

## Home Permanency vs. Home Monotony

This is a vital question for present day homebuilders—whether to have a house which in appearance must always remain the same or a house that will permit of a little refreshing occasionally. Neighborhoods change as do individual tastes—a frame house can easily be made to harmonize with its surroundings—a fresh coat of paint often will make it as good as your neighbor's new house—the same as a new suit makes you feel like a new man. At any rate a frame house is susceptible to most any change you might desire and while it is permanent it does not necessarily need become an eyesore or a monotony. There are lots of things we've observed about houses and lumber that you should know before building—come in and we'll give you our views.

## 30 Horse-power Five-Passenger Fore-Door Touring Car—

This car is now ready for demonstration. Come and see it. To fully understand the exceptional value of this car you have but to compare it with what the entire market has to offer for 1912. Study the specifications below carefully. In what other car will you find such value at such a price? What machine under \$1250 can you line-up against this and item for item see so much for so little money? When you stop to consider the fine thorough construction—the heavy drop-forgings—the pressed steel frame—the selective transmission fitted with F. & S. annular bearings (which the most expensive cars in the world use)—the 30 horse-power motor, the big wheel base, the fore-door body with door handles and all levers inside the car, you can better realize what an actual advanced manufacturing step this new car is.

### SPECIFICATIONS OF MODEL 59

Wheel base, 106 inches; body, five-passenger fore-door touring; motor, 4 x 4 1-2; horse-power, 30; transmission, selective, three speeds and reverse; F. & S. ball bearing wheels, artillery wood, 12-1 1-2 inch spokes, 12 bolts each wheel; tires, 32 x 3 1-2 inches Q. D.

Silk Mohare Top and Brass Wind Shield
