tion will be based upon the vote cast
for presidential electors in 1908, and
each county will be entitled to one
delegate for each 150 votes, or major
fraction thereof, cast at said presi-
dential election, giving the several

It is recommended by the state com-
mittee that no proxies be recognized
by the state convention, but that the
delegates actually present from each
county be authorized to cast the full
number of votes to which the county
is entitled under this call.

Secretary. Chairman.

Through Yellowstone Park.

That is what the audience felt who
heard Rev. Tompkins lecture at the
Methodist church last Wednesday
night, as though they had actually
been taken on a trip through the won-
ders of the most wonderful park
scenery. And the trip was a most deli-
cious one, for the entire company.

The lecture and the pictures were
certainly a treat. No better pictures
could possibly be obtained than those
shown by the aid of Mr. Tompkins'
powerful stereopticon. They were
furnished the speaker by the Great
Northern railway company, and were
obtained by the best artists in the
country, with unlimited resources of
time and money behind them to get
the best.

All the principal points of interest
of the entire park were shown by hand
colored slides, and the speaker, being
personally acquainted with the most
of the scenes, was able to tell of them
in such a way as to inspire the audi-
ence with a real sense of the grandeur
and beauty of the park scenery. The
lecture lasted almost two hours, be-
cause there were 150 slides and Mr.
Tompkins had an interesting descrip-
tion of each, connecting the whole so
as to virtually take one through the
park and to all the best and most in-
teresting and beautiful of its attrac-
tions.—Edgar Post.

way, all well built. Milk house 8 x 10, cemented supply tank,

one 14 x 18 and one 24 x 24, cemented floors; large hen house, built
on modern plan and cost \$600. Six well built small chicken yards.
Four cement feedways, three of them with troughs.

Nine hundred feet cement walks running from house to drive-
way, windmills, milk house, summer kitchen, chicken houses and
outbuildings. Implement house 20 x 50, granary 28 x 32 with loft,
ice house 14 x 16, holds 50 tons of ice. Two hog houses with room
for 14 sows, floored inside and outside with concrete.

Thirteen separate hog lots with good gates to each lot. Large
house and hay barn 40 x 64, holds 70 tons of hay; driveway and
feed bin 32 x 40, all concrete floor on ground, 3 inch tight flooring
in hay mow, 19 ft. space between ground floor and mow. Stalls
all 9 feet wide, built of 2 inch planks, and two harness rooms in
barn. Cow barn 14 x 36, hay mow for 2 tons of hay, 2 inch milk-
ing floor.

Plenty of room for all implements to be stored away in the
dry, and in good, well built and well painted buildings. All
buildings are new and well painted. This farm is all fenced and
cross fenced. 80 acres corn ground, 28 in alfalfa, 20 in pasture, 10
acres wild grass meadow, 13 acres hog lots. Plenty of fruit and
good shade trees. Land is free from sand or rock; much is level,
and all is readily tillable. Plenty of grapes, apples, peaches,
plums, small stuff and flowering plants. House lot is fenced in
200 x 300 feet with 50 inch heavy woven wire. Two good corrals 5
boards high, posts 8 feet apart.

Complete water system, 50 bbl concrete stock tank with cover,
concrete water troughs in hog lots, and abundance of water at
each lot, barn, milk house and summer kitchen. All piping 1 1/2
inch galvanized, 7 feet under ground, never freezes. Water sys-
tem alone cost \$2,000.

This farm was bought by W. S. Bense, the present owner, in
the spring of 1906 for \$6,500, and since purchasing the same he has
put on \$9,000 worth of improvements in spot cash. The raise in
the value of the land is not considered. But the high dollar buys
this farm.

Anyone thinking of buying a good farm and a nice home should
go out and look this place over. You will have plenty of time to
do so as the bids will run from now until Jan. 1st, 1912. All bids
will be kept a secret and no one will know an others bid until Jan.
1st. All bidders must deposit \$500 in either bank in Red Cloud to
insure good faith and if any bid buys either place and bidder fails
to consummate deal \$500 shall be forfeited.

The Brick Building is 24x100 feet, basement and two floors,
brick engine room 12x20. Building is now used for restaurant
and bakery. This building was purchased by Mr. Bense for \$7,000
in 1901 and he has equipped and improved it at a cost of \$5,300
more. Building rents at \$60 per month by the year, for the reason
that the present occupant bought the Bense stock and fixtures. Mr.
Bense desires to sell out to go into business in Salt Lake City.
He likes to farm and has made it pay. He has done well and prospered
in Red Cloud and likes the people. But Billy, like many others
sees opportunity knocking at his door, calling him else-
where. He desires to sell all his holdings here and offers them to
highest bidder.

Mr. Bense reserves the right to reject any and all bids not in-
consistent with fair play. But he proposes to sell and sell he prob-
ably will to the highest bidder.

All bidders are cordially invited to go out and look this farm
over. Also to look over the brick building. Mr. Bense will be at
the farm and show you around in person.
