There are two ways of spending a dollar. You can spend it at home, gain an easy conscience, make another friend and perhaps get the dollar back tomorrow, or you send it away, feel that you have sinned, offend the home merchant and forever lose the dollar and the blessed influence for good to yourself and neighbor.

We are pleased to see many of our citizens taking active interest in improving their homes and grounds. A little effort on the part of each citizen would give our town a prominent position upon the map. Nature has done much for us in picturesque scenery, now let us do much for ourselves along the improvement line.

Hereafter there will be no trouble in getting disconnected with central.

Contracts have been entered into by the State Fair Association with the Wright Company of New York for two aeroplanes and two aviators to make two flights each day of the Fair, Sept. 4 to 8. Last year, Hoxey with one machine was secured for the flights and when he went into one of the barns on Tuesday morning it deprived numbers of our people from witnessing this modern attraction. The management does not intend to have such an accident to one machine disappoint their patrons, so have gone to an added expense to secure two complete outfits that people who come to one of the best fairs on earth will not be disappointed this year.

Western Land Show

Omaha, Neb., June 20th.—Special:—The many thousands of Nebraskans who expect to attend the Omaha Land Show, October 16 to 28 inclusive, will have the pleasure of seeing their home state magnificently represented. Some of the best space in the big coliseum where the show will be conducted is being reserved for the Nebraska exhibits. There will be a special Nebraska State Day, and nothing will be left undone to show up the resources of the state to the best advantage.

The regents of the University of Nebraska have decided to assemble an exhibit designed to show the advantages and vast resources of the state. Besides this big general exhibit there will be a large number of individual county displays. Indications are that every section of Nebraska will be represented at the Land Show. Already a number of western counties are arranging for space in the coliseum, and more will be heard from as soon as the individual communities know what to send for exhibition purposes. The people from all over the west

will be especially interested to know what Nebraska has to offer, and the object is to make the best possible showing. General Manager W. O. Paisley, who has just returned from a tour of several western states, says that everywhere he went he found basic conditions wonderfully solid, largely because the era of development is beginning to dawn, and the speculator is being crowded out of the field. He is enthusiastic over the crop conditions, which will insure a prosperous season, and finer land displays than have ever gone out of the west.
