## GOES ALL TO SMASH

### CANADA WANTS NO RECIPROCITY WITH UNITED STATES.

### AN UPSET OF CALCULATIONS

#### Seven Members of Present Ministry Defeated, But Premier to Retain His Seat From Unopposed Constituency.

Montreal, Que.—The Laurier government and reciprocity suffered an overwhelming defeat in the Canadian elections Thursday.

By a political landslide the liberal majority of forty-three was swept away and the conservative party secured one of the heaviest majorities, upwards of fifty, that any Canadian party has ever had. Seven cabinet ministers who had served with Premier Laurier were among the defeated candidates. The liberals lost ground in practically every province of the Dominion.

Where they won their majorities were small. Where the conservatives won their majorities were tremendous. Ontario, the leading province of Canada, declared almost unanimously against the administration and reciprocity.

The government defeat means that the Fielding victory knocks the reciprocity agreement, ratified by the American congress in extra session, and will not be introduced when the parliament assembles next month, and that a revised basis of trade with the United States looking to closer commercial relations will not be possible in the immediate future. The conservatives are committed to a policy of trade expansion within the empire and a closed door against the United States.

#### Pat Crowe in New Role.

Chicago.—Pat Crowe, sometime kidnapper, sometime preacher of the gospel, attacked a woman in Wells street. He was angered because the woman resented his attempt to flirt. The woman, hysterical and bearing on her face the imprint of the man's fist, hurried home before the police learned her name. Crowe, beaten by men who did not sympathize with his "strong arm flirtation," was taken to a hospital and later to a police station.

Chicago.—Peter S. Crosscup, presiding judge of the United States circuit court of appeals for the northern district of Illinois, has announced that he will not send his resignation to President Taft until the threatened publication of charges and criticisms of his judicial career have been made and he has taken action to vindicate himself. The jurist declared he would invite a far reaching investigation of his official conduct.

#### Lumbermen File a Demurrer.

Chicago.—Counsel representing thirteen secretaries of lumbermen's associations, under indictment by the federal grand jury for alleged violations of the Sherman anti-trust law, have filed in the United States district court a demurrer declaring that the allegations set forth in the government's charge are insufficient for a conviction.

#### Count of Texas Vote.

Austin.—By official count the state-wide prohibition amendment was defeated by a majority of 6,879 in the election held in Texas on July 22. The returns, canvassed by the state election board show 237,130 against the amendment and 230,251 for its adoption.

#### Land Withdrawn from Entry.

Washington.—The secretary of the Interior has withdrawn from entry 25,680 acres of land in the Blackfoot reservation, northwest Montana. He also has ratified all withdrawals and reservations heretofore made for irrigation purposes on the reservation.

#### Hope to Stop the Exodus.

Chicago.—Governors John Shafroth of Colorado, James H. Hawley of Idaho and J. M. Carey of Wyoming, held a conference with A. B. Hullitt, commissioner general of the national association of immigration officials here. As members of the advisory board of the association, the three state executives discussed plans for stopping the immigration to Canada of western farmers. The organization will spend \$1,000,000 to advertise the advantages of various sections of the United States for homelike purposes.

#### Have Entered Suit for \$5,000,000.

Trenton, N. J.—The Buckeye Powder company has brought suit in the United States circuit court here for \$5,000,000 damages against the E. I. Dupont-De Nemours Powder company and a number of its subsidiary concerns, which are commonly referred to as the "powder trust." The Buckeye company claims that its business has been injured by the practices of the so-called powder trust, and places its actual damages at \$1,119,957, and also asks for punitive damages.
