Loss of Time means Loss of Pay
Kidney trouble and the ills it breeds means lost time and lost pay to many a working man. M. Balent, 1214 Little Penna St., Streator, Ill., was so bad from kidney and bladder trouble that he could not work, but he says: "I took Foley Kidney Pills for only a short time and got entirely well and was soon able to go back to work, and am feeling well and healthier than before." Foley Kidney Pills are tonic in action, quick in results—a good friend to the working man or woman who suffers from kidney ills. For sale at Henry Cook's drug store.

Nebraska Boosters.

Greater Nebraska is just beginning. Nebraska people are prosperous, progressive and enterprising.

The state maintains a great State Fair, where the Greater Nebraska movement originated.

All good Nebraska people join in boosting for the newer and the Greater Nebraska.

The State Fair and Exposition surpasses all others even as the state leads all others.

Nebraska is good enough for all loyal Nebraska people and it is being made better by systematic boosting.

Be a booster and join the procession.

Must Pay For Paper.

Taking a paper out of the postoffice makes the recipient liable for bill. O. D. Austin, a Butler (Mo.) publisher, sent his paper to Charles Burge. The latter paid for it twice and then refused to pay again. He said he ordered it stopped. But the court of appeals holds that mere acceptance of the paper created a liability. It adds:

"The preparation and publication of a newspaper involves much mental and physical labor as well as an outlay of money. One who accepts the paper by continuously taking it from the post office receives a benefit and pleasure arising from such labor and expenditure as fully as if he had appropriated any other product of another's labor, and by such act he must be held liable for the subscription price."

—Bladen Enterprise.

Hon. James Wilson, secretary of Agriculture, will address the farmers of Nebraska on "Reciprocity," at the State Fair, September 3th. Owing to the fact that this is a subject of moment in the affairs of the nation and will be one of the leading political issues in the coming campaign, a great gathering may be expected.

A good road to a good town is a good thing.

The Husking Bee in Maine.

One of the old rural institutions, which is still in vogue in spite of the progress of modern inventions, is the old-fashioned husking bee, says the Kennebec Journal. The Journal's correspondents from various sections of the state have been giving interesting accounts for the past two weeks of gatherings of this nature in their locality with the accompanying harvest supper, which seem to differ in but few points from those recorded in the pages of New England story writers of 25 and 50 years ago. About the only difference seems to be that the modern farmer can call all his guests together by telephone instead of waiting for slower methods of summoning them to bring results.

Hours of Early Birds.

An observant Frenchman who has been making notes of the habits of the feathered fraternity has just made a time table of the hours they wake of a morning.

The chaffinch heads the list with 1:30 a. m.; at 2:30 the blackcap halts the morn, while at three the quail utters his quaint "Pay tes dettes!" (Pay thy debts!)

The blackbird does not rise till four o'clock, while the tomtit, even more of a stay abed, does not commence his day till 4:30, while the restless sparrow considers the air not sufficiently warmed for his approval till 5:30 a. m.

He Knew the Rate.

John M. Love, secretary of the United Association of Gas Fitters' Helpers, held the other day in his Chicago office:

"A union, by keeping its finger on the labor market's pulse, can tell that market's condition and act accordingly.

"In fact, a union has the expert knowledge of the old man who went to a dentist to have a tooth drawn.

"It's a double tooth," said the dentist, "and it will cost you 50 cents. But, with gas, it will be \$1 extra."

"A dollar extra?" said the patient. "My goodness! Will I have to take 1,150 feet?"
