Fall of Thirty-five Feet Proves Fatal—Ulster Day Passes Without Disturbance—Shaping Parcels Post.

Berlin.—Germans are now paying for all kinds of meats, wheat, rye and several other necessities of life prices higher than are paid anywhere else in the world. Prices are still rising and the per capita consumption of virtually all foodstuffs is falling off. The number of horses slaughtered for meat in Berlin during the first six months of the present year reached 5,942 and exceeded the figures for the corresponding period of 1911 by 1,463. The Germans ate 43,762 tons less of beef in the first half of this year than in 1910, and paid \$8,750,000 more for the smaller quantity.

To Resist Home Rule.

Belfast, Ireland.—As the crowning proof of their determination never to submit to the domination of an Irish parliament thousands of Ulsterites—unionists and orangemen—devoted Saturday to signing the covenant of resistance to home rule. But, notwithstanding the anxiety and dread as to what might happen, Ulster day passed off without serious disturbance. In expectation of rioting troops were quartered in the city, but were not needed.

Scott and so seriously injuring Second Lieutenant Lewis C. Rockwell that he died a few hours later. Hundreds of persons, including fellow army officers attached to the aviation school, breathlessly witnessed the tragic accident.

THOUGHT HE KNEW THE SIGNS

Aged Darkey Could See Nothing to His Passenger Except a Man Instituting Lodges.

Bob Hull, the champion story teller of Savannah, had occasion lately to take a business trip into interior Georgia. He took his golf clubs with him, intending to stop on his way for a match on the famous links at Augusta.

He dropped off the train at his business destination—a small town on a branch road—and carrying his luggage climbed into an ancient hack and bade the driver, who was an old negro man, take him to the local hotel.

The negro eyed the queer-looking yellow leather bag that his passenger carried with the peculiar-looking sticks in it. His curiosity got the best of him finally.

"Boss," he began, "please, sah, 'scuse me—but mout I ax you a question?"

"Go ahead and ask," said Mr. Hull. "What kind of a lodge is you institutin'?"—Saturday Evening Post.

MIGHT.

Mr. Collier Down—This chicken is tough.

Mrs. Collier Down—But the dealer assured me that it was tender. He wouldn't tell a lie for a mere chicken.

Mr. Collier Down—But he might for an old hen.

Not Successful.

Mrs. Knicker—Why don't you go to the market yourself?
Mrs. Boyker—No, indeed; that's just the way Jack told me he lost his money.

The Language.

"I'm going to whip that child."
"No, you're not! It's my child. Now, beat it!"

HARD TO SEE.

Even When the Facts About Coffee are Plain.

It is curious how people will refuse to believe what one can clearly see.

Tell the average man or woman that the slow but cumulative poisonous effect of caffeine—the alkaloid in tea and coffee—tends to weaken the heart, upset the nervous system and cause indigestion, and they may laugh at you if they don't know the facts.

Prove it by science or by practical demonstration in the recovery of coffee drinkers from the above conditions, and a large per cent of the human family will shrug their shoulders, take some drugs and—keep on drinking coffee or tea.

"Coffee never agreed with me nor with several members of our household," writes a lady. "It enervates, depresses and creates a feeling of languor and heaviness. It was only by leaving off coffee and using Postum that we discovered the cause and way out of these ills.

"The only reason, I am sure, why Postum is not used altogether to the exclusion of ordinary coffee is, many persons do not know and do not seem willing to learn the facts and how to prepare this nutritious beverage. There's only one way—according to directions—boil it fully 15 minutes. Then it is delicious." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. Adv.
