

# DE LAVAL CREAM SEPARATORS

Every User  
a Booster

Skim Cleanest  
Turn Easiest  
Most Sanitary  
Are Simplest  
Last Longest

That is a strong statement but we'd make it stronger if we knew how, because we are sure that the De Laval will more than make good every claim.

We don't ask you to take our "say so." We prefer to let the machine itself talk for us.

Why not let us set one up at your house? You can test it yourself alongside of any other machine you like for capacity, cleanness of skimming, and ease of operation.

We don't ask you to buy a De Laval upon "claims." We do ask you to be sure and give it a fair trial before you purchase any cream separator.

Don't put it off. Do it now.

Used Exclusively by 98% of the World's Creameries

## Nebraska Boys Growing Good Corn

The results of the Nebraska boys' corn growing contests inaugurated last spring by the University Department of Agricultural Extension are beginning to materialize in the form of splendid corn specimens arriving at the Stock Yards offices daily.

The Union Stock Yards Company with a view to stimulating interest among the boys of Nebraska in growing good corn last spring, as a follow-up to the Seed Corn Campaign, placed \$700.00 at the disposal of Prof. Pugsley's department to be awarded in county and state prizes to the boys of Nebraska showing the highest yields of corn from acre plots. In order that the boys of less favored districts of Nebraska might not be at a disadvantage in competition with their brothers in the eastern part of the state a division was made in the State prizes, so that \$125.00 is to be awarded in the western division and the same amount in the eastern division. The awards will be made at the State Farm at Lincoln in January during Institute week there.

Meanwhile, that the farmers and shippers, and others interested, may know what has been accomplished by these boys, the Stock Yards Company has arranged for samples of the corn raised by contestants to be sent to the Company at South Omaha where they will be properly labeled with name and address of grower and the acre yield and placed in large glass cases in the lobby of the Exchange Building. These samples will be kept on exhibition all winter and spring. Many samples have been received and they are still coming in. Most of the samples thus far received are excellent exhibits of corn and many of the ears come near perfection, while the yields range from fifty to more than one hundred bushels to the acre. Elton Stone of Lyons has the record to date for the highest yield, a little over 103 bushels. Geo. J. Roggenbach of Wisner comes next with 89 bushels; Harry Egger, Hooper, reports 88; Walter Pfeiffer, Hooper, 77 bushels; Alfred Miller, Surprise, 73 bushels; George Hartman, Paxton, 66 bushels; Ernest Hudson, Chapman, 62 bushels. William Rogers of Loup City reports that with less than five inches of rain his corn made a yield of 56 bushels. The Stock Yards Company is much pleased with the interest manifested by the boys throughout the state and with the success which has rewarded the efforts of most of them. While none of the yields are astounding, they show an average nearly three times greater than the entire corn yield for the State for 1912 and will be marks for the fathers to shoot at next year.

## Organized Agriculture Meeting At Lincoln

Detailed plans are being rapidly concluded for the twelfth annual convention of Organized Agriculture which meets at Lincoln, January 20-24, 1913. This is the representative gathering of all the allied branches of agriculture composed of some twenty-five state associations and over two hundred farmers' institutes and farmers' clubs. An attendance of five thousand or more is expected, based on previous attendance. The legislature will be in session and the farmers will have a good opportunity to see how their representatives are looking after their interests. The State Horticultural Society and the Corn Improvers' Association will put on a monster corn and apple show at the Lincoln city auditorium and the girls of the Domestic Science department of the State University will serve apples and corn products to the hungry in over two hundred different ways. Prominent speakers both from the state and from out side will be in attendance to discuss farm problems and the Commercial Club of Lincoln will provide interesting entertainment features for visitors.

### Good Girls Make Happy Homes.

Many mothers imagine their daughter's fortune made when she learns enough to thump on a piano, or labors enough to daub a cheap chromo or to work a yellow dog on a floormat. Girls are too glad to be spoiled that way. Teach them to command a regiment of pots and kettles; teach them to make good bread, good coffee, teach them to make garments and to patch them when they need it. Teach them physical development; teach them it is more cruel and less Christian for American women to cramp and distort their lungs, liver and stomach, than it is for the Hottentots to press their heads flat, for the Chinese to make their feet small. Good, healthy, industrious girls make happy homes, and wives and mothers.

### To Dehorn Cattle.

If you desire hornless cattle without use of a saw get a nickle of caustic potash at the drug store and keep it in a bottle so it will not slack. Catch your calf, take your stick of potash wrapped in a piece of paper, wet the hair over the horn spots and your calf will grow up a polled Jersey, polled Holstein, polled Short Horn, or polled whatever it is.

## Public Sale

I will offer at Public Sale at my place, 4 and 1-2 miles west and 2 north of Cowles, 8 miles north and 1-2 mile west of Red Cloud

Thursday, December 19th.

COMMENCING AT TEN O'CLOCK

67 HEAD OF STOCK 67

17 HEAD OF HORSES AND MULES 7

1 Gray mare, 6 years old, in foal to jack, weight 1500; 1 Bay mare, 7 years old, in foal to jack, weight 1500; 1 Gray mare, 6 years old, wt. 1400; 1 Bay gelding, 9 yr. old, wt. 1300; 1 Gray family driving horse 11 yr. old, wt. 850; 1 mare mule, coming 2 yr. old; 1 mare mule, coming 1 year old.

11 HEAD OF CATTLE 11

4 Choice Milch cows, 3 fresh soon; 3 coming 2 year old Heifers; 2 coming 1 year old Heifers; 2 Calves 6 months old.

49 Head of Shoats. Weighing from 50 to 150 lb.

## USEFUL GIFTS

AFTER all, it's the practical that pleases most because it shows of more THOUGHT. A clever nick-nack sparkles and glimmers for awhile and then it is cast aside and forgotten.

The really useful gift is a constant reminder of kindly feeling.

Give something that will last not for a few short days, but for weeks or months or longer still.

What?

Here is a great list of just such things:

SILKS BED SPREADS EMBROIDERY

## FIRE

THE ALARM is a dreadful thing OF FIRE for the man without insurance. Every time he sees the engines racing along his heart comes up in his throat if the fire is anywhere near his place. What folly, what mistaken economy.

THE COST OF INSURANCE is so small that it need hardly be considered. The freedom from worry alone is worth it many times over. Have us insure you to-day.

O. C. TEEL, Reliable Insurance.
