Facts About Motherhood

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at the time of child-birth, but many approach the experience with an organism unfitted for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial. It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they, for the most part, trust to chance and pay the penalty. In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong.

Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her letter will be held in strict confidence.

SCRATCHED TILL BLOOD RAN

"When my boy was about three months old his head broke out with a rash which was very itchy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs and then to his entire body. He got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to prevent him tearing his skin. He was so weak and run down that he took fainting spells as if he were dying. He was almost a skeleton and his little hands were thin like claws.

"He was bad about eight months when we tried Cuticura Remedies. I had not laid him down in his cradle in the daytime for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was so soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to cure him. I think our boy would have died but for the Cuticura Remedies and I shall always remain a firm friend of them. There has been no return of the trouble. I shall be glad to have you publish this true statement of his cure." (Signed) Mrs. M. C. Maitland, Jasper, Ontario, May 27, 1910.
