

# The Best Spent Money Is That Put Into a Home

because it brings real contentment and is a joy forever. From the earliest days of civilization the home has been the most sacred of all worldly possessions and, no matter how other customs may change, the home will always be the same. The ownership of a home means something more than just the investment of dollars. It's something your children will recall with pleasure long years after you have gone beyond, and the effect it will have on them will be worth more, perhaps, than a thousand times its cost. Our lumber is always selected so that it will be a perpetual advertisement for us, no matter where used, and we know if we are permitted to help you select the stock for your new home you will not be disappointed.
