like the farm for them.—One that was at the party.

James Peterson has sold a half interest in his automobile business to his brother, L. F. Peterson. This firm will make the selling and repairing of automobiles their exclusive business. They have purchased the ground between their present garage and the street and will erect a large and commodious building for their increasing business just as soon as the weather opens up. This building will be at least fifty feet square and will be the best one of its kind in the Republican valley. Peterson Bros. have unloaded two cars of machines already and later on will add more. This places them on an equal footing with dealers in Omaha and other large cities. They have the financial resources necessary to conduct an establishment of this character on a large scale and this will be an important addition to the industries of the city. We wish the new firm unlimited success and we have every confidence in their ability and efficiency.
