STATE CAPITAL LINCOLN CHAT

GETTING READY TO ADJOURN

The senate prepared for the end by indefinitely postponing all senate files on the general file. The Placek congressional apportionment bill died on the sifting committee file, so there will be no restricting of congressional districts for two years. Tibbets offered a resolution directed against the university extension department, and Placek offered a resolution demanding that the governor appoint a warden of the penitentiary. It is now too late for bills from one house to be read three times in the other house.

The house was seething with excitement over the coming test on Sunday baseball, but no effort was made until Wednesday. Both sides claim victory. The Sebeck board of control bill failed in the house. Omaha Ad club wins over Douglas county delegation and see bill recommended to pass. The election of county commissioners by districts was decisively defeated. A constitutional amendment for increase of pay for legislators was acted upon favorably.

Guaranty Not Yet Ready.—Although the bank guaranty law is now technically in effect, the mandate of the United States supreme court having been filed in the district federal court this week, it will be at least a month before the law is in practical operation.

This delay arises chiefly from two considerations; the legislature may change the guaranty law so that the orders of the state banking board would be materially affected, and it will take some time for the various state banks to compute their average daily deposits for the past two years in order to find out what their guaranty assessment amounts to.

Vetoed the Bill.—Governor Aldrich Monday vetoed S. F. 36, the Sunday baseball bill, introduced by Senator Bartling of Otoe. The senate later in the day passed the bill over the governor's veto. An attempt is to be made in the house to pass the bill, notwithstanding the veto. In that body it will require sixty votes to pass the bill. As it passed the house originally with fifty-six votes to its credit, considerable difficulty may be had in obtaining the necessary sixty votes. In the senate twenty-five votes make the necessary three-fifths and the bill, when placed on its passage over the veto, received twenty-one votes.

The Red Cross society at Washington has disbursed almost \$50,000 among the Chinese sufferers.

The house of representatives recommended for passage the one-half cent levy for eight years to cover the cost of removing the state university to the state farm campus, and authorizing such removal.

Carnegie Endowment Fund.—Without warning, Senator Tibbets introduced, and the senate passed, a resolution authorizing the regents of the state university to apply for participation in the Carnegie retirement fund for aged professors. Only Ollis and Pickens voted against the resolution.

A half dozen senators spoke fervently in favor of the resolution, Talbot remarking that he had voted against acceptance of the fund two years ago and that he had always regretted his action.

Banning's commission plan of government for cities of over 5,000, to be adopted by cities if they desire to work under its provisions, was placed on third reading and passed by a vote of 30 to 0. Sebeck was absent on account of illness and Horton of Douglas and Placek of Saunders were absent. The bill is S. F. 342.

Bartos made an ineffectual attempt to have the bill recommitted for amendment to the title but the friends of the measure said the title was correct and needed no doctoring, which would result in delay.

He Loves Nebraska More.—Washington, D. C.—William Jennings Bryan told the committee sent here by the citizens of Memphis to invite him to make his home in that city that he could not accept. The invitation was extended at a luncheon given Mr. Bryan by the committee.

The committee begged Mr. Bryan to come where "the people loved him, where he would always find friends." They felt sure that Memphis could easily raise \$2,000,000 if that would be any inducement to have Mr. Bryan in that city.

Mr. Bryan replied that it was not a money consideration, and if he looked at it in that light he would not be worthy of such an invitation. He said he knew he had friends in the south who would stand by him, and that was why they did not need him there; they needed him more in the north.

For Another Lorimer Investigation.—Washington, D. C.—Senator La Follette has introduced a resolution providing for another investigation of the Senator Lorimer case. It names as the committee of investigation Senators Works of California, Townsend of Michigan, McLean of Connecticut, Kern of Indiana and Pomeroy of Ohio. No action was taken, as Senator La Follette intends to speak on the resolution another day.

Funk, general manager of the International Harvester company, as the receiver of the alleged \$10,000 Lorimer slush fund, for more than an hour Thursday walked about the capitol building here trying to deliver himself to the Helm bribery committee under a subpoena served upon him in Chicago.

BIG SHIP HELD FAST

PASSENGERS TO NUMBER OF 1,720 SPEND NIGHT ABOARD.

TILDEN GOES TO SPRINGFIELD

Journey Made for Nothing, But Will Be on Hand Later—Resolution in the Senate for a New Investigation.

New York.—All efforts to free the steamship Princess Irene from her stranded position on the sands of the edge of the "graveyard of the Atlantic," on the seaward coast of Long Island, having proved futile, the 1,720 passengers, although within sight of their destination, remained on board all night. They were in for a sleepless night owing to a heavy ground swell, which began battering the vessel, to the full height of the superstructure, as night fell. She lies within fifty fathoms of her pier at Hoboken. After running into the sand in the fog early in the morning, the liner lay helpless throughout the day, surrounded by tugs and revenue cutters. Efforts to pull her free at afternoon high tide failed. Because of a high sea no transfer of passengers was attempted pending renewed efforts to drag her clear as early as possible.

He Loves Nebraska More.—Washington, D. C.—William Jennings Bryan told the committee sent here by the citizens of Memphis to invite him to make his home in that city that he could not accept. The invitation was extended at a luncheon given Mr. Bryan by the committee.

"Lame Leg Well"

"I wish to say that I have used Sloan's Liniment on a lame leg that has given me much trouble for six months. It was so bad that I couldn't walk sometimes for a week. I tried doctors' medicine and had a rubber bandage for my leg, and bought everything that I heard of, but they all did me no good, until at last I was persuaded to try Sloan's Liniment. The first application helped it, and in two weeks my leg was well."—A. L. HUNTER, of Hunter, Ala.
