Chautauqua Notes

Resolved: That this year's program is the best ever:

That the Rev. Tompkins is an ideal platform manager;

That Dr. Cook had a most plausible story and that he captured many of his hearers, but not all;

That the Forbes Juvenile Band was enjoyable and one of the most delightful numbers on the program and that should they come again they will be advertised to the limit;

That more should be known concerning the talent before the chautauqua commences. We get tired looking for something great to come when we have no idea what kind of greatness we are to expect;

That the best entertainments are not always the ones which command the greatest salaries. Anything pertaining to industrial development is extremely interesting to us all and there should be more of it on the platform;

That we are capable in a large measure of entertaining ourselves. The Red Cloud Concert Band was one of the very best organizations to appear this year. This band is composed of home folks and their music was as pleasing as any of the imported kind. We are prone to think that some outsider can do better than those we know, but the band demonstrated that we can do something ourselves. Next year we ought to give ourselves a little larger place on the program;

That the little ones should receive more attention. They count as inhabitants and should have something for their special benefit. One chautauqua management secured the services of an experienced kindergarten teacher who gave daily instruction to the children every forenoon and the tent was crowded with the mothers. This was a free attraction, but it proved to be the best drawing card of the entire list. The children were entertained and instructed and the mothers who were busy had time to get their work done and attend the afternoon sessions.
