Land Commissioner Cowles has finished compiling a table showing the rates of taxation in twenty-four of the leading cities of the state. But one city is left out, that being South Omaha. Rates at the latter place have been reported as being 54 mills, but as the state official does not believe that that mark is official he left it

out of his table The rates quoted by Mr. Cowles include all city, county, school district and state taxes, and with the exception of special district assessments for sewer or paving improvements.

The following shows the table as prepared by Mr. Cowles:
