Charles Durham, Lexington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear thru' on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something different to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two-thirds of a bottle he was cured. That is about six weeks ago and he has not wet in bed since." Sold at Dr. Henry Cook's drug store.

The meetings of Organized Agriculture begin at the University Farm, Lincoln, January 15, 1912.

Tuesday, January, 16, will be devoted especially to Horses, Wednesday to Swine, and Thursday and Friday to Cattle and Silos. The Horticulture and Dairymen's meetings continue for three days.

The reception at the Governor's mansion is to be held on Tuesday evening, with full programs of music and speakers of national reputation at the University Temple on Wednesday and Thursday evenings. The nineteen bodies of Organized Agriculture will meet here and hold their annual meetings, at which general business is transacted and officers elected. Every progressive farmer in our county should attend and secure all up-to-date ideas possible for the benefit of our community.

The 99th anniversary of the Emancipation of the American slave was properly observed by the Red Cloud High school last Wednesday afternoon. Mr. E. J. Overing, Jr., addressed the students—choosing for his subject the Emancipation Proclamation. The speaker drew a mental picture of the horrors of slavery as it existed in the southern states and how inconsistent and antagonistic this system was to the principles of our constitution. The speaker also related some inside history, why Lincoln's Proclamation was issued as a New Year's gift to the nation in 1863 and that it furnished the real impetus which led the federal forces from victory. Mr. Overing also asserted that the abolition of slavery marks the beginning of the first real progressive movement in America—that our social industrial and commercial advancement dates from the day when Lincoln dared to make our country in fact as well as in theory a land of the free.

Married

Chas. Johnston and Miss Hannah Oleson took the train last Wednesday morning and went to Red Cloud, where they were married. The young folks are well and favorably known in this vicinity, where they have resided so long.

LAND

No. 61. A quarter section for sale at \$8,000 on easy payments. About 100 acres smooth, balance gently rolling, all good soil underlaid with clay subsoil and free from sand or rock. About 30 acres under cultivation, balance in pasture, all first quality corn and alfalfa land and is an excellent dairy farm. Located 4 miles from good town on main traveled road in district of all good lands and productive farms. Complete set of fair improvements, house, stable, granaries, etc. TERMS—\$1,500 cash down, all the balance at 6 per cent until paid. \$5000 can be had on 5 years time with options to suit purchaser. This farm would readily rent for \$350 in cash or more for term of years, and is priced \$1,000 cheaper than any of its neighboring farms on the market with less improvements. Any good farmer with cash for first payment, could with little extra effort, make the rents take care of the interest until paid out, and soon own a good farm which will grow in value from the day of purchase. A real snap.

No. 40. A fine well improved farm at \$10,500. An exceptionally well improved farm, located close to two good towns on good roads. About 130 acres under cultivation, 10 in alfalfa and 30 in pasture. About 60 or 70 acres smooth, balance gently rolling, none rough, all readily tillable. All good fertile soil underlaid with clay subsoil and free from sand or rock. Complete set of new improvements, all in good repair. Large house 7 good rooms and 4 closets; large barn 30x40 8 double stalls, 100 bushel granary and 30 ton mow. Double granary 30x10, 10 ft driveway with plank floor and 10 ft eaves, all shingle roofed, capacity 10,000 bushels. Machine-shed 24x30 with shingle roof and repair shop attached. Wood-shed 12x20 shingle roof, henhouse, cow-shed 30x48 with stanchions and section of floor cemented. These improvements are all less than 5 years old except the house and would cost but little to repair into first class condition. Young orchard of apples, plums, cherries, etc., nicely laid out. Fine well drained feedlot very conveniently located, can be made any size desired, and all drains by natural slope into the garden and orchard, a most desirable arrangement. This farm is situated in territory of good land and district of productive farms. It is all good alfalfa land, and as it is located in an excellent corn producing belt, with its fine feed-yard and granary capacity, it is absolutely one of the best grain farms and feeding stations on the market in this country. Plenty of pasture lands not far distant and no neighboring competition in the corn market. 3 miles from one good town and 5 miles from another. The improvements on this farm cannot be rebuilt for less than \$1,000, and surrounding land of no better quality and less than one fifth of the improvements and farther from town, is on the market at \$9,000 and 10,000 a quarter. Special terms to purchaser. Worth your time to investigate. CHIEF OFFICE

Get the Facts About Our Lumber

before you decide on the construction of your new home. Investigate our stock closely and let us show you the difference between No. 1 and 2 and clear siding, sheathing etc. Find out first hand what the material is going to cost you and then you'll know whether or not there's any truth in the statement you hear occasionally—"Oh, you can't afford to build a frame house at the high price of lumber." Such expressions in themselves are all the evidence you need to tell you what is the best kind of material to use in building your home. Don't be misled, then, into using less substantial material until you've found out first handed just how high price lumber really is and particularly the different grades for different purposes.
